

A photograph of an industrial construction site under a clear blue sky. Three tall, silver, spiral-wound chimneys are being installed. A worker in a yellow hard hat and safety vest is in a suspended basket, working on the middle chimney. The background shows a building with a corrugated metal roof and a brick wall. The text 'ROTEK CHIMNEY SYSTEMS' is overlaid in a black box with red letters.

ROTEK CHIMNEY SYSTEMS

ROTEK COMPANY PROFILE

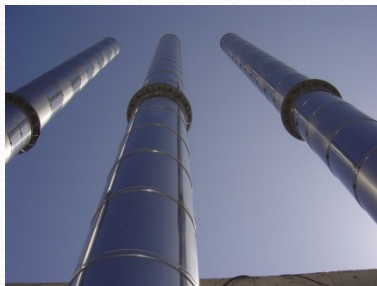

- Rotek has been providing comprehensive solutions in terms of chimney and exhaust systems to the customers since its establishment in 1993. The company's founders have gained experience by doing sales and installation of various European chimney companies' products in Turkish market. Our company started to produce stainless steel chimney with Rotek brand in 1993. Rotek, with this knowledge and experience, has been a pioneer until the first day of its entrance to this sector about the establishment of the chimney systems in accordance with standards and has been serving with this idea until today.
- Rotek, exported hundreds of chimney systems, scrubbers, chimney filters and garbage-linen chute systems to 17 countries at Europe, Asia and Africa continents, has been an sought out brand at domestic and international projects with specifications.

Rotek is ready to put the new projects into effect successfully with its 60+ direct staff, 3000 m² production area, experienced welding staff and engineering power.

ROTEK MAIN DIFFERENCES

- Rotek has the widest range of patented products. In particular, Rotek is the only firm to produce garbage chutes with the separation system. By using a single chute with help of separator system, wastes , metal, paper, etc... can be discarded to different classified boxes. Europe, Asia and Africa to a total of 17 countries, hundreds of chimney systems, chimney filter and export of refuse – linen chutes, with quality in domestic and foreign projects specifications Rotek has been recommended brand.
- Products manufacturing, sales and installation of the chimney, problem solving, with the chimney system engineering calculations of project designing, the chimney equipment selection (fans, chimney dampers, damper with motor, silencer, etc ...) and after sales services offered structure in the world really is an example of non-complete able to provide a service. Rotek has 26 dealers in different cities in Turkey and 4 dealers outside of Turkey.
