WORLDWIDE EXPORT

PLASTGRIP® 2C-Polyurethane is a unique type of polyurethane. Ideal for the bonding/repair of plastic parts. Available as a 2-component, 1:1 ratio, in various curing speeds, and packages. PLASTGRIP® 2C-Polyurethane is a unique system for the repair, bonding and sealing of plastics and many other materials.

The advantages

- ✓ Excellent sag resistance
- ✓ Excellent curing speed and adhesion strength
- ✓ Easy to sand
- ✓ Stays flexible even under cooler conditions
- ✓ Does not contain any solvents
- ✓ 18 months shelf life
- ✓ Both high viscosity and fluid variants
- ✓ Constant quality
- ✓ Excellent chemical resistance
