MUNK is pursuing the complete perfection on the product, not only the innovative design, but also the comfortable function, and MUNK mould building engineer,the laboratory experts are strongly supporting these behind.

LUCA Veltri

Born in 1977 in Italy, completed his bachelor degrees in Architecture and Urban Planning in one of the most important universities in Europe, in the city of Milan at Politecnico di Milano. During his period of study he moved to Madrid in Spain to complete study in architecture. After his degree in architecture he continued studying a PhD (Doctor of Philosophy) in Urban and Architectural Design at Politecnico di Milano, during this period he moved in New York City to complete internship program with NYUT. After completing his studies, he started a tight collaboration with several important architecture firms in Italy. Then he started collaboration with the famous architect Piero Lissoni. He was busy developing a huge project on Turks and Caicos Island and he managed the master plan for two New Town in Ivory Coast, for a while he managed also a master plan in Moscow and Doha.

STEFANIA Braga

Born in 1971 in Italy, completed her bachelor degrees in Architecture and Urban Planning in one of the most important universities in Europe, in the city of Milan at Politecnico di Milano. During this period of studies she moved to Sevilla in Spain to complete studying for architecture. After her degrees she moved back to Spain, she worked for many famous Spanish companies in both Sevilla and Malaga. Then she decided to move back to Italy and started a tight collaboration with the famous Italian architect and designer Piero Lissoni. She handled many important projects all around the world where she gained a lot of experience with five star hotels.

MATTEO Nicotra

Born in 1976 in Italy, completed his studies in architecture and design at Politecnico di Milano. After that, he started a tight collaboration with several important architecture firms in Italy then he started cooperating with the famous architect Piero Lissoni. He was also a member of developing a huge project named Royal Garden in Shanghai, and in Qatar, such as The Pearl, the Alfardan Towers, Qatar National Bank, BMW Showroom, Matteo are all participating the development. He not only managed several private villas on the artificial Pearl Island, but also managed projects like Tag Store in Harrod's London.

The original design team is led by Mr. Luca from milan, Italy. The team is composed with professional backgrounds in urban planning, architectural design, interior design, industrial design and visual design etc. "As architects, are driven by the belief that our surroundings directly influence the quality of our lives, whether in the work place, at home or in the public spaces in between. This emphasis on the social dimension is fundamental to our design philosophy, which takes as its starting point the acknowledgement that architecture is generated by the needs of people,needs that may be spiritual as well as being material." said the Italy Design Team.

The design team of Mr. Luca, is also cooperating with many famous enterprises and projects all over the world: Founded in 1965, Benetton, an Italian listed company, was jointly designed and produced by chief designer Julianna Benetton (1938 --) and more than 200 designers. It has opened more than 1,000 exclusive stores in Europe and more than 4,000 stores in more than 100 countries around the world. With clothing, shoes, bags, handbags, accessories, glasses, cosmetics, home accessories and other products, is one of the fastest growing garment manufacturers in the world.The Benetton group is known for brands such as United Colors of Benetton and Sisley,etc.

CONCEALED SHOWER SET

Various designs of head shower, hand shower, back massage jets, spout and shower mixer can be selected and matched freely for your dream of DIY.

MUNK

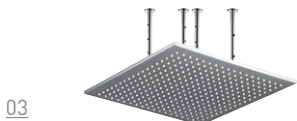

designer is dedicated to minimizing the product space in the bathroom, and make products easy to clean.

THERMOSTAT

The accurate control system can be adjusted as you like ,with the actual temperature within 2 degrees errors.Thanks to the accurate ratio of hot and cold outflows ,you don't need to worry about drastic change in water temperatures any more.

RAIN
SHOWER
Series

Waterfall flushing,
walking in the rain,
showering under the stars
MUNK magic rain shower
can take you anywhere
as you like.

MUNK SELECT THE GLOBAL FAMOUS BRAND
OF CERAMIC CARTRIDGE:

Spanish SEDAL,Italian HYDROPLAST,Italian STSR,Hungary KEROX,France VERNET and some domestic cartridges.

STSR, Italy

STSR Italy manufacturing company was founded in 1979, the R&D department affiliated to the famous MASCO group in the world. STSR adhere to the high quality of the line. All water materials and accessories exceed or meet the standard of drinking water in all kinds of mainstream markets, which is the leading position in the field of cartridge.

HYDRO PLAST, Italy

HYDRO PLAST is founded in Italy in 1986, it enjoys a high reputation in the market for its excellent and reliable product performance. HYDRO PLAST cartridge covers a wide range of functional cartridges to meet needs of diverse customer,such as, energy efficient, environmentally friendly, and so on. Twin brakes system exclusively developed that effectively reduces noise and prevents damage to taps and piping systems. In addition,HYDRO PLAST cartridge also has a water-saving control system that can be adjusted according to the actual requirements of different users, unlike the unified water-saving control system in the traditional market.

VERNET, France

Since 1927,Vernet has been designing products for the future and advocating to formulate international standards and technical norms.It has obtained ISO9001, ISO13001 and ISO/ TS16949 system certification. Vernet is a manufacturer of thermostatic cartridge with a history of nearly a hundred years old in France and enjoy a high honor in the field of global sanitray ware.

Temperature limitation cartridge

Safety
Vernet technology
Maximum 45 degrees or as per customer’s need, can be installed on basin mixer, shower mixer, avoid too hot to hurt the body.

Economy
The required temperature is obtained with low water and energy consumption.

Interchangeability
It can be directly interchanged with mechanical single high cartridge

Stability
Comfortable,temperature remains stable in case of any pressure variation

Product Range
Ø35mm and φ40mm are optional.
Single handle and cold start rotary are optional.

EN817 standard

APPLICATIONS

- | | |
|-----------|--------------|
| Washbasin | Bidet |
| Shower | Kitchen sink |

Thermostatic cartridge

Advantages:

2 IN 1 EASY USE
One faucet handle to control both the temperature and the flow rate

INTERCHANGEABILITY
Standard size 40mm to replace any mechanical standard single lever cartridge

TEMPERATURE STABILITY
Regulation of the temperature remains stable in case of any pressure variation

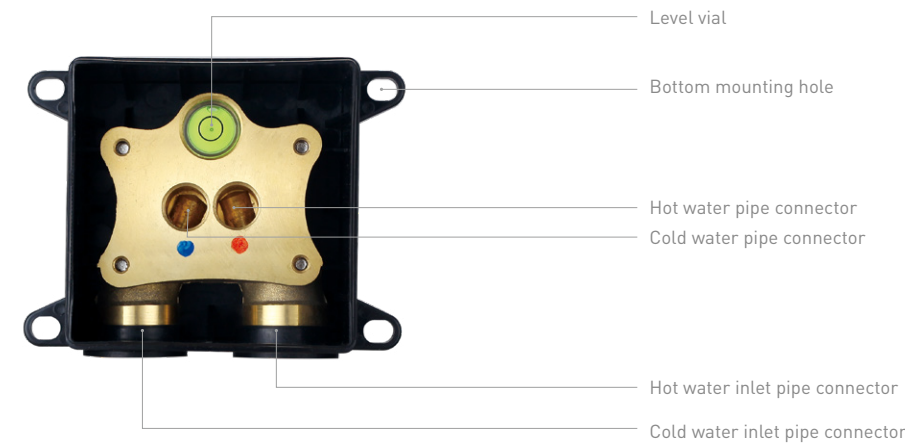

SAFETY
-antiscald security in case of cold-water failure
-no intercommunication hazards

SAVINGS
The thermostatic technology enables optimized water and energy consumption

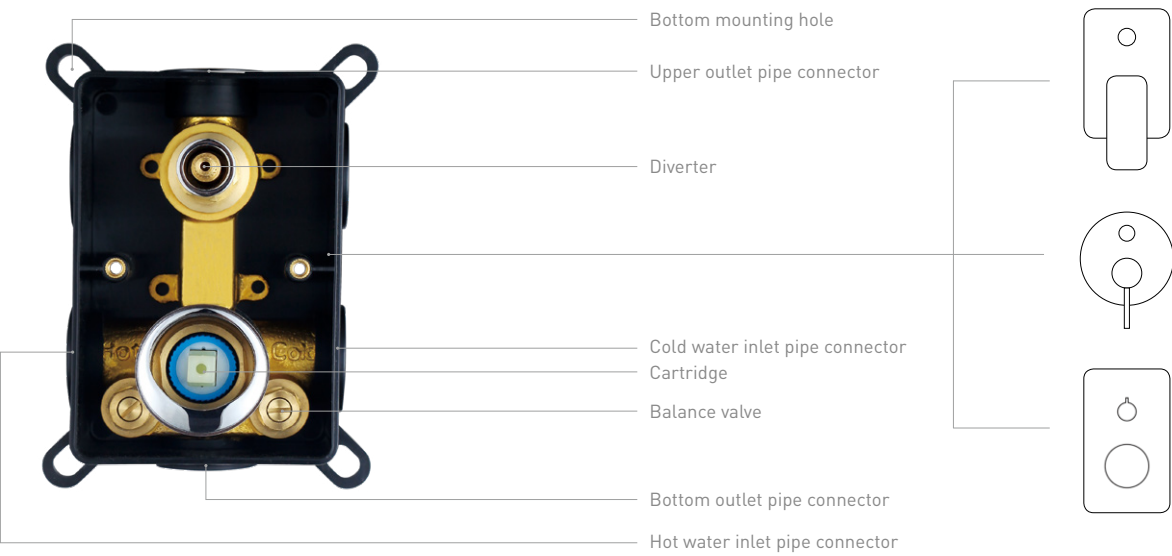

FRIENDLY MIXER DESIGN
Easy integration
Compact size

EN817 standard

FLOORING BATHTUB MIXER EMBEDDED BOX

SHOWER MIXER EMBEDDED BOX
