

## Press Release

# TECEneo shower toilet wins the German Design Award

Timeless design that inspires

**The Emsdetten-based sanitary company TECE is one of the winners of the renowned German Design Awards 2025 and was honoured with the 'Winner' award in the 'Excellent Product Design' category. The TECEno shower toilet beat numerous entries from over 59 countries and impressed the expert jury with its timeless look and intuitive operation. TECE Product Manager Kira Felchner accepted the award at the awards ceremony in Frankfurt am Main at the beginning of February.**

Every year since 2012, the German Design Council has honoured outstanding products, projects and personalities that are groundbreaking in the international design landscape. The 'Winner' award recognises particularly successful design solutions that stand out for their quality and creativity. This year, the TECEno shower toilet prevailed in a competitive field of the highest calibre, proving that it is one of the best in its class.

### **The jury stated: TECEno combines timeless, modern design with technical precision**

Under the motto "Reduce to the maximum", TECEno shows what really matters. Because the most important task of a shower toilet is thorough cleaning. TECEno works with a high-volume, rich shower stream - with fresh water straight from the tap. The operation is also impressive - with knobs on the side of the ceramic appliance, the water volume and temperature can be continuously adjusted simply by turning, making it easy to adapt to the individual needs of a wide range of users. TECEno offers a sustainable solution for the modern bathroom without any electronics that are susceptible to faults. In addition to a high degree of convenience, TECEno also impresses in terms of design - with high-quality ceramics, an elegant shape and no additional controls, TECEno blends attractively into any modern bathroom environment.

### **Recognition and motivation**

"We are delighted to receive this award - it is a great recognition of our work and motivates us to continue developing products that are closely aligned to the needs of our customers and inspire people," said TECE Product Manager Kira Felchner afterwards.

TECE Product Manager Kira Felchner accepted the award for the TECEno shower toilet at the awards ceremony in Frankfurt am Main at the beginning of February.

TECE is among the winners of the prestigious German Design Award 2025 and has been honoured with the "Winner" distinction in the "Excellent Product Design" category.

## About TECE

### Closeness is a matter of understanding

For over 30 years, TECE has worked as an independent family business close to people and markets. In direct dialogue with customers and partners, the company develops innovative solutions in the areas of architecture, planning and installation.

Today, pre-wall, flushing and toilet technology are just as much part of the company's areas of expertise as drainage and pipe systems.

TECE is active worldwide and employs almost 1700 people. International sales are handled by 22 subsidiaries and additional sales partners.
