# Installation principle Mobile Dance Floor Parquet

Each Dance Floor is assembled according to the brickwork principle and starts at the top left according to our drawings with a **plate with a double nose 'D'**, continues to the right with **standard plates 'N'**  
2nd row 1. plate left **half** a D-plate further and to the right with N-plates. etc

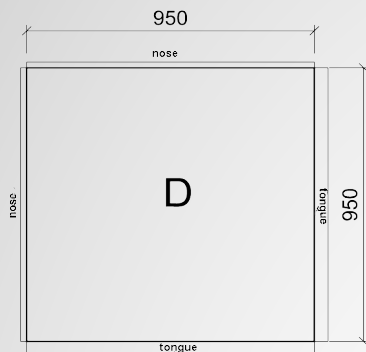

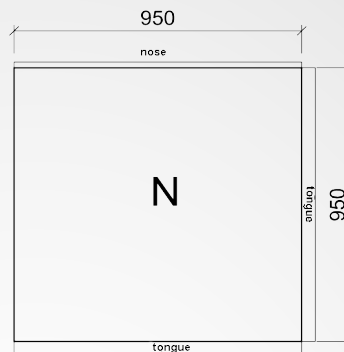

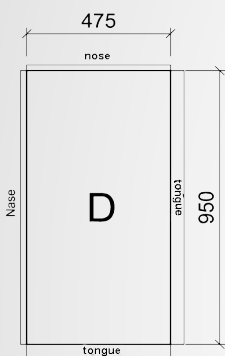

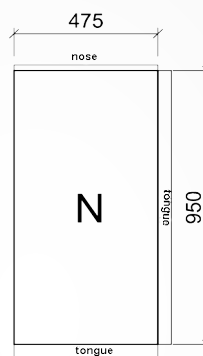

plate with double nose (black corners)  
= edge plate left

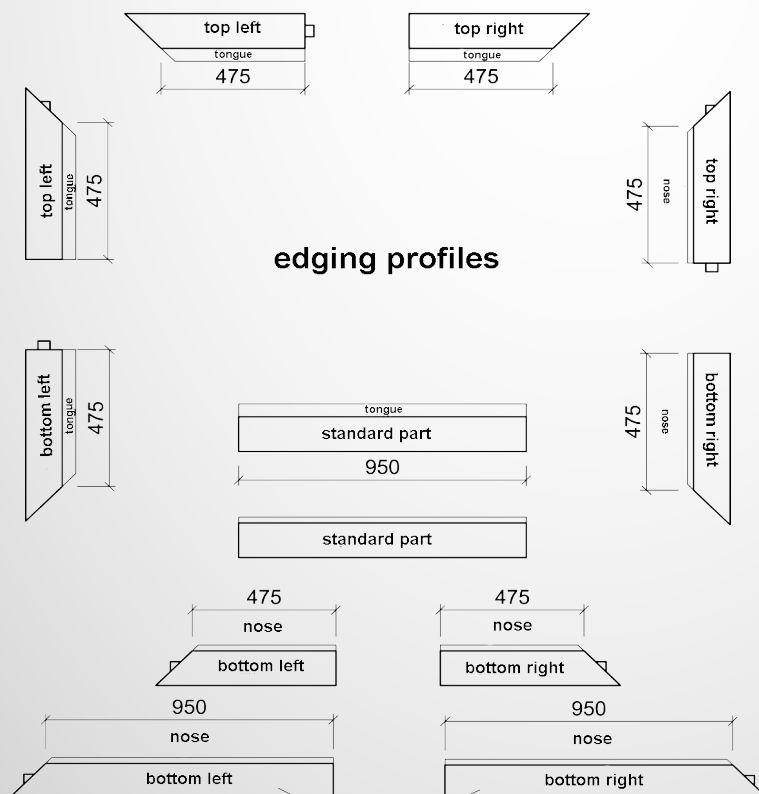

Standard plate (white/grey corners)  
= middle plate or edge plate right

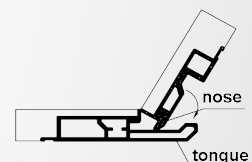

half plate with double nose  
(black corners)  
= edge plate left

half standard plate  
= edge plate right

edging profiles

how it works:

Place the panel vertically in the profile fold the panel over and the connection is closed.

When the last row is bound or ends with half a plate, these pieces are needed.
