drive for perfection

TIP-TOPOL is the largest polish air spring manufacturer **with production experience since 1988**. Production of **high quality products**, a **wide range, flexibility**, and up to **3 years of warranty**, make TIP-TOPOL a leader in the industry.

More than **850 different types** of air springs **cover 95%** of European CV fleet requirements (trucks, trailers, buses).

TIP-TOPOL is focused on continuous development and **perfection**. Regular inspections of production processes, product re-qualifications, raw material and component testing, **ensure one of the best quality** results on the market.

The R&D department designs and develops new products to continually add to our range based on inquiries from **OEMs** and the **aftermarket**. All this makes TIP-TOPOL a **reliable partner** for our distributors.

Our company also has a **long experience** in production of **balance weights** and distribution of **repair materials** and **consumables, tools** and **workshop equipment** related to tyres.

We also specialize in materials for repairing and joining **conveyor belts, rubber lining** and other specialist materials and tools for the mining industry, steel mills, heat and power plants, chemical plants as well as other sectors of industry.

More details about our company and products we offer you can find on our website: **www.tiptopol.pl**
