## NEW Shades of Italy - Venice Reflections 6 Color Watercolor Set

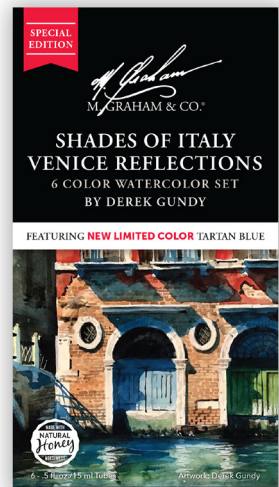

Includes **NEW LIMITED COLOR** Tartan Blue

M. Graham watercolors are made with a time-honored binding medium of natural blackberry honey and pure gum arabic, which gives them extraordinary strength that is easily diluted for smooth, controlled washes and richer color. Honey absorbs the moisture from the air preventing hardening on the palette or in the tube.

Northwest artist and illustrator Derek Gundy helped develop the limited edition color, Tartan Blue. "In my paintings, I am deeply drawn to structure and a sense of place, especially architecture. I find dynamic light and shadow essential to creating a successful painting, and M. Graham provides the vivid colors and contrast necessary for achieving beautiful artwork."
