About ViSoft

ViSoft GmbH is a software manufacturer for the tile and sanitary industry with a team of 35 developers and data integrators.

With ViSoft products, companies of all sizes - manufacturers, dealers and craftsmen - plan, visualise and sell tiles and sanitary ware.

Materials and decorative objects offer bathroom planners unlimited possibilities for individual room design.

The owner-managed company with headquarters in Sindelfingen cooperates with more than 500 manufacturers, has customers in 87 countries and distributes its software in 23 languages.
