Why AT Clay?

1 Excellent plasticity

Excellent plasticity and strength lets you achieve fine expression and realism that you can't get with ordinary lightweight clay!

2 Low shrinkage

AT Clay doesn't warp or crack over time, allowing your art to keep its shape over long periods of time!

3 Sticking power

AT Clay bonds well to other clay, making detailed artwork super easy!

It even sticks to dry clay, letting you continue your work days later!

4 Plays well with paint

Add color to AT Clay by kneading paint in as you work or applying paint after it dries!

5 Stretchy when colored

AT Clay maintains outstanding stretchability even when mixed with paint!

6 Superior finish

AT Clay stays firm even when you stretch it for excellent modeling power!

Our clay keeps its shape even without a frame!

7 Creative capacity

Whether Artec's modeling frames, plastic bottles, or a wide range of other materials, AT Clay lets you get creative with your projects!

8 Smooth and fine texture

AT Clay provides a fine texture and a smooth feel without wrinkles!

9 Hand-friendly with minimal odor

AT Clay is free of strong fragrances and odors and doesn't stick to your hands as you work!

Patissiere Clay
