

Palette Rooms

Convincingly fast.

quick - simple - intuitive

Your program extension for Palette CAD:
The intuitive Palette Rooms quick planner is your sales tool in the bathroom and interior design sectors.

PaletteCAD

Palette Rooms combines 3D planning and sales

With Palette Rooms, you can expand your Palette CAD workflow with a powerful sales tool. The quick planner is so intuitive that it combines professional 3D planning and impressive customer consultations in a single step. Even during the initial consultation, you can easily present customer requests on screen – without any prior knowledge of 3D planning.

Easier to get started

- Simple and intuitive operation
- Minimal training required
- Online planning in the browser
- Multi-room planning in 3D

Easier planning

- Comprehensive manufacturer catalogues (incl. ARGE)
- Fully-fledged and intuitive tiling solution
- Seamless import into Palette CAD
- Maximum time savings

Easier to impress

- Plan and present in a single step
- Real-time rendering in first-person
- Four different views of your plans
- Followed by a high-end presentation with Palette CAD

Online planning in your browser

For 3D planning with Palette Rooms, you don't need any high-performance hardware and you are completely independent of time and place. You can access the quick planner at any time via your browser, log in and start planning directly at the customer's premises.

Connect to Palette CAD

Import your plans from Palette Rooms into Palette CAD seamlessly via the cloud. There you can continue your professional planning, create parts lists and overviews, and prepare high-quality presentations in photorealistic quality and much more.
