## Synthetic Mongoose Hair Artist Brushes

Synthetic Monza short and long handle brushes imitate the look and feel of natural Mongoose hair. These brushes allow full and tightly controlled strokes that manage the flow of color. Use Monza to pull and blend color and integrate the colored lines and edges that are created during the underpainting process.

- **Sharp chisel edge and crisp control**
- **Oils, acrylics, fluid, flow, gouache, watercolor**
- **Unique shapes, short filbert and bright**
- **Superior fine artist brushes**

Monza is exceptional in all oil and acrylic paints, but also, all types of fluids, gouache and watercolors. These brushes have the chiseled edge and crisp control of the finest, hard working, durable brush in any artist studio. Both Monza short and long handle brushes will quickly become an artists "go to" choice to make that perfect mark.
