blacktech Air Springs — Designed Strong and Durable

Trust in blacktech when Replacing your Commercial Vehicle Air Springs

blacktech is an Aftermarket brand of Vibracoustic. We offer a market leading and strong quality Air Spring portfolio for the Commercial Vehicle Aftermarket. Our unique in-house engineering, material, testing and production expertise enable us to develop customized Aftermarket solutions.

We cover more than 80 percent of global Air Springs applications of major Commercial Vehicle manufacturers. We are continuously adjusting and expanding our Aftermarket portfolio to always meet your needs.

Our broad portfolio of suspension, cabin and seat Air Springs ensures a safe and comfortable ride. From minimum to extreme loads: Our strong quality Air Springs quickly change the spring rate depending on your vehicles' current load situation. blacktech Air Springs provide your Commercial Vehicles a longer cabin and vehicle lifetime along with less downtime and lower operating costs. Improved vibration

damping reduces fatigue and provides increased driving comfort for the driver as well as a relaxed and safe transport. Additional services such as detailed documentation, assembly instructions, technical services and our 2-year warranty policy round off our portfolio.

blacktech Air Springs — Designed Strong and Durable.

Choose from our
broad range of
more than

1,300

durable and reliable suspension, cabin and seat Air Springs. Our market leading portfolio does not compromise on comfort, safety, robustness and lifetime.
