BNC Project Intelligence

The Region's **Largest and Most Popular** Construction Intelligence Database

bnc®
construction intelligence
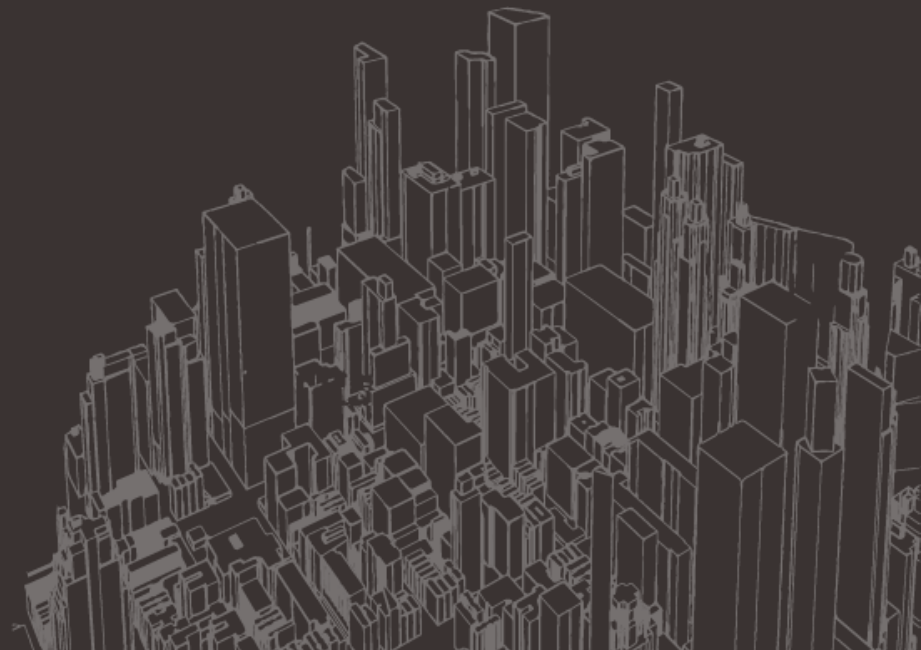

Our Story

BNC was launched in 2003 **to create a digital network that connects businesses within the construction industry** in creative new ways to increase **transparency** and **efficiency**.
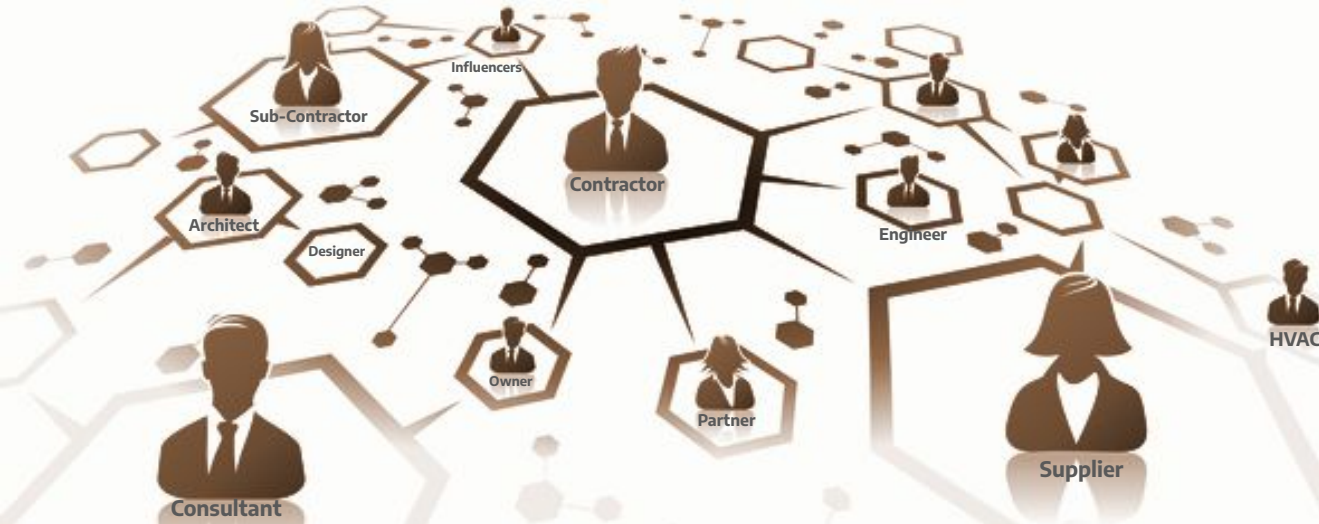

We are Researchers
We have been **the region's largest integrated project intelligence database** since 2004.

We are Analysts
We derive actionable insights and intelligence to provide **analytics** and **thought leadership reports**.

We are Communicators
Our daily **bulletin** is subscribed by more than **66,000** business leaders and industry professionals.
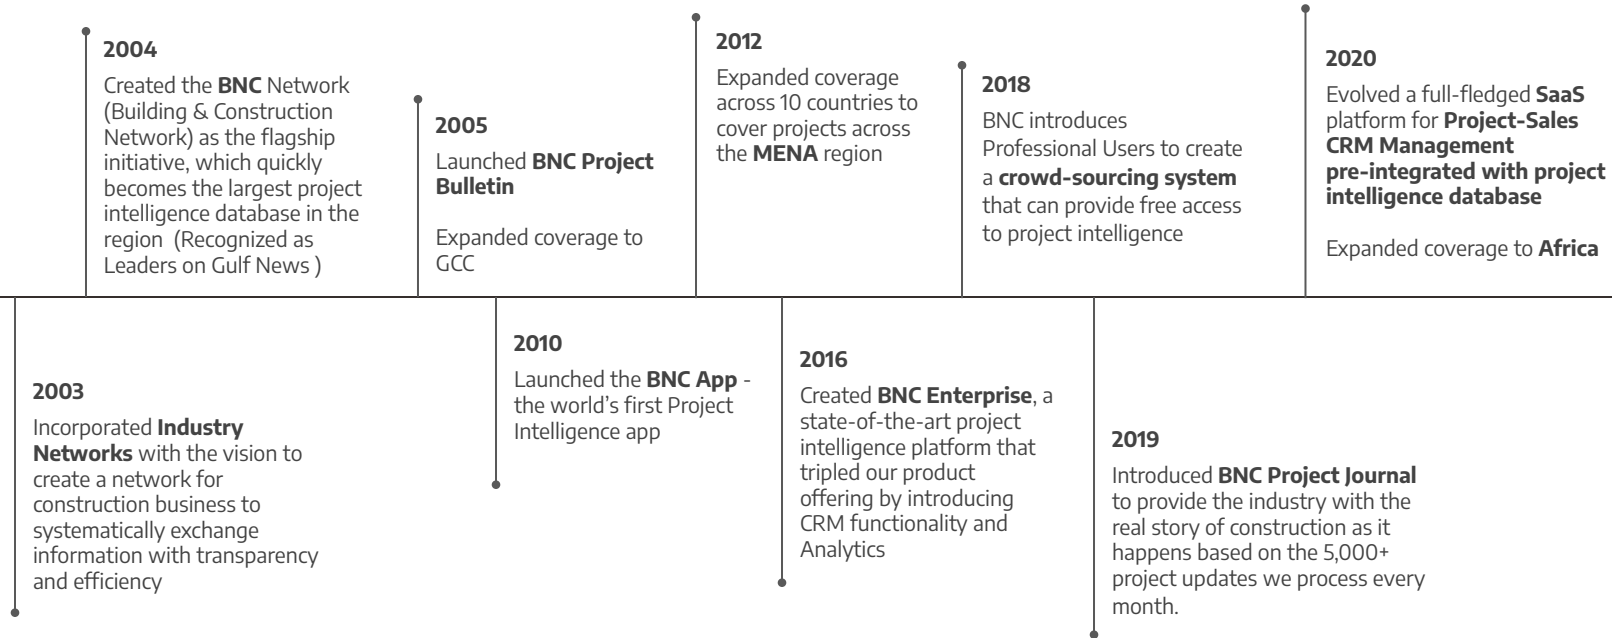

We are Techies
We created a unique state-of-the art **CRM platform** to seamlessly **integrate sales management with project intelligence**.

We are Enablers
We imagineer new ways to connect entities across the industry to **transform information exchange on projects**.

Our Timeline: Driving the Construction Evolution

2004

Created the **BNC** Network (Building & Construction Network) as the flagship initiative, which quickly becomes the largest project intelligence database in the region (Recognized as Leaders on Gulf News)

2005

Launched **BNC Project Bulletin**

Expanded coverage to GCC

2012

Expanded coverage across 10 countries to cover projects across the **MENA** region

2018

BNC introduces Professional Users to create a **crowd-sourcing system** that can provide free access to project intelligence

2020

Evolved a full-fledged **SaaS** platform for **Project-Sales CRM Management pre-integrated with project intelligence database**

Expanded coverage to **Africa**

2003

Incorporated **Industry Networks** with the vision to create a network for construction business to systematically exchange information with transparency and efficiency

2010

Launched the **BNC App** - the world's first Project Intelligence app

2016

Created **BNC Enterprise**, a state-of-the-art project intelligence platform that tripled our product offering by introducing CRM functionality and Analytics

2019

Introduced **BNC Project Journal** to provide the industry with the real story of construction as it happens based on the 5,000+ project updates we process every month.
