and MUNK mould building engineer,the laboratory experts are strongly supporting these behind.

LUCA Veltri

Born in 1977 in Italy, completed his bachelor degrees in Architecture and Urban Planning in one of the most important universities in Europe, in the city of Milan at Politecnico di Milano. During his period of study he moved to Madrid in Spain to complete study in architecture. After his degree in architecture he continued studying a PhD (Doctor of Philosophy) in Urban and Architectural Design at Politecnico di Milano, during this period he moved in New York City to complete internship program with NYUT. After completing his studies, he started a tight collaboration with several important architecture firms in Italy. Then he started collaboration with the famous architect Piero Lissoni. He was busy developing a huge project on Turks and Caicos Island and he managed the master plan for two New Town in Ivory Coast, for a while he managed also a master plan in Moscow and Doha.

STEFANIA Braga

Born in 1971 in Italy, completed her bachelor degrees in Architecture and Urban Planning in one of the most important universities in Europe, in the city of Milan at Politecnico di Milano. During this period of studies she moved to Sevilla in Spain to complete studying for architecture. After her degrees she moved back to Spain, she worked for many famous Spanish companies in both Sevilla and Malaga. Then she decided to move back to Italy and started a tight collaboration with the famous Italian architect and designer Piero Lissoni. She handled many important projects all around the world where she gained a lot of experience with five star hotels.

MATTEO Nicotra

Born in 1976 in Italy, completed his studies in architecture and design at Politecnico di Milano. After that, he started a tight collaboration with several important architecture firms in Italy then he started cooperating with the famous architect Piero Lissoni. He was also a member of developing a huge project named Royal Garden in Shanghai, and in Qatar, such as The Pearl, the Alfardan Towers, Qatar National Bank, BMW Showroom, Matteo are all participating the development. He not only managed several private villas on the artificial Pearl Island, but also managed projects like Tag Store in Harrod's London.

The original design team is led by Mr. Luca from milan, Italy. The team is composed with professional backgrounds in urban planning, architectural design, interior design, industrial design and visual design etc. "As architects, are driven by the belief that our surroundings directly influence the quality of our lives, whether in the work place, at home or in the public spaces in between. This emphasis on the social dimension is fundamental to our design philosophy, which takes as its starting point the acknowledgement that architecture is generated by the needs of people,needs that may be spiritual as well as being material." said the Italy Design Team.

The design team of Mr. Luca, is also cooperating with many famous enterprises and projects all over the world:
Founded in 1965, Benetton, an Italian listed company, was jointly designed and produced by chief designer Julianna Benetton (1938 --) and more than 200 designers. It has opened more than 1,000 exclusive stores in Europe and more than 4,000 stores in more than 100 countries around the world. With clothing, shoes, bags, handbags, accessories, glasses, cosmetics, home accessories and other products, is one of the fastest growing garment manufacturers in the world.The Benetton group is known for brands such as United Colors of Benetton and Sisley,etc.

Stone Collection

The **Stone Collection** derives from a particular research in Nature. Soft and strong volume, inspired by the natural stones. Various contemporary shelf solutions designed to answer the different needs.

The main feature of the collection is the bathtub itself that can also be customizable with a special and radical shelf design. Volumes that overlap, generating new shapes within its own volume.

The use of the brass material in accessories gives a unique elegance to the collection adding a classical aspect.

Lario Collection

Lario Collection represents a traditional image from the history, its unique design is inspired from the old traditional countryside baskets. Revisiting in a modern way the forms of the past.

The history is find in the little yet representative details such as especially in bathtub and washbasin the image of a handle of the basket that becomes a characteristic aspect for the collection.

The feature of double color in the products gives also a creative, fun and customizable aspect. A complete new way for furnishing the bathroom with a non-conventional style.

Garda Collection

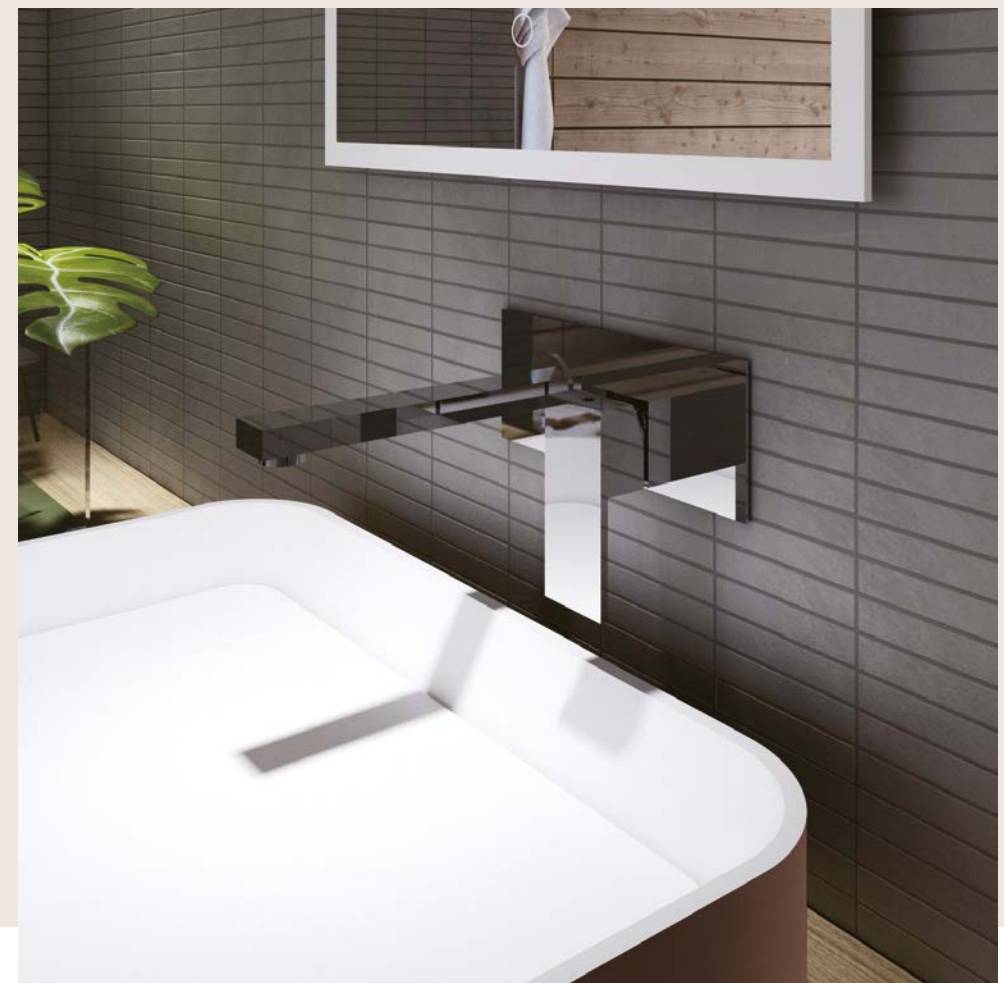

The **Garda Collection** is characterized by an elegant detail, different but not extreme, contemporary and suitable for any bathroom. Straight lines and thin edges that define a perfect perimeter.

The most attractive feature of the **Garda Collection** is seen in the washbasin, the minimal design of the covered drain brings a more pleasant aspect and a modern design.

Adding freshness and originality, pure and geometric lines, mixes perfectly aesthetic and the functionality.

Leo Collection

Leeo Collection consists of pure and convenient design, a welcoming shape to every given context, classic or contemporary.

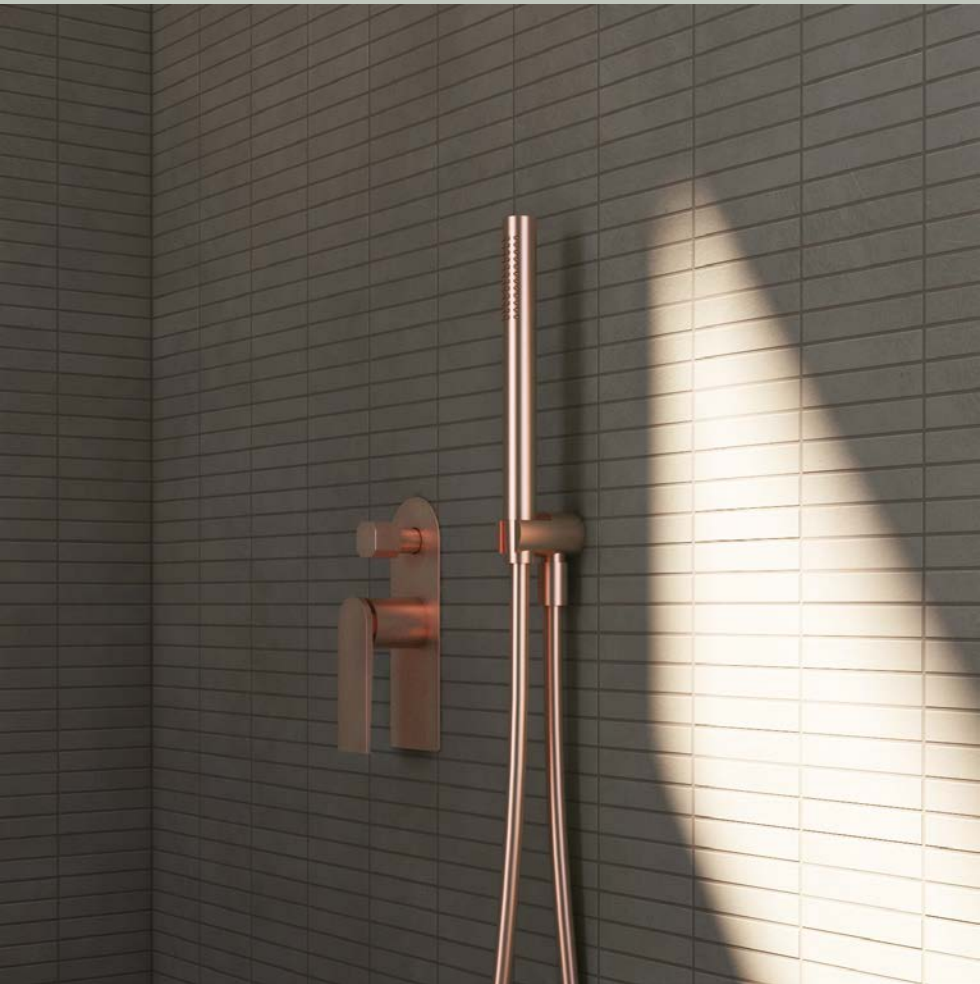

The harmonious lines reach an additional dimension, unsymmetrical but yet elegant.

A transitional design, best of the both worlds. It has a mixed design of the old with a little bit of the new. Traditional yet modern.

Vico Collection

Vico Collection consist of a clean, sparse and minimally appointed design. The massive volume of the products communicates perfectly with the particular details and the selection of material and colors.

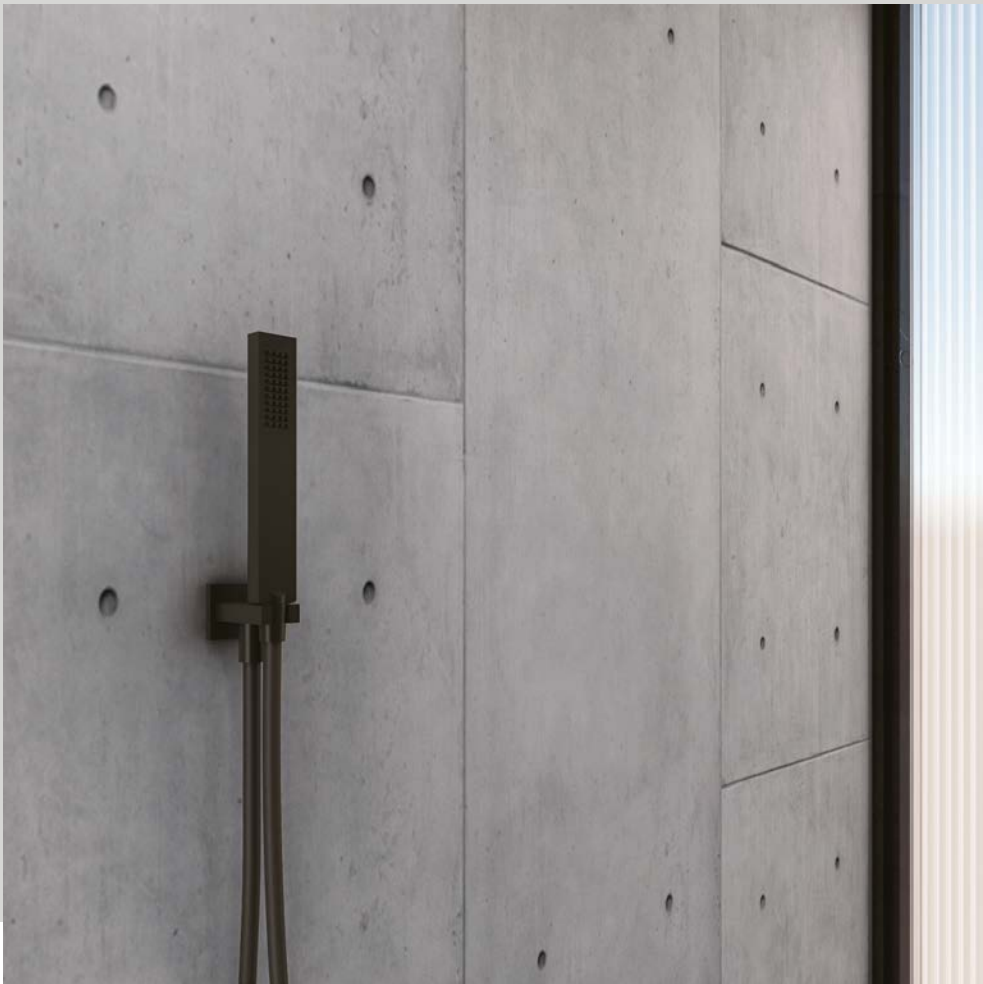

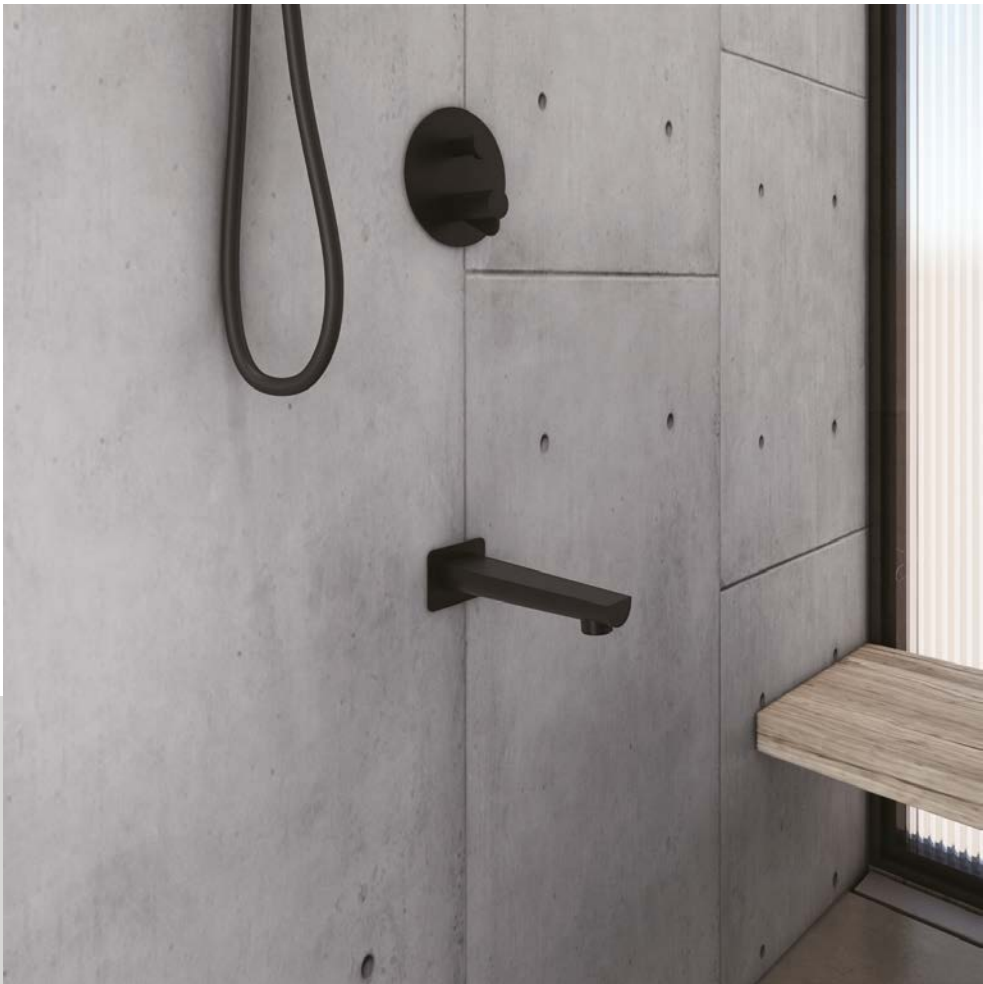

The characteristic form of the concrete bathtub is inspired by the natural stones, giving the collection flexibility to enter in every bathroom design context.

The concrete finishing of the Vico Collection products brings a natural sensation into the bathroom environment. A strong connection with the nature and the modernism can be seen also in the forms flowing along with the natural materials.

Bowl Collection

Romantic and decorated, its design is inspired by the nature of the tree branches.

The idea was to create a sensation where you will wash your hands in a branched basket.
A connection between the nature, modernism and the ambient.
