

# 3 Way Valves of Siral

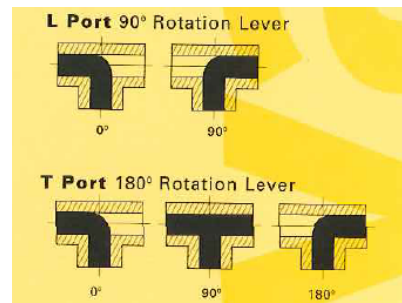

## 3VT and 3VL

3VT and 3VL: 3-Way brass ball valves.  
Rugged construction with 2-piece-body  
Version with 2 seals in PTFE

3VL: "L" shaped ball holes  
3VT: "T" shaped ball holes  
Wide range of applications: Water, Air,  
Vacuum, Oils, non-corrosive-liquids in  
general

Handle with label indicating the  
ball hole position

Range: 1/4" - 2" 1/2  
Pressure Rating: PN16  
Temp. Rating: -20° / +150°C

## Dependable and Durable Valve Solutions

## 3VNT and 3VNL

3VNT and 3VNL: 3-Way brass ball valves.

Version with 4 seals in PTFE

3VNL: "L" shaped ball holes

3VNT: "T" shaped ball holes

Wide range of applications: Water, Air, Vacuum, Oils, non-corrosive-  
liquids in general

Handle with label indicating the ball hole position

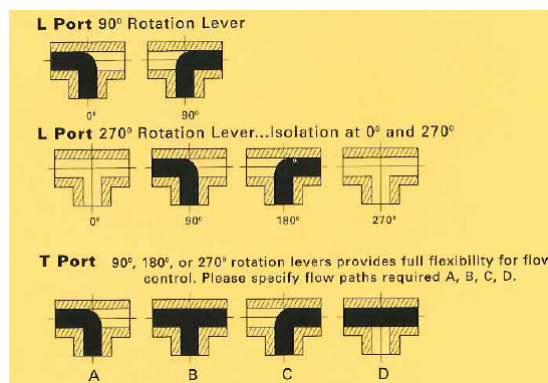

Maximum Flexibility in determining the flow patterns

Unless otherwise requested, these valves (3VNL/3VNT) are delivered with non-assembled  
handle with 4 teeth to be cut in function of the desired flow pattern.

Gamma: da 1/4" a 2"

Pressione: PN16

Temperatura: -20° / +150°C
