# PERFECT. STEADY LINES

Lumière stems from the idea of the hidden, luxurious *art de vivre* of the last century. Its perfect and steady lines merge together beautifully, giving rise to a unique yet complete range.

The **black crystal** inlay adds a fancy and lavish feel, conveying an undeniable elegance.  
*Très chic!*

# TIME LESS APPEAL

# A MODERN TAKE ON ART DECO

Every detail recalls the craftsmanship  
handed down year after year,  
generation after generation.

As for the famous artistic movement,  
rich materials perfectly match with bold  
geometric forms and exquisite finishes.

Some may call it contradictory,  
we call it perfection.

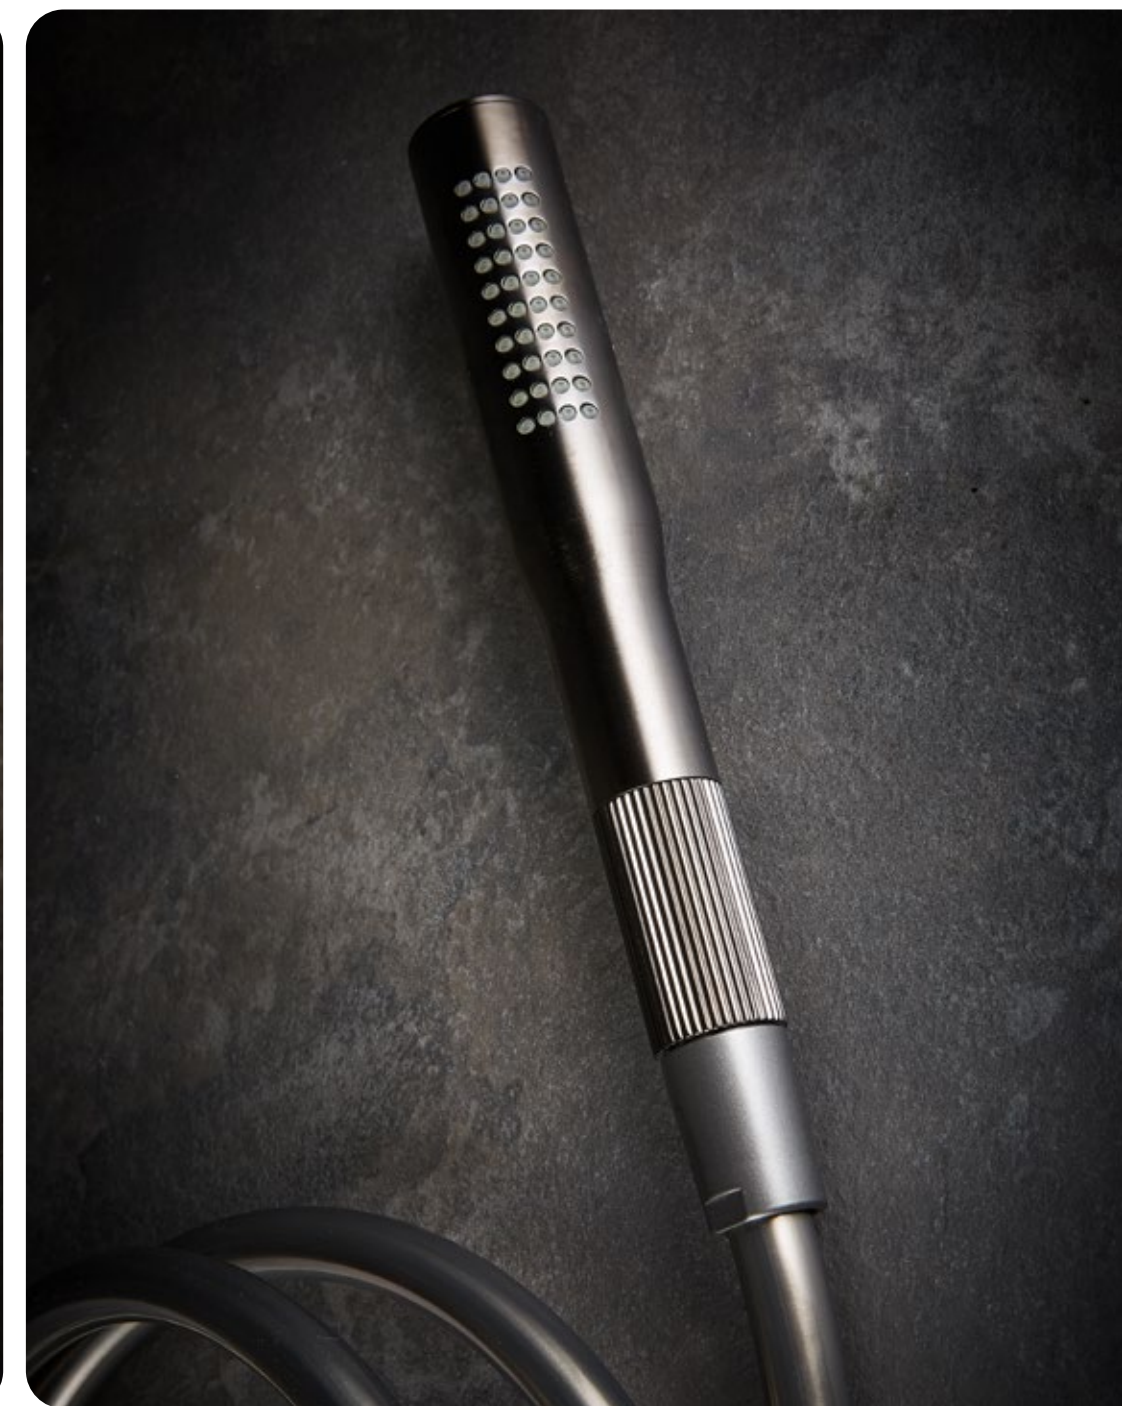

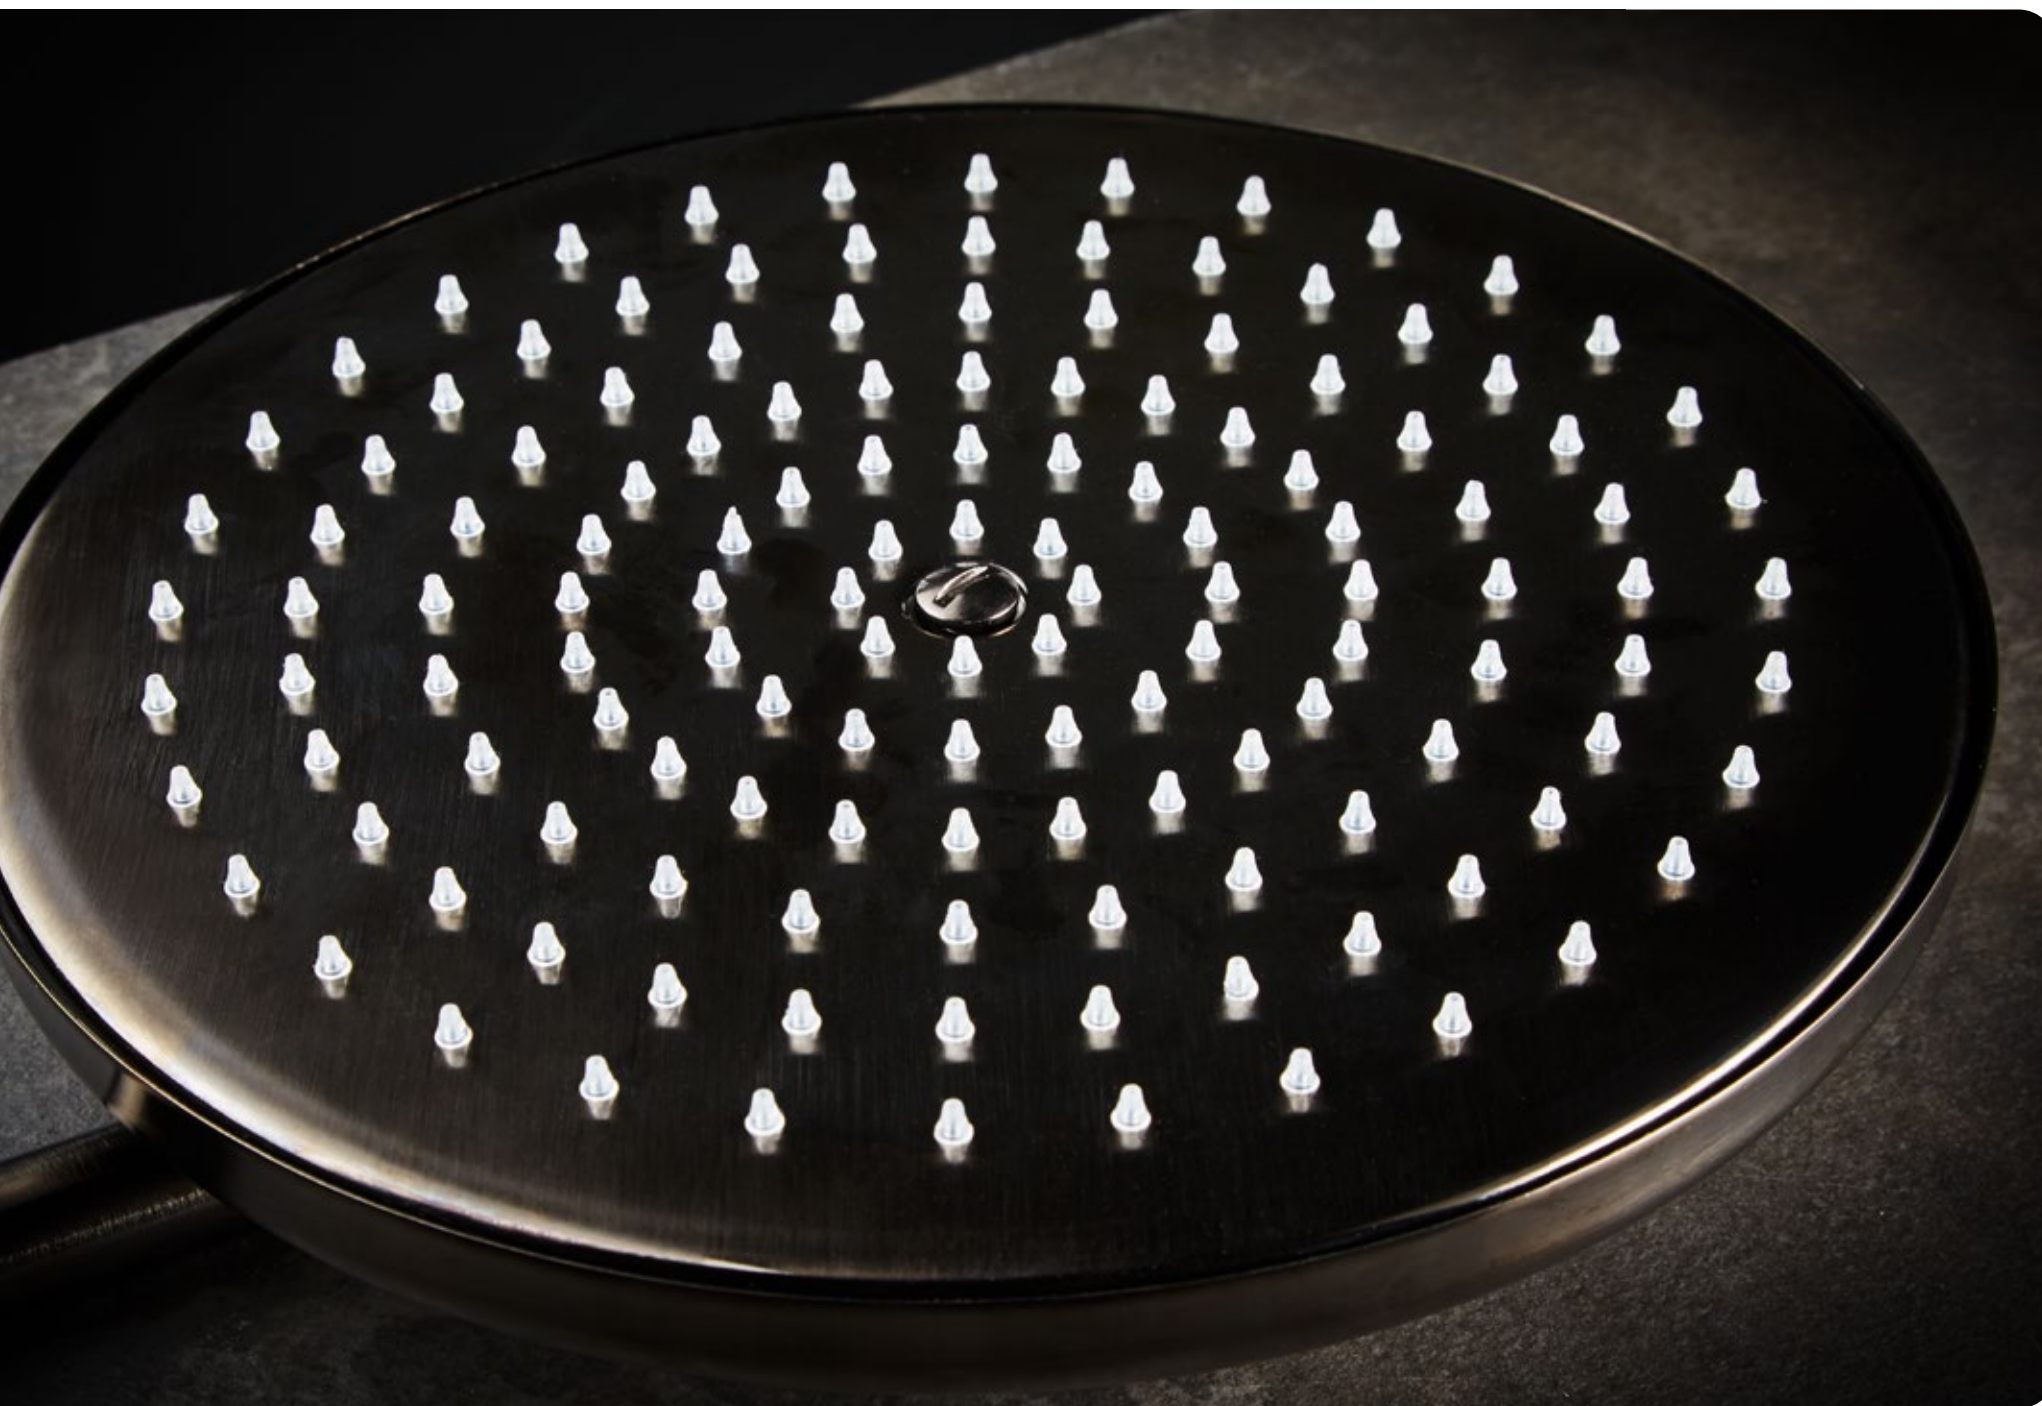

# REACH THE TOP

Nothing is left to chance. Each piece is handmade and it is given by the perfect balance of linear and round forms.

The ribbed texture and stripped pattern characterise the look of this range, giving a touch of sophistication and contributing to the creation of the most contemporary effect.

# LAVISH FRAME OF MIND

Imagine the future  
by rethinking the past.

Lumière encapsulates  
the longing for the old times,  
with an hint of novelty  
and hope for an even  
brighter future.

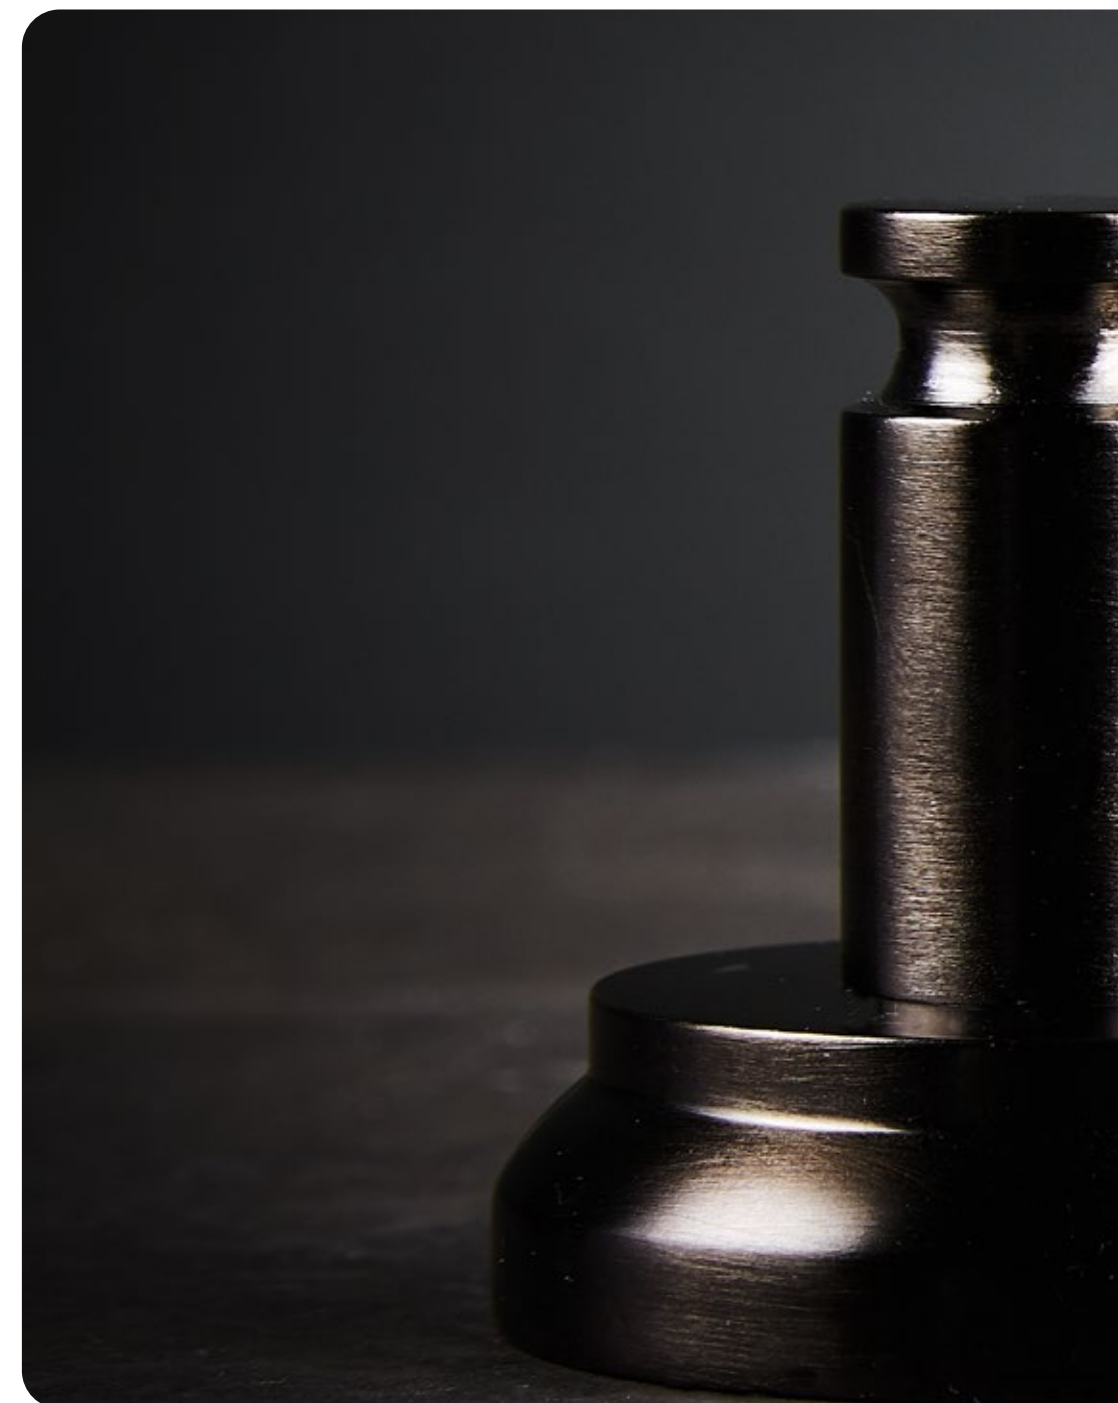

Jewels, splendor  
and opulence:  
*c'est magnifique.*

# THREE DIMENSIONAL TOUCH

Art is within everyone's reach.  
Just like every brush stroke on a canvas,  
the three-dimensionality of the surface of each  
tap and accessory is greatly enhanced by the  
sought after colour palette.

# BALANCE IT OUT

What really stands apart in the Lumière series is its unparalleled balance. The result is an interplay between lights and shadows, heights and shapes; an impressive work of art, made vibrant by its different and peculiar finishes.
