

MKW[®]

**SANITARY
PROGRAMME**

WC seats & bathroom fittings

IT´S NICE TO MEET YOU!

We would like to introduce ourselves because although we are not personally acquainted, we are virtually always a part of your life and the daily round. You will, for example find us in your bathroom, when you look out of a window, move a chair, or open the fridge.

This is because as a family-owned company, since 1960 we have been manufacturing products in metal and plastic, which make a contribution to the quality of everyday living that by and large goes completely unnoticed.

In fact, our products are backed by know-how of a complexity that at first glance one would hardly credit. However, we have no problem with this understatement and are more than willing to promise to continue to accompany your day-to-day routine in future as a modest and inconspicuous companion.

QUALITY FROM AUSTRIA

"Made in Austria" is an internationally respected term for quality that also applies to MKW WC seats.

These are the object of ongoing further development and improvement with regard to their design, functionality, material composition and durability.

WC seats from MKW are made from high-quality plastic. They are hygienic, scratch-resistant, sealed, smooth, distortion-resistant, through-coloured and extremely durable.

MKW EURO 4000 WC SEAT

WC SEATS

WC SEATS

SLOWCLOSE

This function, which comes with certain models, is as quiet as it is comfortable. The seat and the cover close automatically with just a gentle tap.

REMOVABLE

Many of seats (cover AND seat) can be removed from the ceramic bowl (e.g. for cleaning and can then be remounted.)

ANTIBACTERIAL

MKW introduces an antiseptic additive to its raw materials. Therefore, the WC seats are entirely antibacterial and even scratches and cleaning have no effect on this protection. Studies by the University of Milan have demonstrated both the antibacterial effect of the additive and its dermatological compatibility.

ADJUSTABLE HINGE

Many of the hinges used are height- and direction-adjustable. As a result, MKW WC seats can be matched to the ceramic bowl with great precision.

QUICK-MOUNTING

Simple compression and pushing upwards of the patented QUICK wing nuts provides quick and simple WC seat mounting.

FLEXIBLE INSTALLATION

The WC seat can be installed both from above and below. This means that lateral access to the ceramic bowl is not essential.

BOTTOM MOUNTED

The WC seat can only be installed from below. Lateral access to the ceramic bowl is essential.

MKW EURO 2000 WC SEAT

FUNCTIONS

It is frequently the case that essential everyday items are backed by a good deal more technology, design and innovation than one might imagine.

This also applies to WC seats from MKW. On the following pages, we would like to provide you with an overview of our range, its designs and features.

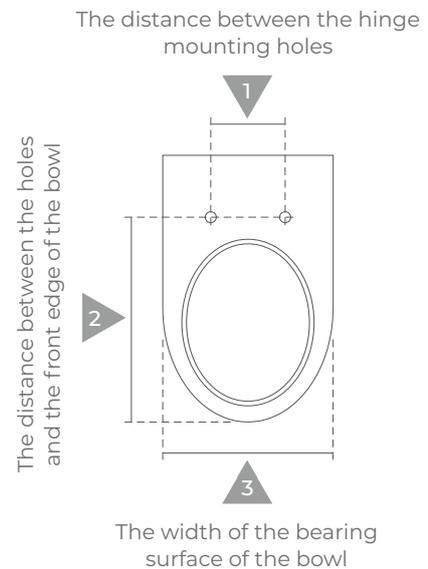

MKW SILEA WC SEAT

MEASUREMENT GUIDE

PRIOR TO PURCHASING AND MOUNTING

Please note that WC bowls are not standardised with regard to their width, their bearing surface or diameter. Therefore, before you buy a WC seat you should measure the precise dimensions of the bowl. This is the only way of ensuring that you purchase a suitable WC seat.

TIPS

FURTHER INFORMATION

All the articles in this catalogue are listed in the root server and can be called up via the wholesaling members of the IG Neue Medien.

ADDITIONAL INFORMATION

Further Information about individual items and continually updated documentation are available under www.mkw-sanitary.at

DON'T FORGET TO MEASURE

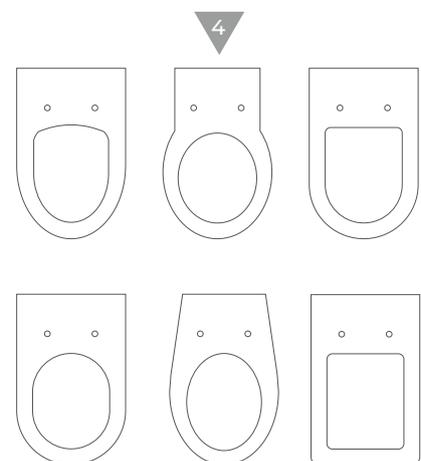

Remember that not every WC seat and bowl match. The sketch shows you how to measure the bowl before you purchase a seat.

WC SEAT APP

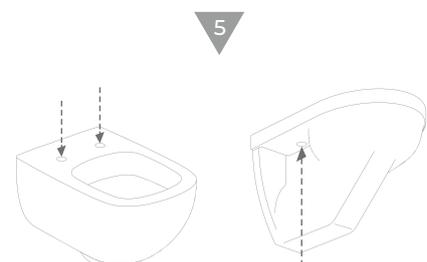

Using the MKW app, you can ascertain which WC seat model is suitable for your bowl.

rail length: 385 mm

CLEANING INFORMATION

MKW products are tough and manufactured for everyday use. Nonetheless, we recommend soapy water or a mild, natural agent for cleaning. No caustic, abrasive, chlorinated, acidic, or active oxygen agents should be employed, as these can damage the material. The WC seat and hinges should not come into contact with the WC cleaning agents. We also advise that the seat and lid stay raised for as long as stringent cleaning agents remain in the WC bowl.

COLOURS

Depending upon the model , WC seats from MKW are available in various colours.

	01 white
	48 pergamon
	42 manhattan
	02 black RAL 9005
	04 bahama beige
	29 caramel
	44 red RAL 3003
	03 moss green
	16 aegean
	40 whisper blue
	35 bermuda blue
	23 blue RAL 5002

PRODUCT INFORMATION

Colour deviations caused by printing are possible.
The right to make changes is reserved.
