Kaiping Hanshun Sanitary Ware Industrial Co., Ltd was founded in 2009, located at the famous Chinese sanitary ware production base, Shuikou Town, Kaiping in Guangdong. Over the years, the company has developed a professional scale of R & D, production and sales. The company has always been dedicated to the design and development of showers, kitchen sprayers, sliding bars, and other bathroom accessories. We insist the concept of the quality is the first, the tenet of customer is uppermost and the innovation ahead. We keep completing the quality assurance system, optimizing the customer service team, to ensure our efficient production management team. We have passed the ISO9001:2008 quality management system certification and fully implemented the ERP data management system. In the process of optimizing the industrial structure and stepping into the future, Hanshun has become the preferred supplier of many customers, and the products are sold to the United States, Europe, Southeast Asia, Australia, South America and other international markets.

Today, through the ten-year accumulation, Hanshun adhere to the spirit of innovation and craftsmanship, striving for the continuous improvement of human's beautiful bathroom experience. At the same time, in 2017, Hanshun moved into the new factory which occupied the area of thirty thousand square meters. In 2018, the PVD production line would be introduced, consolidating the manufacturing strength, expanding the productivity and extending the core team. We also joined hands with the top industrial design team and had the honor to win the RED DOT award and the iF award. So far, Hanshun fully catches up with the global new technology, new workmanship and new production power. ASHOWER gives you a shower with a brand new development.
