Professional manufacturer for hand dryers
auto soap and sanitizer dispensers
auto faucets
auto flush valves

HOKWANG INDUSTRIES
CATALOGUE

Hokwang Industries Co., Ltd.

We are the top maker of hands free hygiene products in Taiwan

SAVE OUR GREEN ENVIRONMENT

Auto Hand Washing Station	01
High Speed Hand Dryer	13
Conventional Hand Dryer	39
Soap Dispenser	47
Auto Faucet & Urinal, Closet Flusher	67

Hokwang, an ISO certified (ISO9001 and ISO14001), professional manufacturer in Taiwan, specializes in hand dryers, auto soap and sanitizer dispensers, auto faucets and auto flush valves. We offer a complete accessory package to make managing the hygiene of commercial washroom as easy as possible with our top quality products.

- Why choose HOKWANG?
- Excellent Services- Over 90% Customer Satisfaction
 - Experienced R&D team & Customized Services
 - Worldwide Safety and Green approvals and certificates:
UL, cUL, CE, GS, CB, BSMI, EMC, LVD, WEEE , RoHS, EPD and G Mark
 - UL & TUV certified laboratory in house
 - Innovative Products: Over 250 patents
 - Your Green Partner: Saves trees, water, and reduces waste
 - Better world: Corporate Social Responsibilities

Our main goal is to create a completely HANDS FREE commercial washroom and build long term relationships with our customers by offering quality hygiene products and timely customer services.

AUTO HAND WASHING STATION

One-Stop Solution for Hand Washing Stations, Rinsing and Drying

Hokwang offers different commercial hand washing stations in integrated design, most of which can be customized according to customers' demand. An auto hand washing station consists of a hand dryer, an auto soap dispenser and an auto faucet with the same stainless steel spout design and LED indication lights. They can be either wall mounted, deck mounted, or installed behind the mirror. These combinations create a simple and elegant look in a commercial restroom.

Hand wash stations are suitable for commercial restrooms in new projects or building renovations. Users can wash, rinse and dry their hands right at the wash basin.

It is the one-stop solution for hand hygiene that requires the smallest maintenance effort because it simplifies the cleaning process- no dripping on the floor nor waste bin full of used paper towels that needs to be cleaned.

PENINSULA Hand Washing Station

- Integrated Design
- Flexible Installation
- Standalone Hand Washing Station Available - Stainless Steel or Engineer Stone
- Stainless Steel Casting Spout (PVD available)
- IOT Compatible

PENINSULA SD

Soap Dispenser
Foam, liquid and spray pump
Interchangeable
Long life cycle
SUS 304

PENINSULA FA

Faucet

HK-CSDT Single Top-Filled Auto Soap Dispenser

Our top-filled soap dispenser system is a great match with all kinds of commercial washrooms. We provide single top-filled soap dispenser or a top-filled system suitable for multiple washing stations.

This is the solution to big construction projects and high traffic places.

Imagine the maintenance cost you could save by adopting our smart system!

HK-CSDT11 / 21

Refill soap from the top
Foam and liquid pump interchangeable
Long life cycle
Stable sensing range

● For detailed specifications, please see page 57.

HK-CSDTM Multi-Feed Auto Soap Dispenser System

- 6 L, 5 L, or 5+2.5 L Soap Tank Capacity
- One System can Supply up to 6 Soap Dispensers
- Soap Overfill Indicator – New Patented Technology
- Low Soap Indicator
- Operated by Gravity (Deliver Soap from Tank to Tube) – Energy Saving

Available Spout Design

● For detailed specifications, please see page 59.

EcoTap-D Hand Washing Station

- Integrated Deck Mounted Design
- LED Ring with Different Colors to Indicate Different Functions
- PVD Spouts Available
- Deck / Wall Mounted Both Available
- IOT Compatible

EcoTap-D SD

Soap Dispenser
Foam, liquid and spray pump

HIGH SPEED HAND DRYER

Full Range of Fast Drying and Eco-Friendly Commercial Hand Dryer

Hokwang provides a full range of high speed hand dryers. Using our eco-friendly high speed hand dryers represents a 95% cost saving when compared to using paper towels. Deck-mounted, semi-recessed and wall-mounted hand dryers are all available in our high speed hand dryer range. We also offer different surface treatments and colors for the covers, for example, PVD, enamel, brushed stainless steel, polished stainless steel, and powder coating to satisfy various needs. The energy saving and fast drying features have made high speed hand dryers a market trend now. They are often being selected for places like airports, train stations, shopping malls, etc., and they are also ideal for washing stations.

CONVENTIONAL HAND DRYER

Warm Air Traditional Hand Dryer - Induction Motor Available

From 1800 watts to 2400 watts, a full range of conventional hand dryers are available by Hokwang. We offer them in different air volumes, cover designs and material. There are stainless steel, aluminum, enamel coated steel and plastic covers to choose from. Moreover, the induction motors in conventional hand dryers last more than 10 years.

Different from high speed hand dryers, a conventional dryer gives you warm and gentle air, which adds to the user experience, and makes the whole drying process more pleasant and comfortable, especially in cold areas. The smoother air flow also helps keeping noise level down. Conventional hand dryers still are a popular choice in primary schools and kindergartens.

AUTO SOAP DISPENSER

Foam/ Liquid/ Sanitizer Touchless Soap Dispenser

A complete range of commercial foam soap, liquid soap and sanitizer dispensers can be found at Hokwang. To accommodate different installation locations, there are wall mounted and deck mounted auto soap dispensers to choose from. We also provide a top filled system that can supply to multiple soap dispensers. Hokwang has the best and the most eco-friendly solutions for commercial auto soap dispensers.

On some models, different soap pumps are interchangeable for flexible purposes and reduce the cost of inventory. Both refillable soap tank and disposable soap bag are available.

Multi - Function Soap Dispenser PLUS

- Interchangeable Pumps - Liquid, Foam and Spray
- Alcohol Resistant Pumps - Flexible Soap Choices
- Refillable Soap Tank - Environmentally Friendly
- Large Capacity - 1000 ml and 1200 ml
- Disposable Soap Bag Available

- Multiple Soap tank Capacities and Installation (6 L, 5 L, or 5+2.5 L)
- One System can Supply up to 6 Soap Dispensers
- Low Soap Indicator
- Operated by Gravity (Deliver Soap from Tank to Tube) - Energy Saving

If each soap station cannot be leveled, the one further from the soap tank has to be lower than its preceding one.

If the further one is higher than the preceding one, it may disallow the soap from flowing properly to the next station.

Note:

Use suitable length of soap tube to keep it straight. Do not bend the soap tube.

Mechanism

Soap Tank

Technical Specifications

Power Source	Alkaline (1.5V) D size x 4 or AC type (Optional)
Capacity	6 L or 2.5+5 L (1.58 gal or 0.66+1.32 gal) (Optional)
Power Indicator	Red light lights on for 3 seconds
Low Power Indicator	Red light flashing (Only when using batteries)
Low Soap Level Indicator	Green light starts to flash when soap level is below 25~30%
Full Soap Indicator	Green light stops flashing, an audible signal goes on for 15 sec
Package	1 set / carton Gross weight: 3.0 Kg. Measurement: 0.6'

AUTO FAUCET & URINAL, CLOSET FLUSHER

ELECTRONIC FAUCET INFRARED SENSOR OPERATED

Hokwang's auto faucets come in many operating methods and designs. The common material of our faucets is chrome plated brass but we also have them in stainless steel. Our auto faucets use a stable and high quality infrared sensor. Most of them have the sensor positioned right beside the water nozzle which enables a more instinctive and user-friendly operation. You can chose either AC power or a battery operated power source for the auto faucet. All electronic parts are waterproof and of the highest quality. From auto urinal flush valves to auto water closet flush valves, Hokwang offers various options for auto flush valves. There are also different models such as the exposed type, the recessed type, and the wall-mounted type for different installation. We use a stable infrared sensor, which enables the auto flush valves to minimize the waste of water. The sensing range and flow rate are all adjustable to ensure all settings are friendly to the environment.

Main Flush Time	2 - 16 seconds, adjusted
Operating Water Pressure	0.7 - 6.9 Bar (10 to 100 PSI) ---- UF508 1 - 6.9 Bar (15 to 100 PSI) ---- UF526DE
Water Supply Connection	PF 1/2 ---- UF508 PF 3/4 ---- UF526DE
Applicable Water Temperature	4 - 65 °C (39 - 150 °F)
Package	4 sets / carton ---- UF526DE 10 sets / carton ---- UF508 Gross weight: 13.5 Kg. Measurement: 1.5' ---- UF526DE Gross weight: 14.7 Kg. Measurement: 2.6' ---- UF508

Closet Flusher

- Hand-Waved Type Available
- Adjustable Sensing Range
- Flush Time/ Volume Adjustable
- Sentinel Flush - When Unused for 24 Hours

Cf101

Color : White
Material : ABS
Power : DC

Cf107

Color : White
Material : ABS
Power : DC

CF126DF

Color : Chome
Material : Cast Brass
Power : DC

CF112

Color : Chome
Material : Cast Brass

Technical Specifications

Power Source	Alkaline (1.5V) AA size x 4
Soleniod Valve Life	100,000 drops / cycles
Battery Life	3 years (Based on 3,000 cycles per month)
Battery Low	Indicator light (LED)
Sensing Range	400 - 800 mm (15.7" - 31.5"), adjustable
Detection Time	10 seconds
Flush Time	1 - 8 seconds, adjusted
Flowing Volume	6 - 9 Liter, adjusted ---- CF101, CF107 1.28 / 1.6 / 2.4 GPF, adjusted ---- CF126DF
Dual Flush	Light Flush 1.1 GPF, Standard Flush 1.6 GPF ---- CF126DF
Arming Delay	5 seconds ---- CF126DF
Flush Delay	1 second ---- CF126DF
Operating Water Pressure	0.7 - 6.9 Bar (10 to 100 PSI) 1 - 6.9 Bar (15 to 100 PSI) ---- CF126DF
Water Supply Connection	PF 1/2 1 1/2" ---- CF126DF
Applicable Water Temperature	4 - 65 °C (39 - 150 °F) ---- CF126DF
Package	4 sets / carton 8 sets / carton ----CF112 Gross weight: 8.8 Kg. Measurement: 1.5' ---- CF101 & CF107 Gross weight: 14.7 Kg. Measurement: 1.5' ---- CF126DF Gross weight: 11.0 Kg. Measurement: 1.2' ---- CF112

DIM'S
mm(inch)

A series of horizontal dotted lines spanning the width of the page, intended for writing or drawing.
