

CORROSION & SLUDGE IN YOUR HEATING SYSTEMS?

USE: KIT SYSTEM PREVENTION

Keep the system like new by bringing the corrosion debris into suspension and collecting them in the Easy Check a magnetic sludge remover filter.

CODE 490100004

EASYMAG MINI 3/4"

Compact magnetic sludge remover filter for under boiler installation. With the exclusive Easy check system.

SQUEASY 4 IN 1 PLUS

Multi-purpose liquid product for the protection of the heating system: eliminates all noises, acts as an inhibitor and suspends scale. Ideally used with the EasyMag magnetic filter.

MANA®
ecologica
Water Treatment for Heating Systems

EasyMag mini

The new generation of magnetic sludge remover filters

Attachment freely rotatable over 360° and not fixed or in 90° movements.

EasyFit: No tools required for installation. The absence of nuts and locknuts makes the body of the magnetic filter **easy to attach/detach**.

By-Pass: The integrated By-Pass allows maintenance of the EasyMag without shutting off the system's water supply.

EasyCheck: thanks to the transparent bowl, just a simple glance tells you whether the system needs maintenance.

Possibility of attaching directly to the boiler jig without connections, sleeves or nipple

Filtering net and neodymium magnet

3/4"

3/4"

1"

ADVANTAGES

- **Reduces corrosion**
- **Retains impurities** and residues of both ferrous and non-ferrous matters in the heating system water
- **Extends the life** della caldaia e dell'impiant
- **Can be used as additive loading**
- **Rapid and simple** installation and maintenance
- **Easy to clean**

SquEasy 4 in 1 Plus

Restores, inhibits corrosion, reduces noises in the heating systems of any metal and acts as a cleaning agent.

CONCENTRATED:

Only 250 ml of chemical for 100 L of water.

Stop corrosion:

Inhibitor inside.

Filter help:

Removes deposited sludge.

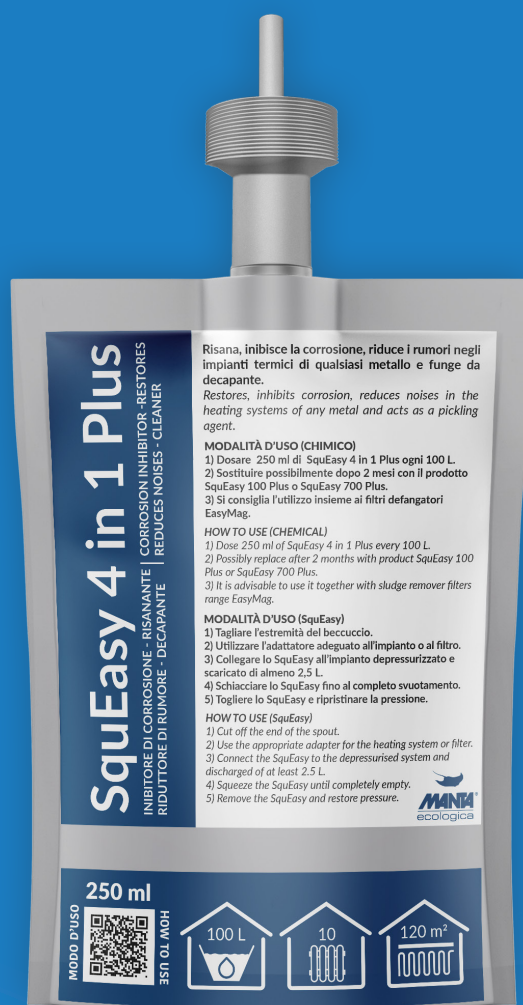

Ready to use and does not need to be diluted, unlike other powdered products.

ADVANTAGES

- **Prevents** scale and corrosion
- **Disperses and simplifies** the collection of iron oxides in the magnetic filter
- **Reduces boiler and heating system noises**

Squeasy 4 in 1 Plus

Restores, inhibits corrosion, reduces noises in the heating systems of any metal and acts as a cleaning agent.

Use on systems no older than 6 months. Possibly, replace it after 2 months with product BP 100 Plus+ or BP 700 Plus.

Suitable for use with the EasyMag magnetic filter.
