

**Self-adhesive AIS Klett System,
efficient installation,
comfortable and clean.**

**Enables tubes to be
fitted through simple
contact**

Save up to 40% on installation time

Circuit-free design

Maximum use of panel

High thermal and
acoustic insulation

System certified by the
UNE-EN 1264 standard *

AIS Klima
Innovative air conditioning
solutions

* Sistema certificado Klett grafitado Ref.: 412.07825N y Ref.:
412.12540N

AIS Klett Panel

Smooth compact panel with base made from insulating material (EPS and graphite) with a fine fibre surface sheet which enables fitting of AIS Klett tubing through simple contact.

The panel is supplied in rolls for fast installation

KLETT GRAPHITE PANEL 25mm

- Roll 12 x 1 m
- 0,78 m_e K/W (according to 2022)
- Impact sound insulation $\Delta L_w = -28$ dB

* Complies with regulations for on-site areas or unheated premises

KLETT GRAPHITE PANEL 40mm

- Roll 8x 1 m
- 1,25 m_e K/W resistance (according to 2022 regulations)
- Impact sound insulation $\Delta L_w = -28$ dB

* Complies with regulations for on-site areas or unheated premises

ULTRASLIM

- Low height system (2mm)
- Roll 20 x 1m
- Installation height from just 8mm
- Ideal for alterations

KLETT WHITE PANEL 25mm

- Roll 12x 1 m
- 0,56 m_e K/W resistance
- Impact sound insulation $\Delta L_w = -28$ dB

Self-adhesive system:
Immediate installation, save up to **40% on installation time**

High use of sheet: reduced cuts and waste

Compliance with standard with reduced thicknesses:
maximum use of available height

System that complies with thermal insulation requirements: UNE 1264 standard
