## High paint absorption meets strength and elasticity

## The perfect combination for all acrylic and oil paints

Thanks to our many years of expertise in processing natural and synthetic fibers, and through close collaboration with artists we have succeeded in developing a fiber blend for this series that represents another milestone.

By combining different fiber thicknesses, geometries, lengths, and a special heat treatment process, we have created a blend that not only offers high paint absorption and smoothness, but also exceptional shape retention and elasticity.

Specific strengths of each shape:

Depending on your project and artistic needs, various brush shapes are available to achieve the desired results.
