Attractive look, immediately understandable

Practical and compact

24 packs 250 gr each  
6 packs x 4 colours

# LET YOUR IMAGINATION SPARKLE!

## What is MOD?

MOD is an air-dry modeling clay that is ready to use and produced in Italy 100% with renewable energy. It does not require cooking, as it dries naturally. Gluten-free, vegan, odorless, and dermatologically tested, it contains over 85% natural components. The packaging is fully recyclable with plastic material.

## How to model MOD?

It is easily shaped by hand and can be finished with modeling tools such as spatulas, rollers, and sculpting knives. It is soft and malleable, non-sticky, and makes it easy to create detailed shapes. To give a smoother effect it can be moistened with water.

MADE IN ITALY

**How long does it take for MOD to dry completely?**

Drying time varies depending on the size and thickness of the piece created, but typically MOD will air dry in 24-48 hours.

**Can MOD be stored to be used many times?**

Yes, wrap the unused part of MOD in a plastic wrap and store it in an airtight container to keep it fresh.

**Thank you!**
