

HOW WE WORK?

We have our own workshops at our facilities in Seville and Madrid. In this way we can ensure that we are working directly with our clients, making sure that the work is done right in a minimum of 24 hours and a maximum of 48. For the immediate supply of material, whether for work in workshops or direct sales, we have a vast catalog of material in our own warehouses.

BEFORE

AFTER

SHIPPING

We work nationally and internationally, collaborating with more than ten logistics companies so that the products reaches our clients in the shortest possible time.

Estimated time delivery inside our country: **12-48 hours**

AFTER-SALES

As a main objective, we seek the satisfaction of our customers. For this reason, we have a personalized guarantee department to offer the best attention, also after the purchase.

SATISFACTION

WHO ARE WE?

- We have more than 40 years of experience in the spare part business
- We offer our customers both original components for repairs and technical and commercial assistance.
- **DISTRIBUTORS OF FIRST BRANDS**
We serve only first quality products and brands: Pierburg, Continental, Marelli, Delphi, etc...
- Our commitment is to offer our customers **ONLY original and first level** components. For this reason, we work daily around the world with OEM manufacturers, bringing our customers closer to the part that the vehicle came with as standard.

WHAT WE DO?

In addition to offering personalized customer service, either at our facilities or by telephone, we offer a repair and testing service for a wide variety of components:

- Turbochargers
- Injectors
- Pump injectors
- Fuel pumps
- Catalysts
- Particle filters
