# PROFESSIONAL ADVANTAGE

Being a craftsman is insisting a kind of spirit  
even in this highly intensive and industrialized society today  
Still, there are people who insist the idea of making every detail to the extreme  
Stubborn, slow, precise, and manual work  
Devote themselves full-hearted in making craft  
All crafted items are the refraction of the workman's mind  
They are trying hard to convey their ideas  
What they care about  
What they cherish  
And this is the most precious  
Hope that the user can read these behind  
The focus, the artistry  
And the pursuit of perfection  
Let this obsession push us forward  
With absolute focus, and keep absolute quiet in mind  
Focus on doing fine craft  
We prefer this, it must be so, and will always be like this
