

We are pleased to announce the launch of Zinox Laser new website, an important step toward the digital evolution of our B2B company. With a completely restyled design and optimized navigability, our website is meant to offer a better experience to our partners and customers, making it easier to access all the information about our products and services.

Main features of our new website:

1. Modern and responsive design

The website is designed to be easily accessible and viewable on any device, desktop, tablet or smartphone, providing a flawless user experience wherever you are.

2. Simplified navigation

We have re-structured content and information to make it easier to find products and solutions. With an intuitive and clear layout, you can easily find what you are looking for, saving time and improving productivity.

3. B2B platform

For partner companies, we have implemented a restricted area that allows you to easily navigate, view products, items and technical details, custom offers managed quickly and confidently. You can also make your own wish list and interact with our customer service.

4. Updated and detailed catalogue

All of our products are shown with complete data sheets, high-definition images and detailed information, so that you can easily choose the most suitable components for your industrial needs.

5. News and resourcing area

A dedicated section on corporate news, product updates, and educational content, such as white papers and technical guides, to keep up to date with the latest industry trends.

6. Customer support and service

We offer a more efficient customer service.

7. SEO and loading speed

Our website has been optimized for quick navigation and better search engine visibility, making it easier to find Zinox Laser in today online landscape.

What you will find on the website:

- **Who we are** – The history and mission of Zinox Laser, a leading provider of advanced laser cutting and metalworking solutions.
- **Products** – Our extensive catalogue of industrial products and solutions, high-precision machining and equipment for the B2B industry.
- **Application areas** – How our products can meet industry-specific needs such as bathroom furniture, wellness, dedicated and customized production, and more.
- **Contact and inquiries** – A space to get in touch with our sales and support team to respond to your personalized inquiries and get assistance.
