

PASSENGER CAR

Top-quality spare parts for all common vehicles:
a comprehensive selection for maximum safety
and performance

FOREWORD

Welcome to the world of OE Germany, a leading player in the independent aftermarket. As CEO, it is an honor for me to introduce you to our company and explain our relentless commitment to excellence in this dynamic industry.

As automotive technology continues to evolve, so do the requirements for replacement parts in the passenger car sector. Electronic components, sensors and other high-tech parts are becoming increasingly important, while the demand for traditional mechanical spare parts continues.

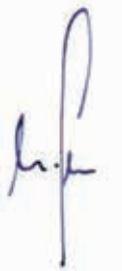

Our journey in the independent aftermarket began with a simple but powerful vision: to provide our customers with the highest quality products and services that exceed their expectations. We have built our reputation on a foundation of trust, reliability and a deep understanding of our customers' unique needs.

One of our key strengths lies in our team of dedicated professionals who have a wealth of knowledge and experience in diesel engine technology. Their passion for innovation and continuous improvement drives us to stay ahead of the curve and provide innovative solutions that meet the evolving needs of the market.

In the independent aftermarket, we have recognized the importance of offering a comprehensive range of products and services. From engine components and spare parts to technical service, we strive to fulfill all of our customers' needs from a single source.

However, our commitment goes beyond providing products and services. We believe in building long-term relationships with our customers by becoming their trusted advisors and partners in their success. Our dedicated team is always on hand to provide technical expertise and personalized recommendations.

Looking to the future, we are excited about the opportunities available to us on the IAM in the passenger car sector. With our customer-centric approach, unwavering commitment to quality and relentless pursuit of innovation, we are confident that we can meet and exceed the evolving needs of our customers.

Mario Jahn (CEO)

WE ENSURE PROFESSIONAL MOBILITY - WORLDWIDE

OE Germany is a young, dynamic company that has grown continuously since it was founded in 2010. We work with a highly committed international team. We focus on new standards, modern working methods and a cooperative management style. Our focus is on innovative and sustainable products, creating the perfect performance.

PASSENGER CAR PRODUCT PORTFOLIO

OE Germany's range includes selected parts for professional vehicle repairs for numerous makes and models. OE Germany relies exclusively on products from manufacturers and first tier suppliers.

Our strength lies in our selected product range of rubber-to-metal and powertrain/suspension components for the independent aftermarket (IAM). Rubber-metal parts in passenger cars play a decisive role in vehicle dynamics, driving comfort and durability.

Engine and gearbox mounts (rubber-metal)

- Release bearing
- Bush
- Trailing arm, wishbone, spring control arm, guide control arm, hydraulic control arm, differential
- Suspension strut support bearing
- Hinged Pulley
- Transmission bearing
- Engine bearing, switchable motor bearing

**OVER 5,000 PRODUCTS AND 120,000
VEHICLE APPLICATIONS**

The use of rubber-metal parts in these applications not only helps to improve driving comfort, but also to reduce noise and vibrations, increase vehicle stability and extend the service life of various components.

OUR QUALITY PROMISE

- OE Germany's range includes selected parts for professional vehicle repairs for numerous makes and models
- OE Germany relies exclusively on products from manufacturers and first tier suppliers. This ensures maximum profitability and prevents the risk of complaints
- Standard parts for current applications and sustainable availability according to EOP
- Our focus is on being able to offer the largest range of series parts

ORIGINAL SPARE PARTS

- Neutralized OE parts directly from the manufacturer
- Spare parts from the manufacturer's suppliers
- In OEG packaging (neutral packaging optional)
- Warranty similar to manufacturer
- Price advantage on the OES price
- Scope of delivery similar to vehicle manufacturer
- Quality classification according to Vehicle Regulation (EU) No.:461/2010

KNOWLEDGE FROM THE EXPERTS - EVERYTHING FROM ONE SOURCE

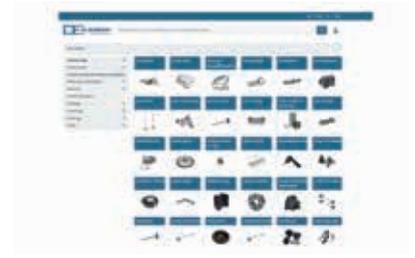

TECHNICAL INFORMATION

Practice for practice
Our product information provides you with service information, technical brochures and posters. Professional installation videos are clearly explained. In our OE Germany videos you will find practical installation instructions and system explanations for our products.

TRAINING COURSES

Directly from the manufacturer. Training courses and seminars are held on site or at our training centers in Esslingen.

WEBSHOP

Your direct access to all our products. Order around the clock. Quickly check availability. Extensive product search via engine, vehicle, reference numbers etc.

INDIVIDUAL MARKETING INFORMATION

We will provide you with comprehensive information and services on our wide range of products and services, such as sales promotion materials, sales support, technical information, brochures and catalogs, and much more.

NEWS

Regular information by e-mail. Register online for our free newsletter and you will receive regular information on new product launches, technical information, publications and much more.

SOCIAL MEDIA

Always up-to-date topics relating to our products and our technical service.

WE ARE AWARE OF OUR RESPONSIBILITY AND ACT SUSTAINABLY

For us, sustainable action is a fundamental building block for securing a future worth living on this planet for all of us in the long term. Sustainability is more than just a strategy for us. Certified quality and environmental management is one of our fundamental business principles and behaviors and is increasingly being integrated into all processes and the entire product portfolio.

PRODUCT QUALITY

High-quality branded products and their development ensure the consistently high quality of our products.

QUALITY ASSURANCE

Quality is of great importance to OE Germany. We use our certified, internationally recognized quality management system in accordance with DIN EN ISO 9001:2015 in all areas. This guarantees standardized processes at a high level in all areas. Stricter emissions regulations point to a future in which smaller and more powerful engines will be in demand - for both diesel and gasoline engines. The responsible use of resources, the protection of our environment and compliance with all relevant legal obligations are of great importance for long-term cooperation with all our partners. That is why our environmental management system is certified to ISO 14001.

LOGISTIC

Worldwide shipping via express, land, air and sea freight can be guaranteed by reliable and globally active partners. After secure packaging by trained specialists and modern machinery, delivery is fast and uncomplicated. This is made possible by lean and effective work processes.
