THE STAGE IS YOURS.

Whatever you do with it, we are here to provide the most functional, safest, and long-lasting stage equipment possible.

As a true one-stop-shop for made to measure stage equipment, you can lean back and let us take care of the entire supply chain from planning, manufacturing to installation and after sales service. With 50+ highly specialised engineers and a dedicated project manager for your project, you can be certain we will always be on time and in budget.

With our C·A·T control system you not just get our latest graphical user interface, but highly customisable automation features that interfaces with every piece of your stage, no matter the brand.

No theater or event venue is the same and you wouldn't want to be stuck with a one-size-fits-all stage. That's why every stage we develop is custom designed to meet precisely your specifications. Whether it be vast opera stage, shape-shifting conference centers, or moveable LED-panels on a ship, our experienced engineers bring your vision to life.

With offices around the world and 24/7 availability across all timezones you will get the best service both for our own and third-party stage equipment. Just ask our clients who have been with us for decades. And with highly secure remote access using our control system, we can start running diagnostics within minutes, not days.
