

About us

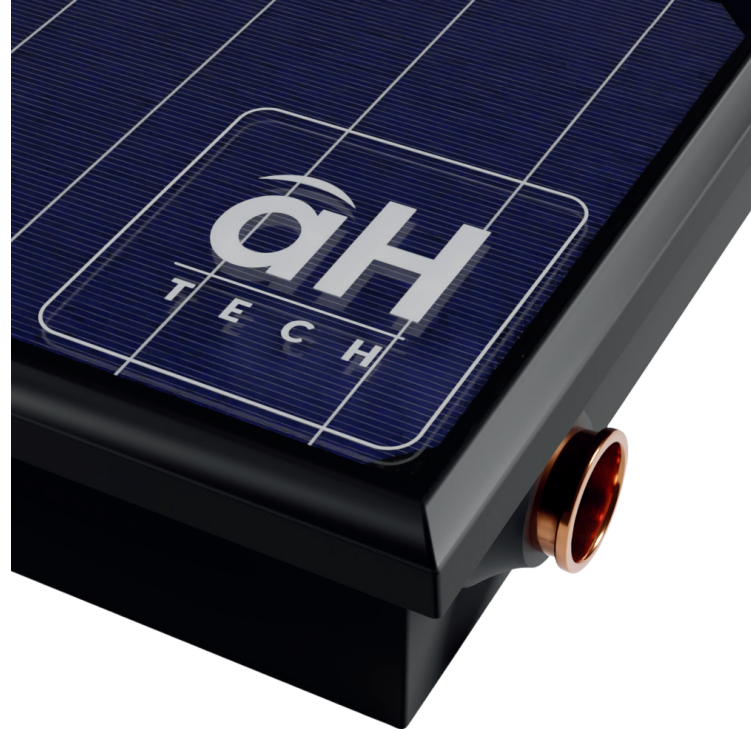

Abora, founded in 2017, is a Spanish manufacturer of hybrid solar panels. With innovation being the essence of the company, Abora has taken solar innovation a step further by rethinking the hybrid solar panel to the point of developing its own technology, aHTech®, making **its solar panel the most efficient and cost-effective on the market.**

Present in over **38 countries** worldwide
Recognised with over **30 awards**
