La scelta di un rubinetto, oltre che da motivi di affidabilità, di tecnologia e di marca, è dettata da valori estetici poiché viene considerato come elemento da coordinare stilisticamente con altri e quindi può diventare un pezzo importante nell'arredo del bagno e della cucina.

Da queste premesse nasce **COLOR LINE** di Di Lorenzo, una serie di maniglie per rubinetteria sanitaria in resina, in 19 diversi colori, per soddisfare qualsiasi esigenza estetica e funzionale.

The choice of a tap, besides reasons of reliability, technology and brand, is generally suggested by aesthetical reasons, because it is considered as an element to be stylistically coordinated with others in a way to become a relevant part of the furnishings of bathrooms and kitchens.

From these premises rises **COLOR LINE** by Di Lorenzo, a set of handles for sanitary taps made in resin, in 19 colours to satisfy any aesthetical or functional requirement.
