Buyer's Guide

Current General Product Listing provides a comprehensive overview of our complete product range, organized in a user-friendly format to enable quick and easy access to each PFI product.

The range included in this catalogue is constantly updated as a result of our corporate product development strategy, hence we reserve the right to make any changes necessary after the date of publication of this catalogue.

PFI product lineup is currently close to 2.300 different SKUs and growing at a fast pace. As bearing producers, we supply a wide range of deep groove ball bearings for automotive applications (standard, non-standard, miniature, inch, EQM bearings for alternators and starters, compressor bearings, clutch release bearings, tensioners and idlers), but also for agricultural applications (double row angular contact ball bearings, insert bearings, special agricultural ball bearings, UCP and UCF pillow blocks, as well as agri-hubs). Apart from these bearing families, we also offer a large portfolio of tapered roller bearings, not only metric and inch, but also special series and TRB kits. Finally, our wheel-end range, approximately 1.150 different SKUs, are long-life, low-friction 1st, 2nd and 3rd generation bearings, hubs and kits, that cover the vast majority of relevant American, European and Asian applications.

All PFI products are manufactured and tested as per the most stringent international quality standards, in state-of-the-art facilities, where we combine our American know-how with our 30-year-long expertise in order to deliver reliable, durable, high-performance bearings to all our customers around the globe.

Guía del comprador

El actual Listado general de producto proporciona un resumen completo de toda nuestra gama de productos, organizada de una manera fácil de usar para permitir un rápido acceso a la información de cualquier producto PFI.

La gama incluida en este catálogo se actualiza constantemente, como resultado de nuestra estrategia corporativa de desarrollo de productos, por lo que nos reservamos el derecho de realizar cualquier cambio necesario después de la fecha de publicación de este catálogo.

El portafolio de productos de PFI tiene actualmente cerca de 2.300 ítems y está creciendo a un ritmo acelerado. Como fabricantes de rodamientos, suministramos una amplia variedad de rodamientos rígidos de bolas para automoción (serie estándar, serie especial, en miniatura, en pulgadas, rodamientos de bolas aptos para aplicaciones eléctricas, como alternadores y motores de arranque, rodamientos de A/A, rodamientos de embrague, tensores y poleas), pero también para aplicaciones agrícolas (rodamientos de bolas de contacto angular, rodamientos autoalineables, rodamientos especiales, unidades de soporte UCP y UCF, así como agri-hubs). Aparte de estas familias de rodamientos, también tenemos una extensa oferta de rodamientos de rodillos cónicos, no solo métricos y en pulgadas, sino también series especiales y kits. Finalmente, nuestra gama de rodamientos de rueda, aproximadamente 1.150 ítems, incluye rodamientos, mazas y kits de larga duración y baja fricción, de 1.ª, 2.ª y 3.ª generación, que cubren la gran mayoría de las principales aplicaciones del parque vehicular estadounidense, europeo y asiático.

La fabricación y controles de calidad de nuestros productos son acorde a los estándares internacionales más exigentes, y se llevan a cabo en instalaciones de última generación, donde se combina nuestro know-how estadounidense con 30 años de experiencia, para entregar rodamientos con excelentes prestaciones y vida mejorada a nuestros clientes a nivel global.
