Pliogrip® 2C-Epoxy is a unique 2 component Epoxy Adhesive. Specifically designed for bonding panels and roofs of cars, Pliogrip 5761B provides strong structural bonds to various types of metals. Available in several sizes of packaging in a 2:1 ratio.

The advantages

- ✓ A minimum adhesive thickness [0,25mm] is guaranteed by glass pearls
- ✓ Excellent resistant to powder coat
- ✓ Wet spot welding possible
- ✓ Unique anti-corrosion formulation so application on bare metal is possible
- ✓ High energy and impact absorption
- ✓ 2 years shelf life
- ✓ Non-flammable
- ✓ Minimal smell

Technical data

Article number	Open time	Working time	Enlongation	Viscosity mPas	Young's Modulus Mpa	Handling time	Shelf life
5761B	60 min	90 min	3%	87.500	4550	4 hours	24 months

Bondable substrates

SMC	ALUMINIUM 6016
ABS	E-COAT
GALVANIZED STEEL	CARBON
STAINLESS TEEL	ALUMINIUM 6082
CRS DC04
