# Company Vision

## Ultra and Amadex

With the establishment of trademarked brands under the organisation - Ultra and Amadex, our vision is to be the Industry Leader delivering the best quality range of products with the highest standards of integrity.

The logo for ULTRA, featuring the word 'ULTRA' in a bold, italicized, blue sans-serif font with horizontal lines through the letters.The logo for Amadex, featuring a blue stylized cross symbol followed by the word 'Amadex' in a blue sans-serif font.

# "Passion Driven, Excellence Inspired" The story of Megine began in 1999.

Based in Malaysia, Megine Group of Companies set new standards in innovation, quality and user- friendliness of products involving in divisions of Automotive and Medical.

As a premier leading manufacturer and supplier of Collision Repair and Medical Healthcare, we are always committed to deliver exceptional Customer Care and have been continuously investing in Research and Development on our products - paving the way for becoming one of the first companies to provide multi- solutions under one body.

# Ultra® Cup System

Megine is proud to introduce our very own Ultra Cup System (UCS®). Designed for the concept of disposable paint preparation with its own disposable membrane of liners, UCS® eliminates the usage of separate traditional mixing pots and paint paper strainers resulting in a significant increase in speed and efficiency. It allows painters to mix and spray out of the same closed system with built in filter of various membrane thickness.

With the UCS®, it enabled painters to paint upside down and offers a cleaner more efficient solution for all repairs. The comprehensive range of mini to large spray system allows painter to adapt and minimize waste and maximize productivity.

# Ultra® Cup System

- Reusable Hard Cup and Collar supports and holds the disposable Lids and Liners
- Disposable Lids and Liners for the use with UCS®, available in 190 micron and 125 micron filter
- UCS® has the ability to reduce solvents up to 70% from traditional gravity pots
- Reduce cycle times with fast and easy clean up, often more than 50% time savings. Easy to use
- High efficiency
- Reduce Material Consumption = Save on Materials (primer, sealer, base-coat or clear coat)

# Ultra® Cup System

## Description

- Ultra Cup System 400cc Lids and Liners 125µm
- Ultra Cup System 400cc Lids and Liners 190µm

# Auto-Masking Overspray Film

**Ultra® Premium High Density Corona Treated Polyethylene Masking Film is the preferred solution for exterior applications of vehicles from overspray.**

# Masking Film

## Auto-masking Overspray Film

- Static cling feature promotes easy handling during application
- Engineered to resist up to 110°C, eliminating the risk of ghost marking and disintegration
- Centre logo printing and instructions help with alignment on application
- Multi-coloured translucent film with a wide variety of sizes and lengths for different market requirements
- Available in Clear, Red, Blue, Green colour. Adjustable thickness from 8 – 15 micron

### Description

### Pack

Masking Film 4m x 150m	1 roll
Masking Film 4m x 300m	1 roll
Masking Film 5m x 120m	1 roll
Masking Film 4.8m x 100m	1 roll
Masking Film 4.8m x 120m	1 roll
Masking Film 5m x 100m	1 roll
Masking Film 6m x 100m	1 roll

# Pre-taped Auto- masking Dropsheet

**2 in 1 translucent High Density Corona Treated Polyethylene Masking Film with general automotive masking tape. Offers clean removal on different application within controlled environment. Available in dispenser for easier use, as well as refill rolls.**

# Masking Film

## Pre-taped Auto-masking Dropsheet

- Full corona treated which allows film to attract and retain paint overspray during application
- Static cling feature ensures film clings to the surface
- Engineered to resist up to 110°C, eliminating the risk of ghost marking and disintegration
- Tape on one side for superior 2 in 1 application
- Equipped with a blade dispenser for easy cutting process
- Adjustable thickness from 8 – 15 micron

# Masking Tape

- General Purpose Masking Tapes
- Water Resistant High Temperature Masking Tapes
- Premium High Temperature Masking Tapes

# General Purpose Masking Tapes

**Traditional high quality automotive masking tape with a resistance up to 80°C for 60 minutes**

- Soft crepe-backing with natural rubber adhesive gives excellent holding strength
- Can be used for general masking purposes, carton sealing and bundling
- Available in Beige colour

## Description

## In the Box

General Purpose Masking Tape 18mm x 50	48 rolls
General Purpose Masking Tape 24mm x 50	36 rolls
General Purpose Masking Tape 36mm x 50	24 rolls
General Purpose Masking Tape 48mm x 50	20 rolls

# Water Resistant High Temperature Masking Tapes

**High performance water resistance masking tapes suitable for automotive application with a resistance up to 100°C for 60 minutes**

- Excellent water resistant feature
- Multi bright colour backing improves visibility and accuracy during paint masking
- Suitable for automotive paint spraying, bundling, holding identification marking, sealing and electroplating
- Available in Yellow, Orange, Purple, Blue and Green colour

## Description

## In the Box

Water Resistant Hi-Temp Masking Tape 18mm x 50	48 rolls
Water Resistant Hi-Temp Masking Tape 24mm x 50	36 rolls
Water Resistant Hi-Temp Masking Tape 36mm x 50	24 rolls
Water Resistant Hi-Temp Masking Tape 48mm x 50	20 rolls

# Premium High Temperature Masking Tapes

**Suitable for high temperature spray painting applications with a resistance up to 150°C for 60 minutes**

- Strong resistance towards paint, solvent, oil and water (no seep through!)
- Ideal for high temperature masking application such as automotive paint spraying, bandoleering and electroplating
- Available in Beige and Yellow colour
