

# HALO

**ARMANDO  
VICARIO**

THE WHOLE UNIVERSE IS BASED ON RHYTHMS IN CIRCLES, IN SPIRALS. EVERYTHING HAPPENS IN CIRCLES.

**John Hartford**

HALO is a feast for the eyes:  
its handle is its unique and most remarkable trait,  
applicable to a variety of bathroom and kitchen styles.

Round and square spouts, handles in the same finish or in a  
combination of them, create a unique play of lights and shadows,  
capable of making a simple and functional object the center of  
the attention of the whole home.

In a nutshell, a touch of *glamour*.

# REDEFINE YOUR BEAUTY STANDARDS. HALO IS HERE TO STAY.

Reshape essential beauty and discover  
the true soul of the HALO range.  
A double endless, circular line.  
No end and no beginning,  
what matters is the journey.

FOLLOW THE BALANCE

# SCULPTED WITH EXPERIENCE. EXCLUSIVE PERCEPTION.

Even in the stillness of a simple and plain home decor,  
HALO is the only focus, the only spotlight.  
An oasis of light tricks,  
the perfect statement of revealing balance.

A breath of *art.*

FOLLOW THE ALLURE

# OPEN THE DOOR TO A WORLD OF POSSIBILITIES.

Round lines perfectly mesh a series of solids and voids,  
creating a modern and sinuous silhouette,  
finally giving out calming vibes as a result.

A world of chances to express your mood, *wordlessly*.

# THINK IN CIRCLES.

A unique shape is nothing without a seamless design.  
HALO stands out on its own, its classiness  
is unparalleled and speaks for itself:  
plenitude and emptiness are beautifully  
juxtaposed.

The final outcome is an example  
of interesting beauty, able to tell  
a story about aesthetic  
gracefulness and elegance,  
where the affinity of forms  
is a careful and delicate  
*equilibrium.*

# ROUND LINES, DAZZLING INTERTWINES.

A series of shades willing to steal the scene. Tridimensional light and extreme purity reveal the true identity of HALO, envisioning a silent revolution for your kitchen.

From essential chic to bold audacity, this signature tap ends up being a meaningful icon of visual art thanks to its *superb design*.
