

Portable watercolor paint set 【GEKKOSO GUNOÉ】

We quickly forget photos taken with our smartphones, but we remember hand-drawn pictures for a long time. By observing carefully and using our hands, we create memories that are filled with emotion. A sketch filled with wishes also has the power to make your dreams come true.

GEKKOSO GUNOÉ is a stick-shaped watercolor paint made from specially processed Gekkoso original watercolor paints. If you dissolve the stick-paints with a water-brush-pen while they are still in the case, they turn into vividly colored watercolor paints. If you remove the holder, they can also be used as colored pencils. The durable aluminum case is light, simple and free of excess decoration.

While traveling or visiting a cafe, you can jot down ideas as they pop into your head pinning down the dreams you want to realize.

GEKKOSO GUNOÉ is the ultimate innovative portable art tool supporting people's analog art life and freedom of expression.
