Palette Showroom – for consultation and sales

The easy way to create professional presentations

It's extremely simple to turn your finished designs into captivating displays, creating a virtual showroom that will inspire your clients.

A wide range of presentation options

Showcase your Palette CAD projects in a photo-realistic view, with a creative marker or watercolour look, as a video, in a virtual tour, or much more ...

Anytime, anywhere

Upload your showroom to the cloud and embed it into your website to give your clients an initial idea of your creative designs and demonstrate to them that you're an expert.

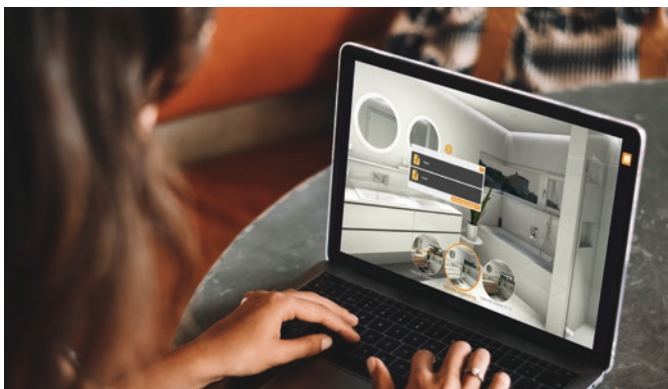

Always up-to-date

It's quick and easy to enhance and update your virtual showroom.

Win your clients over

With professional presentations at any time and anywhere – at your office, with your clients, on the building site – you'll make more of an impact in your client meetings.
