BATHROOM
ACCESSORIES

WE ARE BEMETA DESIGN, NICE TO MEET YOU!

Situated in South Moravia's town of Žatčany, we are a family-owned business that can be proudly called Czech, local and traditional.

Since 2004, we have been designing and manufacturing unique bathroom accessories, which have been distributed to 48 different countries around the world. We also regularly participate in world trade fairs.

At Bemeta Design, we specialize in creating bathroom accessories that are original, high quality and add a touch of perfection to any bathroom.

MILESTONES

WE ARE THE LARGEST CZECH MANUFACTURER OF BATHROOM ACCESSORIES

Leading Czech designers are involved in the development and design of our product ranges. We also have our own developers and constructors. We want to have an overview of every stage of production, from the first idea to the last detail.

All processes required in the production of finished products are carried out by our employees. Our products are made of the highest quality metals: steel and brass. In the production of glass objects, we follow the long glassmaking tradition of the Czech Republic.

Thanks to our own warehouses and production in Žatčany, Moravia, we are able to deliver anything quickly and reliably.

REGION & ENVIRONMENT

We feel a responsibility towards our region and country. In order for our village to be able to develop further, we participated, for example, in the reconstruction of the school in Žatčany.

We care about the environment and the well-being of younger generations. In 2023, we completed the 5th stage of the revitalization of our premises. As a result, a modern space was created, in which the original 300-year-old buildings have been preserved.

YOUTH & CHARITY

Since 2018, Bemeta Design has been involved in supporting youth activities. We sponsor sprint canoeing and its young talents.

We also financially support the surrounding sports clubs: The local football club SK BEMETA ŽATČANY and the Volleyball Club Újezd u Brna.

We have equipped a home for handicapped people Srdce v domě in Klentnice free of charge. The assistance provided in the form of handles, shower chairs and seats and folding grab bars has helped this facility to improve the quality of care for those in need.

DESIGN MADE IN CZECH REPUBLIC

When creating bathroom series, we cooperate with leading Czech designers, who are assisted by our team of constructors.

Therefore, our accessories are not only naturally beautiful, but also functional and practical.

An example is the ORGANIC series, which was created by Czech designer René Šulc. This series is inspired by organic shapes and harmonious lines of nature. We firmly believe that the way to connect with nature is to come back to it, not to run away.

PORTFOLIO

In our portfolio you will find lines that have a wide range of applications. Whether it's for hotels, homes, public areas or accessible bathrooms.

All series and individual products are designed to be simple, attractive and timeless – keeping up with the current market trends.

BATHROOM ACCESSORIES

Elevate your bathroom with accessories that strike the perfect balance between minimalism and originality. Our collection boasts a variety of exquisite color combinations, materials, and finishes of the highest quality.

creative

Unleash your imagination and surround yourself with an inspirational series full of creativity! Choose from six trendy colors and design your bathroom the way you've always wanted.

organic

Shapes inspired by nature, honoring lightness and subtle angles. If you are looking for a design full of harmony, then the ORGANIC series is the one for you.

gamma

Graceful proportions and clear contours incorporated in to a dynamic design. Its precise and outstanding production guarantees that you will not miss this series.

COSMETIC MIRRORS AND MIRRORS

An elegant, but mainly functional accessory to any bathroom, which underlines the interior design. In our portfolio there are many shapes and sizes to choose from, but we can also customize them to meet interior requires.

PUBLIC SPACES

With public spaces bathroom accessories we focus on their maximum durability, functional design and easy maintenance.

We offer professional solution for those who prefer minimalist design, precise workmanship and a wide range of choices.

HELP

One of our most important series, which we have been dedicated to since the very beginning of production. The HELP series is useful for designing accessible bathrooms and for anyone who needs to make it easier to move around and feel safe in their bathroom.

HELP is suitable for barrierless bathrooms at home, in hotels or in public areas. We are happy to furnish a wheelchair accessible bathroom as well.

The products are certified by the state testing laboratory and comply with the Czech legislation on the installation of products in barrier-free spaces.

CUSTOM PRODUCTION

We will do everything we can to make your project successful. We offer our clients the possibility to customize selected accessories or produce products of atypical dimensions.

You don't need many different suppliers. We take care of your orders in a comprehensive way. We have everything you need: technology, experience and contract space.
