## Where we do it

We have strategically located warehouses in **Santa Perpètua de Mogoda** and **Warsaw**, complemented by offices in **Barcelona City**, to enhance our logistics chain, ensuring faster, more efficient, and locally optimized deliveries.

We are entering the USA market with operations started in 2024.

AREA is part of the IPCOM group, which has a presence in 16 European countries and over 1,600 employees across multiple industries, including construction, OEM (Original Equipment Manufacturer), HVAC, and industrial insulation. Being part of this strong and extensive network enhances our reach and strengthens our capabilities.

# Logistics

We manage the logistics chain to make the product widely available in Europe, under EU rules.

- 2 warehouses in Europe
- From one piece to large quantities
- Delivery time 48/72h anywhere in Europe
- Product liability insurance & full EU warranty
- 4.414 orders processed in 2022
- 71.576 compressors delivered in 2022

## Technical Support

We provide technical support and documentation in your language to help develop your next generation of products.

On-site support or via the web, phone, mail, chat and videoconferencing.

Assisting you in selecting and installing the most efficient and cost-effective solutions for your projects, while providing comprehensive after-sales support for any type of product.
