YOUR NAME YOUR LOGO PREMIUM QUALITY

UNDERBODY PROTECTION

- | Stone Chip
- | Stone Chip Premium
- | Cavity wax

Our underbody coating solution boasts outstanding coverage capabilities to enhance your vehicle's defence. Rapid drying time ensures swift application, yielding a surface with a refined or rugged texture, adjustable via the nozzle settings.

Compatible with all paint systems, this versatile product offers unparalleled protection. Available in both stone chip and cavity wax variants.

Available in

1Kg | 1L

Also available in custom packaging

POLYESTER FILLERS

- | Multifiller
- | Light universal Filler
- | Fiberglass

Crafted to serve multiple purposes, our polyester filler is compatible with various substrates. Achieve seamless, pinhole-free results with sanding paper ranging from P80 to P120. Choose from our range of fillers, including Multifiller, Light Universal Filler, and Fiberglass, for tailored solutions to your needs.

Available in

1Kg | 2Kg

Also available in custom packaging

1K - 2K FILLING PRIMERS

Quick-drying primers compatible with all paint types, whether 1K or 2K. Ideal for application in thin layers on sanded surfaces, they offer versatility. You can adjust the dilution with standard or slow thinner by 25-50%.

Available in

1L | 4L

Also available in custom packaging

CLEAR COATS

- | High Solids Scratch resistant
- | Ultra High Solid

2K clear coat offers excellent scratch resistance and high solids content, ensuring durability. It's a fast-curing option suitable for spot repairs or full-body applications. You can mix it with standard, slow, or fast hardeners at a 2:1 ratio for added versatility.

Available in

1L | 5L

Also available in custom packaging

SPRAYS

- | Antichip
- | Primers
- | Paints
- | Clear Coats

We provide an extensive selection of aerosol sprays to meet diverse automotive refinishing needs. Our range includes antichip formulations for effective protection, 1K and 2K primers for versatile substrate preparation, paints available in a spectrum of shades to match any colour requirement, and clear coats for achieving a glossy, durable finish. Additionally, we offer various other types of aerosol sprays upon request, ensuring comprehensive solutions tailored to specific preferences and applications.
