GEAR
GARAGE

Gear up your passion

made by Fami

Gear Garage, Gear up your passion!

**Gear Garage,
the industrial furniture
line at the service of the
world of motor vehicles.**

Fami brings together *functionality* and *design* to create a workplace that integrates seamlessly into the space and enhances the vehicles it encircles.

Clean, geometric lines conceal all that you would ever need in a Garage. Tools, spare parts, cases, cable reels, cables, oils and cleaning products, everything is stored neat and tidy.

GEAR GARAGE
Gear up your passion

Features

It all starts at the top

The lower modules have a 630 mm deep worktop, providing ample space to work in comfort.

The sliding door

Cabinets with sliding doors increase the storage capacity of the workstation by reducing the clutter and obstacles that would result from using cabinets with hinged doors.

A secret cabinet

The technical cabinet is designed to conceal cable reels and electrical cables, so that only those items required for the job are readily visible.

Garage flip-up opening

Flip-up openings can be inserted in the lower modules to utilise space that would otherwise be wasted. They facilitate the sorting of waste, and help to keep the workplace clean and tidy.

Around the corner

The corner module can be upgraded with up to 4 electrical sockets and 2 cable reels. It allows for optimal use of space and a large worktop surface.

GEAR GARAGE
Gear up your passion

A drawer full of surprises

100% extension and 70 kg load capacity make these drawers the ideal storage solution for work equipment and tools. Full pull-out provides a complete view of the interior and facilitates removal of the stored items.

Free-standing

All Gear Garage solutions require no masonry anchoring. The various structures such as modules and wall units are free-standing.

Suspended storage

The wall unit, with soft touch vasistas opening, can be mounted on walls or perforated walls and provides an additional space for work equipment organisation.

Modules

The modular Gear Garage system permits integration of several modules to create structures that can be easily adapted to the size of the space where they are to be installed. The modules are available in 7

different widths, from a minimum of 512 mm to a maximum of 2040 mm, and are subdivided into base modules, worktops, wall units, cabinets, chests of drawers and corner units.

Tops in various designs

Satin **Stainless** steel

Rubberised Steel

Multiplex Wood

Warranty

The 10-year warranty on Fami products aptly reflects the premium-quality materials we use and the

care and dedication that go into the production of our furnishings to make them reliable and durable.

Cabinets

All the colours and then some!

Depending on the environment where it is installed or on the corporate colours, Gear Garage can be in a single-colour or two-tone. Up to 12 RAL colours are available to customise the frame and façades.

Frame

Façades

*Frame and façades in **Ideaone** colours RAL 7035 + RAL 7016 are available from stock.

Layouts

**Turn ideas
into products
using Fami's
configurator!**

**Gear Garage can be
designed and equipped
using Fami's 3D
configurator.**

The platform makes it possible to create designs planned down to the tiniest detail, arranged in spaces with the same dimensions and peculiarities as the area where the furniture is to be installed.

Unipok tool hook - 30-piece pack

Up to 30 tools can be mounted with 1 pack

ART.	pcs per pack	colour	
FBLIT009007	30	Black	

Unipok is the name of the new **universal hooks** from Fami, which use a screw-in system to allow positioning on perforated boards or wooden panels. Each Unipok hook can be positioned at a different angle to mount tools with different shapes and dimensions. Free your imagination and optimise organisation of your wall or workbench-mounted perforated board and wooden board, making sure that everything is always close to hand!

Unipok makes organisation child's play!

Mounting on wood
