NEW

Would you like to bring the ancient traditions of the Mediterranean to your bathrooms in a modernized fashion?

Olive was designed exactly for this purpose, drawing inspiration from the civilization, prosperity and long life represented by the olive. Sink form of the set was inspired from the leaves of the olive tree.

The Olive Set gets this different form from a Mediterranean interpretation.

This product that you could easily complement with the other bathroom products is very decorative and helps you show off your subtle taste thanks to its oval form resembling an olive.
