«La bellezza del luogo ci illude, e a momenti ci fa credere che il tempo si sia fermato»

Orta mia. Mario Soldati 1960

“The beauty of this place deceives us, and at times makes us believe that time stands still”

Orta mia. Mario Soldati 1960

cisal

CHI SIAMO

CISAL rappresenta un esempio di industria italiana autonoma ed integrata, a ciclo di produzione completo, caratterizzato da soluzioni tecnologiche e gestionali innovative. Cisal è oggi uno dei protagonisti dell'innovazione nel settore, con grande sensibilità per l'efficiente uso delle risorse, in primis acqua ed energia, e costante attenzione allo sviluppo continuo di prodotti innovativi nel design, nei materiali, nel funzionamento e nelle prestazioni. Le Collezioni combinano sapientemente estetica, funzionalità e affidabilità, grazie alla collaborazione con designers internazionali quali Karim Rashid, Giampiero Peia, Fabio Rotella.

1952

Fondata nel 1952 da Liborio Soldi e battezzata CISAL, la società ha attraversato tutte le stagioni dell'epopea della rubinetteria di cui il Cusio è protagonista fin dagli albori.

Founded in 1952 by Liborio Soldi and named CISAL, the company has gone through all the epic seasons of brassware industry where Cusio has been the protagonist since the beginning.

1980

Nel 1980 l'Arch. Raffaella Vecchi disegna la serie ARCANA, un prodotto icona classico e storico che apre nuovi orizzonti nei mercati esteri, che si sviluppano passando anche attraverso la creazione di una filiale in Germania nel 1991.

In 1980 the Architect Raffaella Vecchi, designed the ARCANA series, a classical and historical icon that opens up new horizons in foreign markets, which also led to the establishment of a daughter company in Germany in 1991.

1981

Dal lavoro di sviluppo interno coordinato da Daniele Sirini, nasce la prima cartuccia a dischi ceramici monocomando. Il nuovo BLITZ apre la gloriosa storia delle serie di miscelazione Cisal.

The first single handle ceramic disc cartridge was developed internally by Daniele Sirini and his team. The glorious history of Cisal mixer series begins with the new BLITZ series.

ABOUT US

Cisal is the outstanding example of an independent and fully integrated Italian manufacturer, performing the complete production cycle, characterised by innovative technology and management solutions.

Cisal is now one of the leading innovators in the industry and is very conscious about the efficient use of resources, water and energy, and focuses on the continuous development of innovative products with regard to design, materials, function and performance. Thanks to collaboration with international designers such as Karim Rashid, Giampiero Peia, Fabio Rotella, the Collections masterfully combine aesthetics, functionality and reliability.

1999

2009

2019

Nel 1999, viene realizzato un nuovo stabilimento disegnato dall'Arch. Giampiero Peia e attrezzato con modernissimi impianti di cogenerazione, galvanica e magazzino elettronico. Qui si concentrano le tecnologie più avanzate del settore e si supporta una crescita continua nella progettazione del prodotto, nell'ingegnerizzazione del manufatto e del prodotto finito.

In 1999, a new factory building designed by the architect Giampiero Peia was built and equipped with modern cogeneration and plating plants along with an electronic warehouse. Here, using the most advanced technologies in the industry, product design and the engineering of the part and the finished product are in continuous development.

Nel 2009 la famiglia Huber, proprietaria di Huber, leader nella fabbricazione di miscelatori termostatici, decide di fare una scelta strategica per il futuro, acquistando Cisal per garantire un asse di sviluppo tecnologico e industriale assolutamente vincente: combinare know-how, esperienza e capacità produttive per offrire al progettista e alla clientela una variegata e completa gamma di prodotti integrati a miscelazione termostatica, monocomando e tradizionale.

In 2009 the Huber family, owner of Huber, a leading manufacturer of thermostatic mixers, decided to make a strategic choice for the future, by acquiring Cisal and providing the company with an absolutely successful technological and industrial development format: to combine know-how, experience and production capacities in order to offer designers and customers a wide and complete range of single lever, traditional, and thermostatic brassware products.

Karim Rashid presenta gli iconici rubinetti della collezione Vita. Vita si fa notare per la modernità delle linee dallo stile arboero e identitario.

Karim Rashid presents the iconic taps he designed for the Cisal Vita collection. Vita stands out for the stylish personality of its modern, tree-inspired shapes.

ECCELLENZA MADE IN ITALY

Cisal rappresenta un capitolo importante della storia della rubinetteria italiana. Una lunga tradizione di ingegno, mestiere e professionalità, declinata ed esaltata nel rispetto e nella considerazione per l'uomo ed il territorio: il Lago d'Orta, luogo in cui si concentra da generazioni il distretto della rubinetteria, retaggio di artigianalità e cultura del saper fare italiano.

EXCELLENCE OF MADE IN ITALY

Cisal represents an important chapter in the history of Italian brassware. A long tradition of ingenuity, skill and professionalism, identified and enhanced in respect and consideration for humans and the territory: Lake Orta, the area where taps have been made for generations, has a heritage of craftsmanship and a culture of Italian know-how.

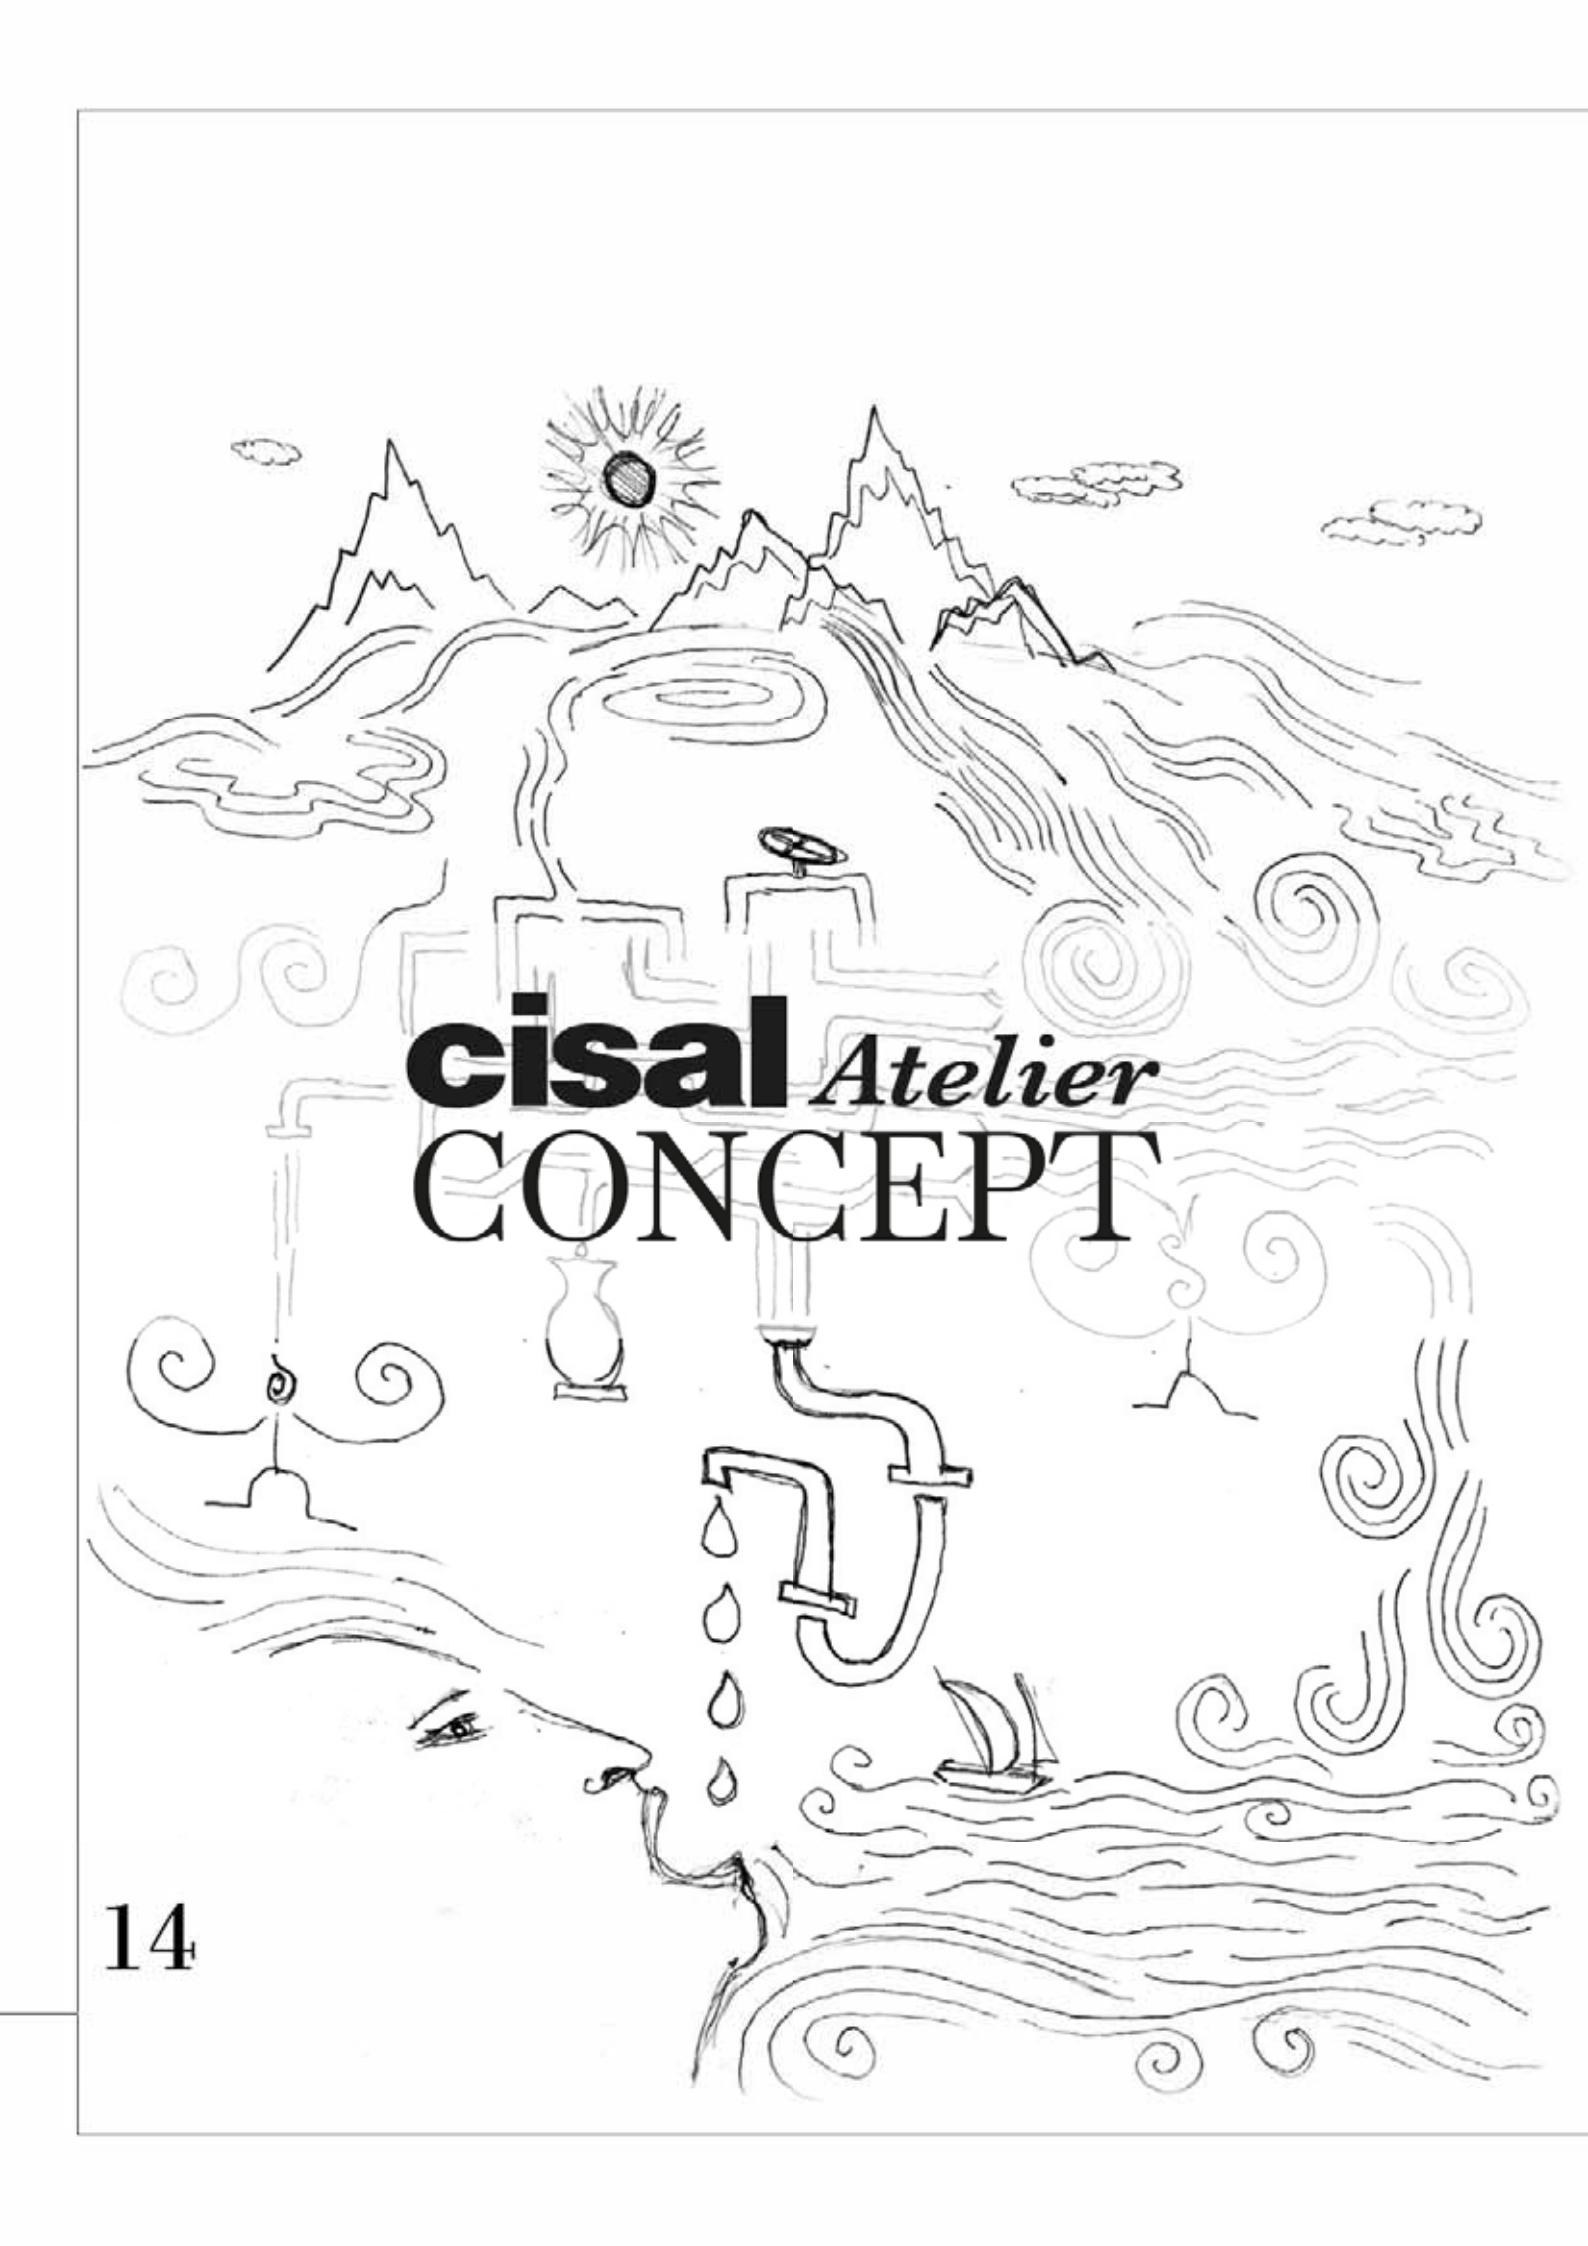

OLTRE IL DESIGN

La ricerca di finiture, sperimentazioni formali e i riferimenti alle tendenze del mondo delle Arti Applicate mirano a realizzare collezioni con una identità forte, distintiva e sofisticata, votata ad un nuovo senso estetico contemporaneo.

BEYOND DESIGN

The search for finishes, formal experimentation and references to the trends of Applied Arts helps create collections with a strong, distinctive and sophisticated identity, devoted to a new contemporary sense of aesthetics.

cisal *Atelier* CONCEPT

L'acqua è l'elemento essenziale per l'essere umano e il suo controllo è importante sin dall'antichità. Il rubinetto, dispensatore del liquido vitale del quale facciamo un utilizzo quotidiano, è un prodotto funzionale e necessario ma può anche rappresentare un accessorio sofisticato, prezioso e sempre più protagonista nell'ambiente bagno. Cisal storicamente ha da sempre caratterizzato la sua vasta gamma di collezioni con un atteggiamento di ricerca formale riferito al design. Più recentemente, con l'integrazione delle competenze della famiglia Huber, Cisal si è ulteriormente elevata ad ancora più alti livelli di qualità e prestigio, affermandosi come un importante interprete del settore bagno e cucina a livello internazionale.

Dal 2016 è attivo "CISALAtelier", centro creativo che, attraverso la ricerca e la sperimentazione, lavora su progetti di prodotti sempre più protagonisti, grazie ad un autentico appeal.

Water is the essential element for the human being - and controlling it has been important since ancient times.

The tap, dispenser of this vital liquid of which we use daily, is a functional and necessary product, but it can also be a sophisticated, precious accessory as well that plays an increasingly important role in the bathroom environment. Since its origin, Cisal's wide range of collections have always been characterized by formal research related to design. Recently, with the integration of the expertise of the Huber family, Cisal has elevated its already high levels of quality and prestige even further, establishing itself internationally as a major interpreter of the bathroom and kitchen industry.

Since 2016 Cisal has created "CISALAtelier" concept, a creative network which, through research and experimentation, will be used on projects of key products thanks to their authentic appeal.
