DIGITAL TOOLS

TO REDUCE ENERGY, TIME AND WASTE

Revolutionary Software and Devices

WELCOME TO THE FUTURE OF DIGITAL INNOVATION. One of the key factors that can significantly impact your business's success is the ability to accurately match and mix colours but also streamline your processes for maximum success. Thanks to the power of our unique digital tools, you can have the means to revolutionise your operation and drive profitability to new heights.

ZERO MISTAKES. The manual mixing process is replaced by an efficient, user-friendly and automated mixing system.

PROCESS EFFICIENCY A perfect, digital colour matching process with leading exclusive technology. Colour matching has never been easier.

DIGITAL PLANNING SYSTEM The IT solution to create a more efficient and structured working day in the bodyshop.

EFFICIENT LOGISTIC MANAGEMENT Inventory management for an overview of stock levels in real time and automation of the ordering processes.

VALUE ADDED SERVICES

FOR A MORE SUSTAINABLE BUSINESS OPERATION

For a Complete Upshift in Bodyshop Optimization

WE ARE MUCH MORE THAN YOUR PAINT SUPPLIER. Through our offer of on-site technical and energy audits we are able to capture valuable input about your processes and make data-based decisions to empower your team to adopt sustainable behaviors and processes and lower environmental impact. Our recommendations equip your team with the knowledge and skills to reduce waste, conserve energy, and make sustainable choices at every step of the repair process and beyond.

CALCULATORS

- ▶ **SPRAY BOOTH CALCULATOR**
For a more efficient use of the spray booth.
- ▶ **PRODUCT CALCULATOR**
The right choice of product.
- ▶ **CO₂ CALCULATOR**
For a Carbon reduced repair process.

MAKE **DATA BASED DECISIONS**

THAT HELP YOU **SAVE MONEY**

TRAINING & AUDIT

- ▶ **TRAINING**
F2F and online training on sustainability and repair processes that minimize energy consumption.
- ▶ **ENERGY AUDIT**
Data collection of some Sustainability-KPIs (energy consumption, CO₂ footprint, waste, etc.) throughout the bodyshop.
On-site visits with specific, individual recommendations for improving KPIs.

LOWER YOUR **ENERGY COSTS**
