HVAC's New Hero in Efficiency

The Perseus Rooftop Series, named after the mythological hero, is designed to lead in HVAC efficiency. Meeting EcoDesign+ standards, it features a 50 mm rockwool casing, wide operation envelope, R454B refrigerant, and a universal design that cuts roofcurb costs. Optional HEPA filters and heat recovery save up to 30% energy while boosting air quality—redefining the industry.

STATE-OF-THE-ART

STANDART STRUCTURE & TECHNOLOGY

<p>▶ Oven Baked Electrostatic Powder Paint Coating</p>	<p>▶ Highly Efficient Solution Beyond Eco-Design Requirements</p>	<p>▶ User-Friendly Control & Automation System</p>	<p>▶ Wide Operation Envelope operating up to 28°C Wet-Bulb @indoor and 50°C Dry-Bulb @outdoor</p>
<p>▶ Verstile Range up to 55.000 m/h Airflow and 350 kW Capacity</p>	<p>▶ A1 Class Rockwool Insulation with 70 kg/m density</p>	<p>▶ Up to %100 Outdoor Air Ratio and Free Cooling</p>	<p>▶ User-Friendly Control & Automation System</p>
<p>▶ Modular Structure</p>		<p>▶ Scroll Compressors Powered by IDV Technology</p>	

OPTIONAL FEATURES

▶ Hepa Filter Module	▶ Steam Humidifier	▶ Dehumidification Application	▶ Hot Water / Electrical / Gas Burner Additional Heater	▶ Plate / Rotary Heat Recovery System
