

timeless now

 **berndorf**
bäderbau

timeless now

Premium swimming pools from Berndorf Bäderbau have a design quality and technicality that makes them a great investment for **generations and decades** to come.

Nevertheless, there is only one moment that counts: the **sensual experience** in the here and now, when time is suspended. Memories that remain. The joy of children who later, when they are parents themselves, think back to their own childhood.

Berndorf Bäderbau swimming pools are both: they are for just that **moment**, and for **eternity**.

Our vision

Berndorf Bäderbau
is the **ultimate**
in swimming pools.

Foto & Design Gröber GmbH & Co. KG

Our mission

As a team of the **best minds**,
we are already setting the
standards for tomorrow.

Our offer

We build high-quality
stainless steel
swimming pools with
everything they need:

**above,
before,
afterwards,
underneath
and
around them.**

CH/Margrethen Mineralheilbad

Our promise

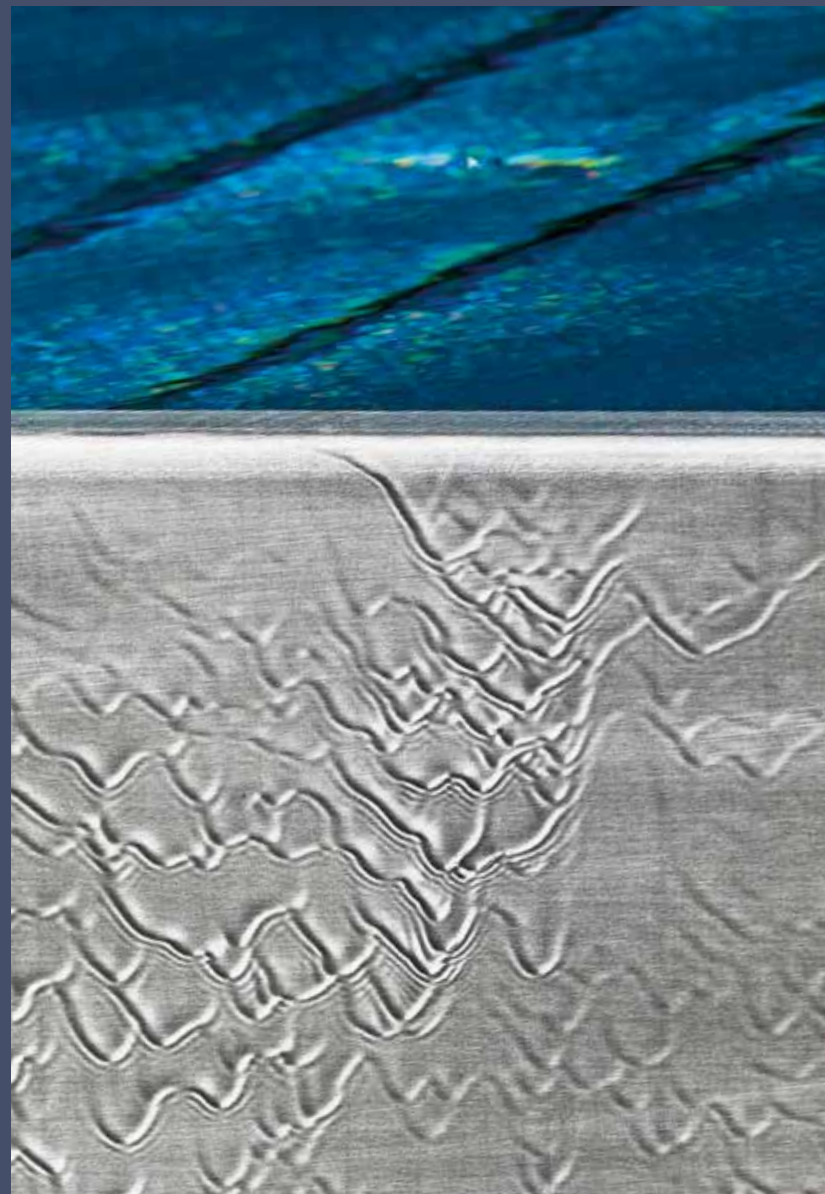

Berndorf Bäderbau
brings more **joy**
into your life.

Our attitude

We are only satisfied at
Berndorf Bäderbau when
our customers are **delighted**.

Making life the best

Tom Philippi

At any time of year. Wherever we are.
Water is joy. Water creates moments of
indulgence and timelessness.
Berndorf Bäderbau makes your life better,
no matter where you are: staying in the
best hotels, in public swimming pools in
your home town, or at home – with our
highest quality stainless steel pools.

Communal

ONCE AND FOR ALL

Whether it's pool landscaping or turnkey indoor and outdoor pool facilities you are looking for: stainless steel swimming pools from Berndorf Bäderbau will provide your community with greater enjoyment and quality of life for generations to come.

We create swimming pools that meet the needs of your guests - from sports to adventure to children's pools. The "Riviéra Brno", built by Berndorf Bäderbau in 2018, is the world's largest landscaped swimming pool in stainless steel.

Make a sustainable decision.
Berndorf Bäderbau stands for quality
and excellent value for money.

Berndorf Bäderbau is at your
disposal in every phase: before, during,
and after completion.

Hotel

ONLY THE BEST REMAINS

Stop time, enjoy the moment to the fullest.

Swimming pools from Berndorf Bäderbau will enchant your hotel guests with experiences that stay in their memories. Your Berndorf Bäderbau pool will be a strong selling point for your business. Whether you dream of having a swimming pool indoors, on the roof, or in a green area,

Berndorf Bäderbau will fulfil your every need.

Individually planned pools emphasise the unique style of your hotel. Thanks to the modern design, the limitless possibilities for shaping and the outstanding quality of workmanship, our pools blend harmoniously into any environment. In the perfection of your Berndorf Bäderbau stainless steel pool, your guests will experience with all their senses your ambition to offer the best, always and everywhere.

Private pools

FOR CUSTOMERS WITH THE HIGHEST DEMANDS

Refine your home with a pool that meets the highest standards. With a stainless steel pool from Berndorf Bäderbau, you can enjoy high-quality workmanship, the finest design and perfect purity.

Create a place for the senses that blends harmoniously into your ambience. Berndorf Bäderbau is able to respond to demands in exactly the way that the most discerning private customers worldwide have come to expect. Functionality and design ensure that people, nature and technology live together in style.

With a pool from Berndorf Bäderbau, you will increase the value of your property - and you will not only bring joy to your family today: investing in something noble will also pay off for the next generation.

Pool builders and operators

D/Homburg, KOI Bad & Sauna

At Berndorf Bäderbau, we know from our own experience what is important for operating swimming pools. In the Südbad Trier and the KOI Bad & Sauna in Homburg, our expertise is the assurance of wellness, enjoyment, sport and relaxation. Our two pools in Germany offer a sophisticated ambience for days that are filled with completely refreshing, feel-good moments.

For our guests, the two baths are places of time-out, where they take a holiday from everyday life. For us as a company, they are a constantly bubbling source of experience that flows into the development of future bathing facilities.

Stainless steel meets water

- | | |
|--|--|
| › Highest durability without loss of visual quality | › It is currently the only material used in swimming pool construction that does not emit any health-damaging and environmentally harmful pollutants, even after extended lifespans, and at the same time is safe to use |
| › Ecological, 100% recyclable raw material | |
| › Cost-efficient operation with minimal cleaning costs and much easier overwintering | › Easy implementation of extensions/alterations even after many years of use |
| › UV-resistant and no fading | › Smooth surface and permanent watertightness |

Two worlds – created for each other to blend timeless elegance and durability with the sensuality of the moment.

Artisan and factory-made

MANUFACTURING MEETS HIGH-TECH INDUSTRY

For over half a century, Berndorf Bäderbau has been setting new standards as a leading producer of swimming pool facilities. This long-standing expertise is a strong foundation for perfection in assembly and production.

As a result, Berndorf Bäderbau has been able to develop a special design that features flexible adaptation to a wide range of conditions and problem-free final assembly. Human skills go hand-in-hand with cutting edge industrial manufacturing - a unique combination that is a guarantee for highest quality.

Unique

- | | |
|---|--|
| › The industrial prefabrication of components and assembly work that can be carried out at any time of the year with short construction times | › Numerous patents: from the non-slip surface to the inlet nozzles for clean water |
| › Delivery of pool wall elements of up to 10 metres in length | › All building work is possible under listed building protection conditions |
| › Optimal cleaning effect due to the well-engineered pool flow | › Our deadlines and costs hold as guaranteed as our pools |

CZ/Čeladná, Hotel Miura

Stainless steel pools from Berndorf Bäderbau are in a class of their own.

Service

FOR MORE THAN A LIFETIME

Stainless steel pools are largely maintenance-free and therefore easy to clean, and they are durable... very, very durable. That is why Berndorf Bäderbau can guarantee you a service that is as long-lasting as our product.

Upon request, we carry out overwintering measures and recommissioning after overwintering, as well as pool cleaning. Our spare parts and accessories ensure the longevity of your pool system. Our proactive maintenance ensures lasting pleasure.

We are always there for you.
And for the next generation too.

Premium quality
is timeless,
so it is always
the best choice.

Experience

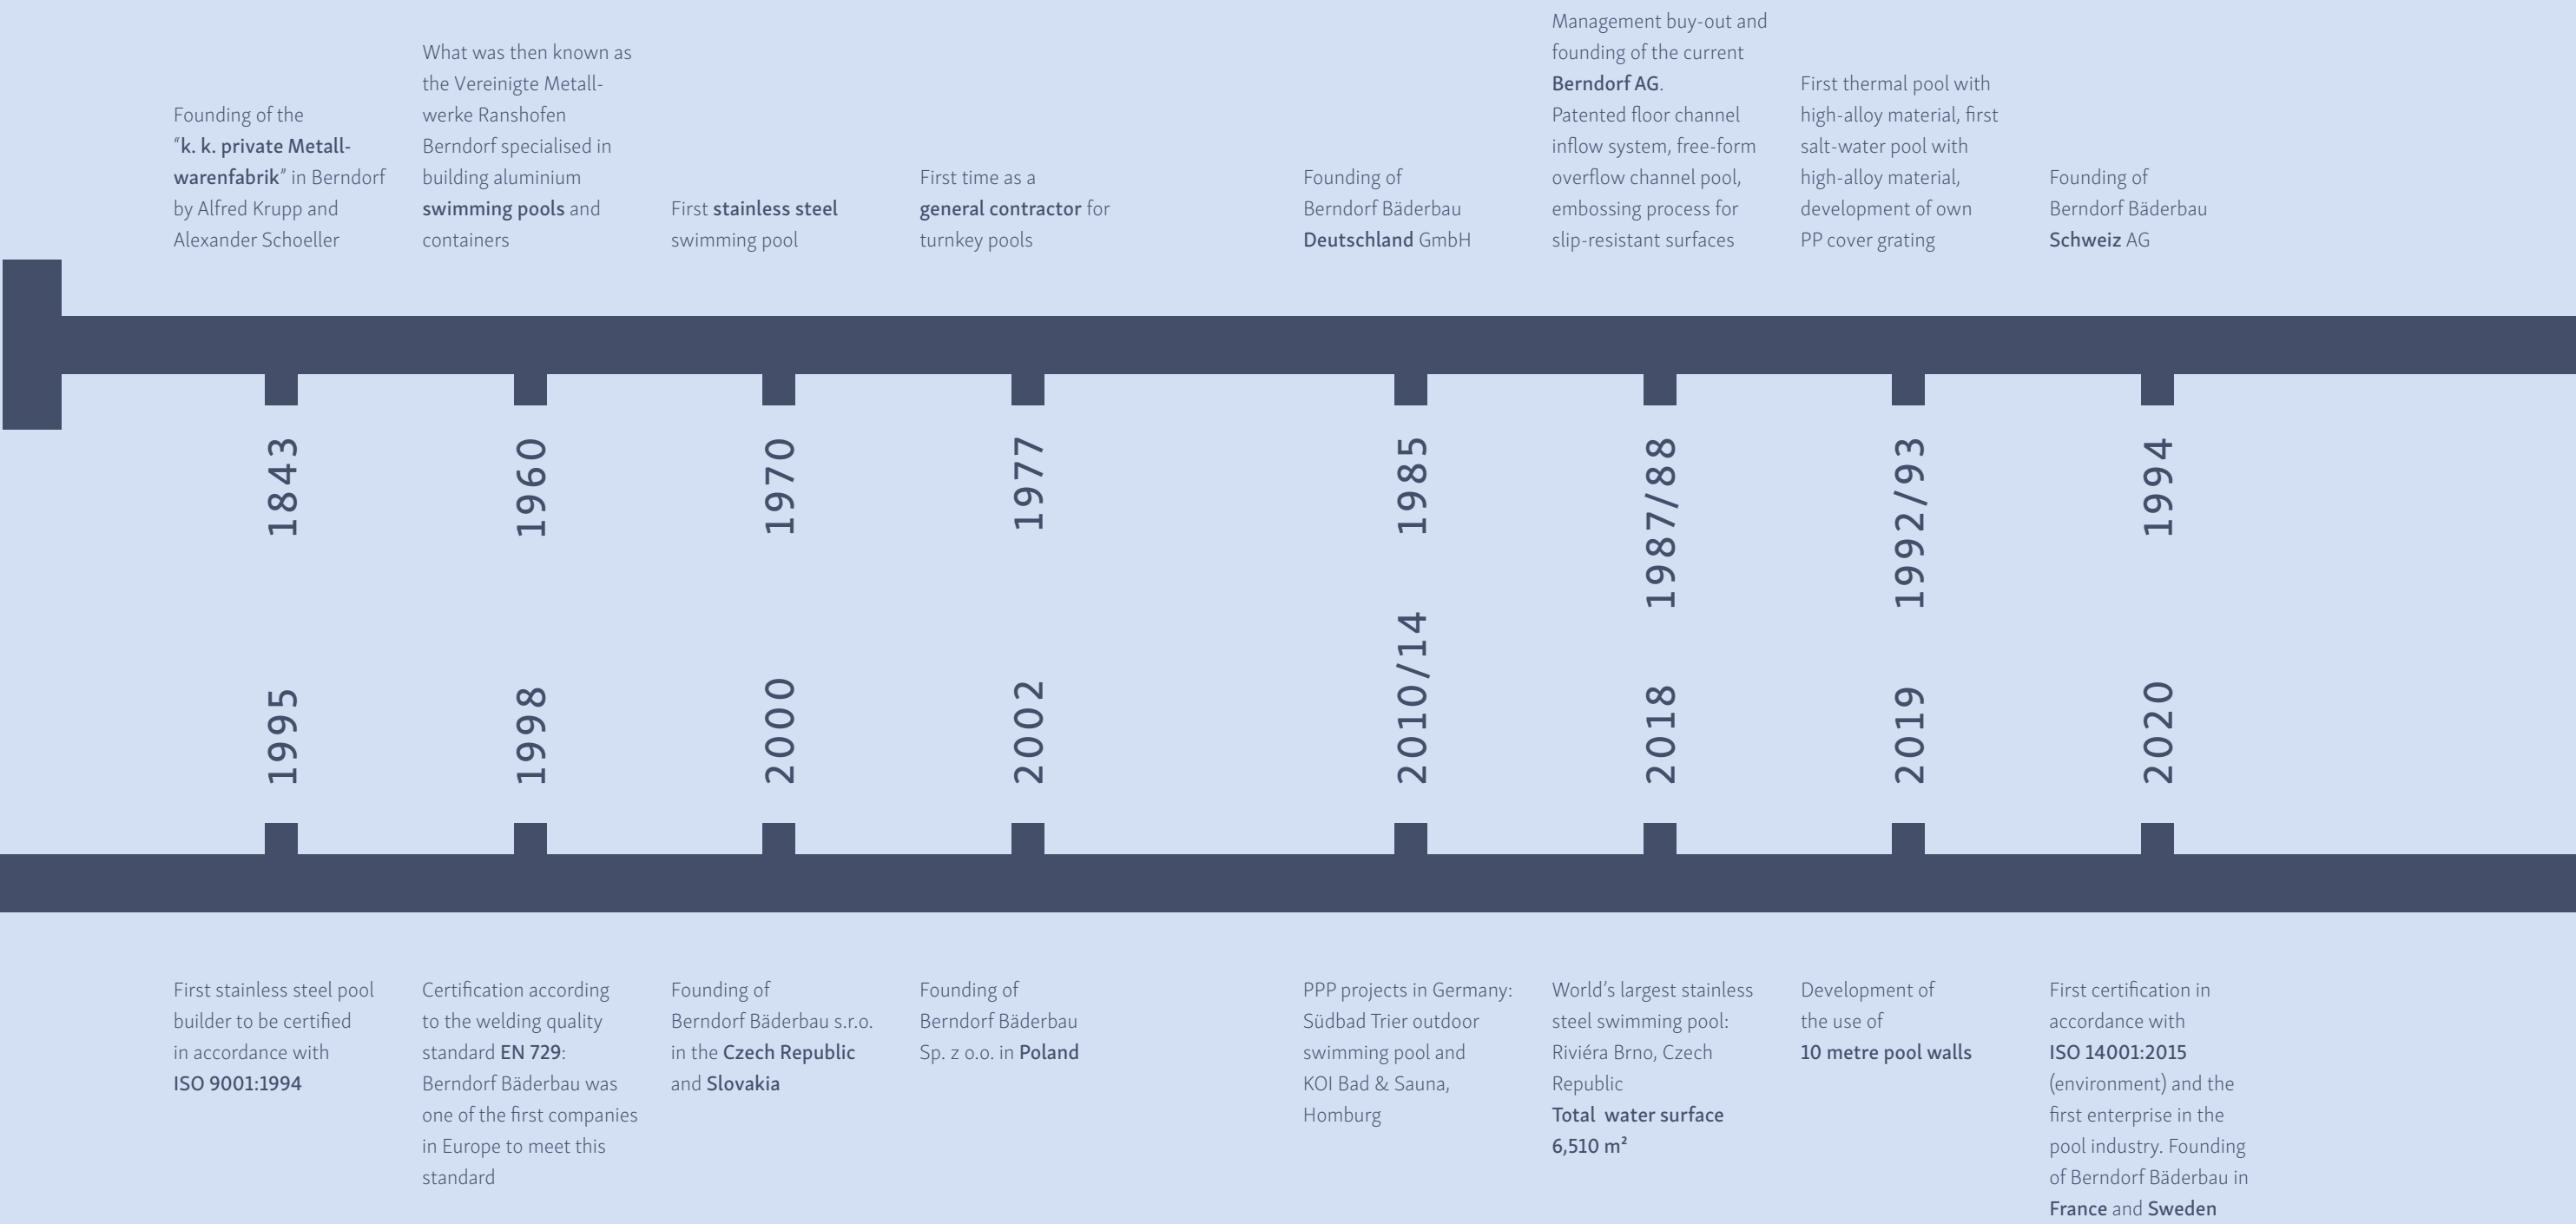

Over the past decades, teams from Berndorf Bäderbau teams have built fascinating stainless steel pools all over the world: from municipal to hotel and private pools.

A unique design has been developed.

This is characterised by our wealth of experience, flexible adaptation to a wide variety of circumstances and a unique combination of manufacturing and industry: perfected craftsmanship and cutting-edge high-tech manufacturing methods working in perfect harmony. Factory prefabrication of our components ensures that the final assembly at the construction site is kept to a minimum.

Milestones

Berndorf AG

PREMIUM SIZE FROM THE VERY BEGINNING

In 1843, the industrialists Alfred Krupp and Alexander Schoeller founded “k.k. private Metallwarenfabrik”. The foundation stone for Berndorf AG was laid.

Today, Berndorf AG is the holding of a group of industrial companies working worldwide. As well as pool construction, its core skills are in the automotive, toolmaking, heat treatment, belt and belt systems, press plates, process engineering, mechatronics and joint venture sectors.

Subsidiaries and affiliates of the Berndorf Group currently employ **around 2,300 employees in over 20 countries worldwide.**

Expertise, experience, skill and international networks mean that the Berndorf Group of enterprises are market leaders worldwide, operating in key industry segments.

As a subsidiary, Berndorf Bäderbau has been a leading manufacturer of stainless steel swimming pool installations since 1960, with its own subsidiaries and sales branches throughout Europe.

The Berndorf Bäderbau headquarters is located in Berndorf in Lower Austria, where the corporate headquarters are also located.

For the moment
and for eternity
