WORLDWIDE EXPORT

PLASTGRIP® MMA is a two-component acrylic structural adhesive, ideal for bonding composites, plastics, and metals. It is widely used in industries such as marine, wind energy, transportation, infrastructure, and other composite applications.

The advantages

- ✓ Cures at room temperature
- ✓ Does not boil exotherm
- ✓ Paintable after curing
- ✓ Excellent sag resistance for horizontal and vertical applications
- ✓ High energy and impact absorption
- ✓ No special treatment of the substrate required
- ✓ Filling properties up to 11mm
- ✓ Primerless bonding
- ✓ UV resistance
