NEW BATH, NEW LIVING™

NBL

# INTRODUCTION

Established in 1995, NBL is a design-driven company specializing in product design, engineering and manufacturing of premium bathroom accessories. With 30 years of dedicated focus and expertise, we create innovative, finely crafted products reflecting the latest design trends. Our product range includes wall-mounted, freestanding bathroom and shower accessories, barrier-free products, magnifying mirrors and aluminium mirror cabinets.

Operating from our 20,000m<sup>2</sup> production facility in Ningbo, China, certified by TÜV Nord to ISO9001, ISO14001 and ISO45001, we uphold high standards for quality, safety and sustainability. Our vertically integrated manufacturing processes, including CNC machining, die-casting, laser welding, polishing, automatic electroplating, painting, PVD and assembly, provide tailored manufacturing solutions from design concepts through to cost-effective production.

With our branch based in Germany and extensive collaboration with leading European accessory brands and bathroom industries for three decades, we follow European quality standards, design trends, and product innovations.

In addition to our wide product range, NBL provides customization and OEM services for bathroom accessories and decorative parts crafted from brass, stainless steel, zinc, and aluminum.

Our commitment to quality, design and innovation keeps NBL as a trusted partner for global bathroom industries.

**TÜVNORD**  
certified

NBL's production uses clean energy: over 5,000m<sup>2</sup> solar panels generate approx. 540,000 kWh solar power/year, a reduction of CO<sub>2</sub> emission of approx. 540T/year. NBL's production facility has been awarded "Clean Production" and "Green Factory" accolades.

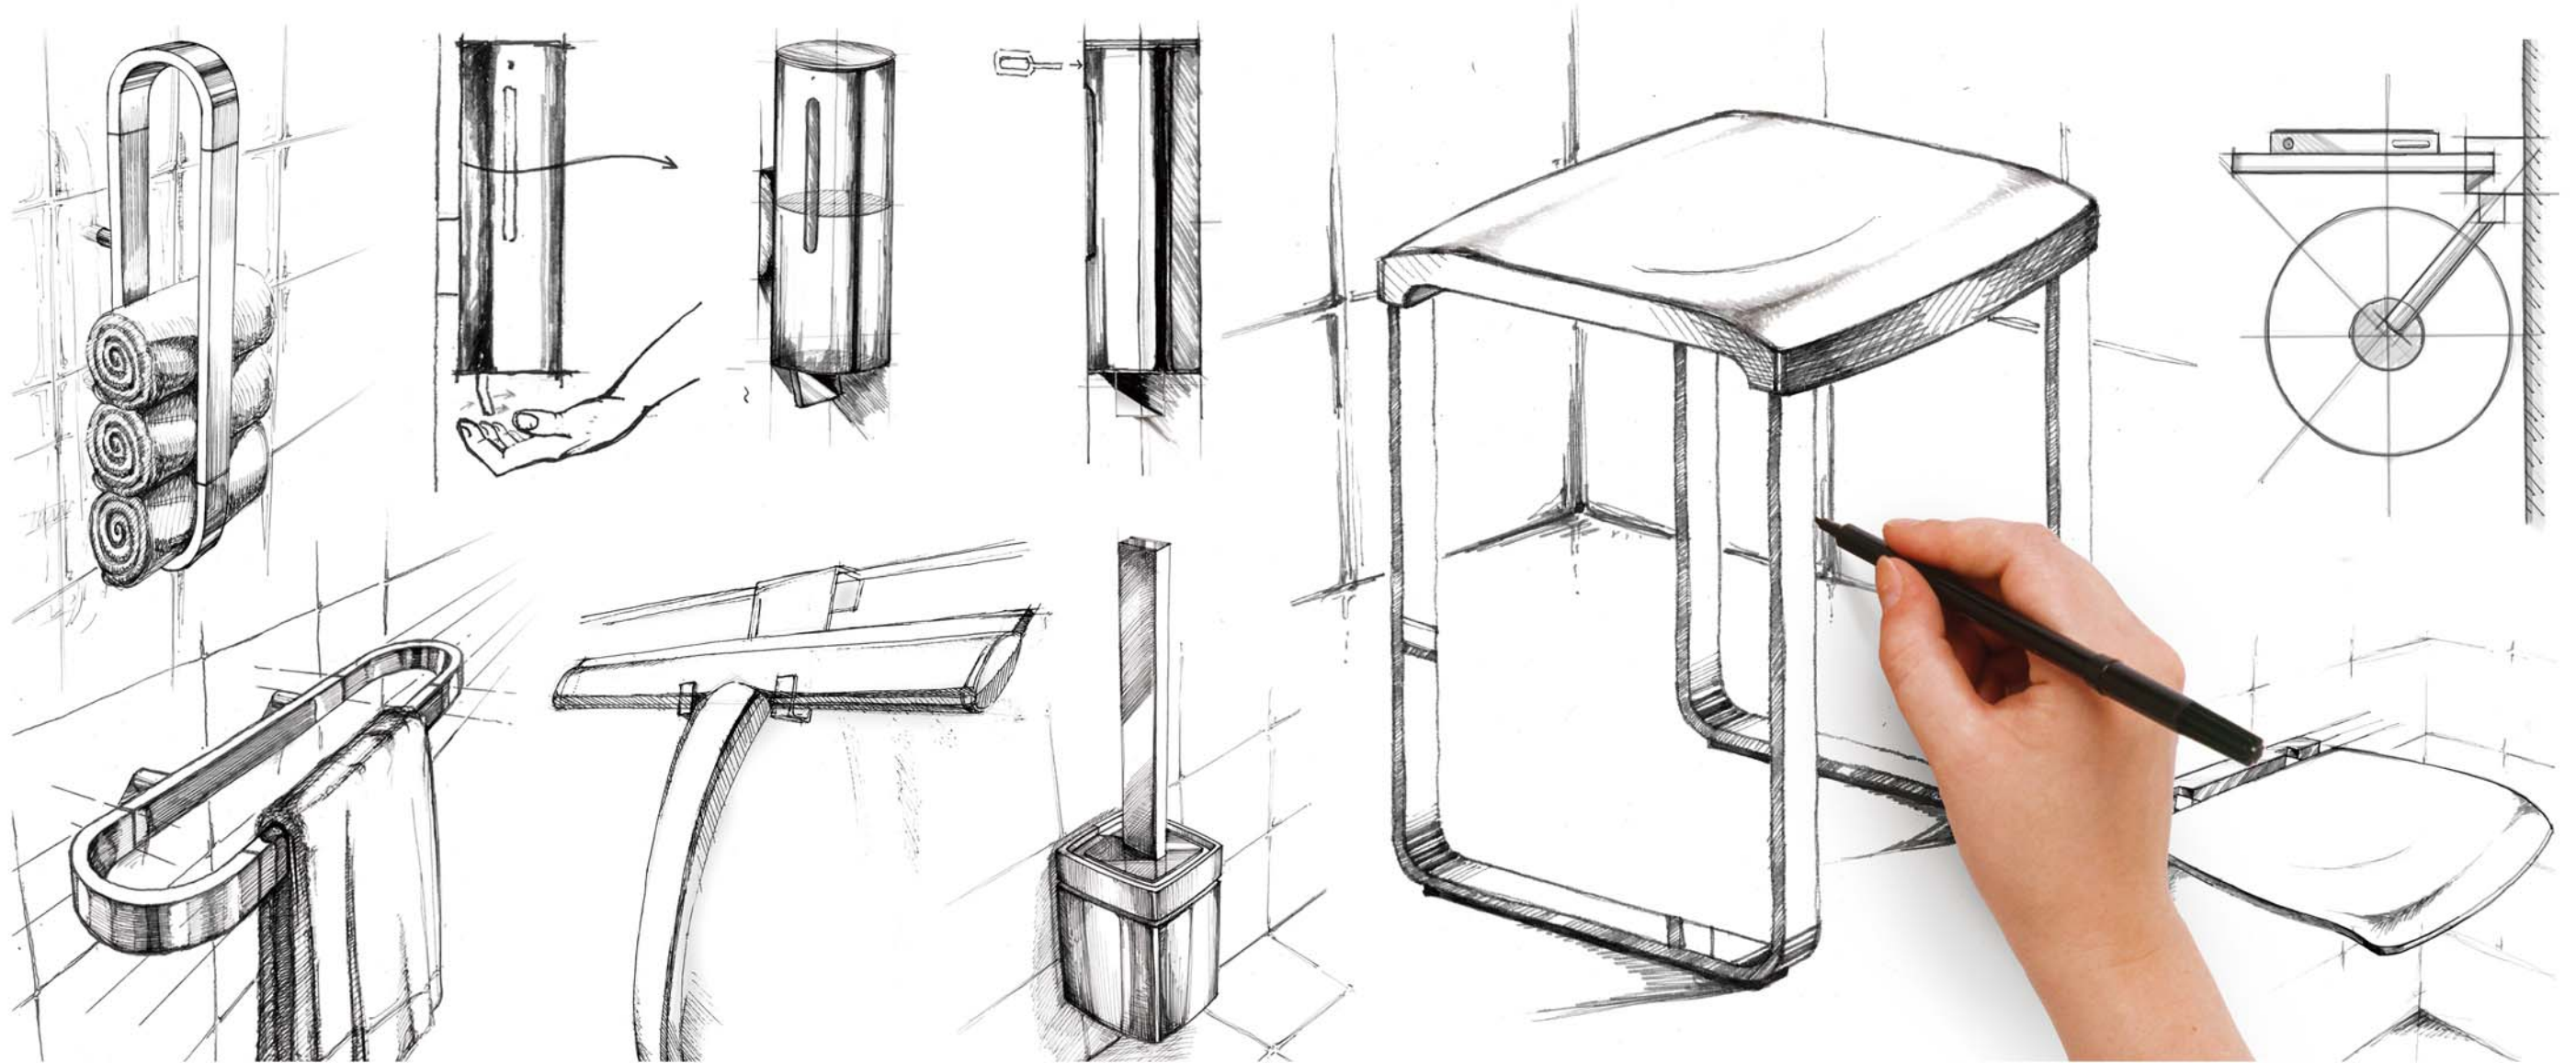

NBL's production facility is certified by German TÜV Nord to ISO9001 Quality, ISO14001 Enviromental and ISO45001 Health & Safety standards.

# PRODUCT DESIGN

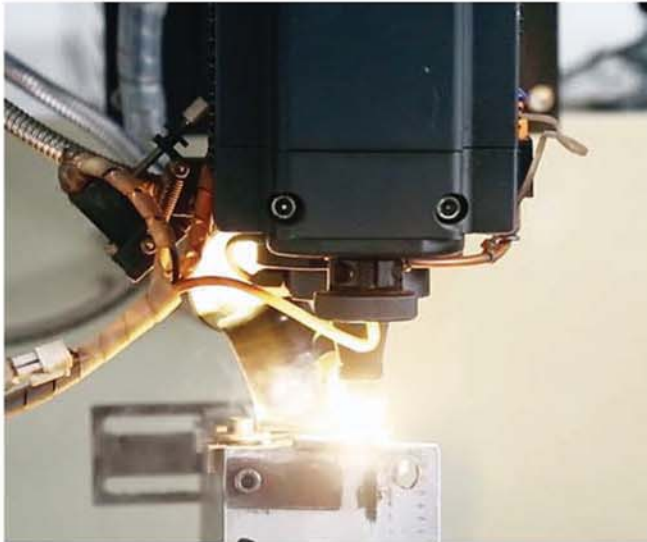

NBL specializes in designing, engineering and crafting premium bathroom accessories with the focus on both aesthetic and innovative functions.

# PRODUCTION

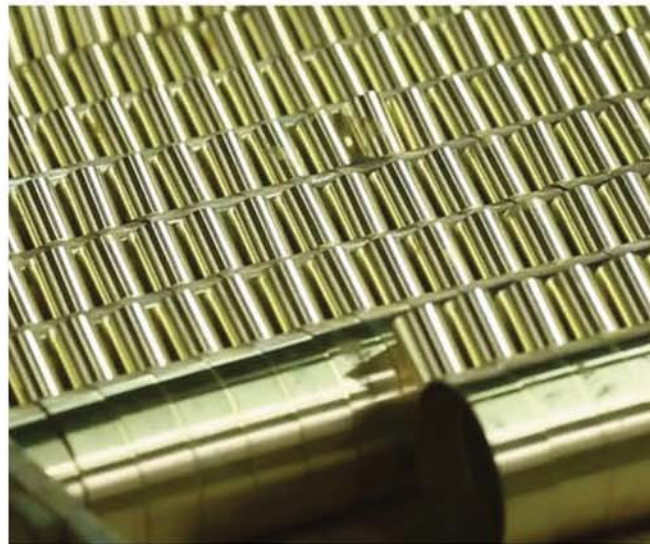

NBL's vertically integrated manufacturing processes include complete metal working such as CNC machining, laser welding, polishing, automatic plating and assembly, incorporating lean production.
