# K2 VELOR<sup>PRO</sup>

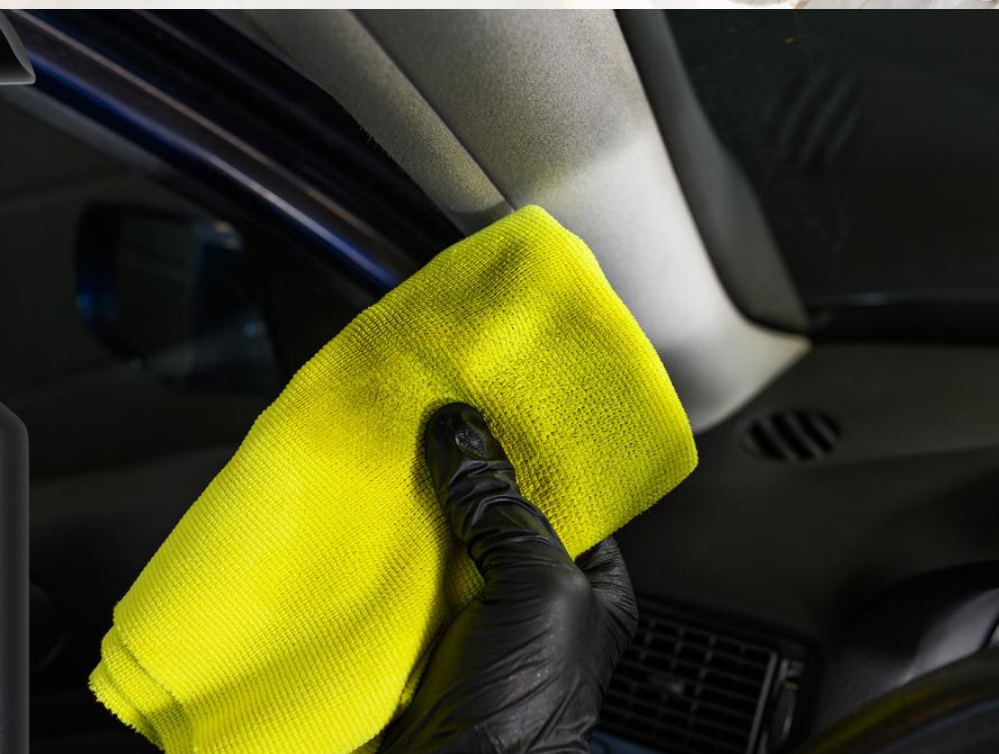

**Purifier of the sky.** K2 Velor PRO is the culmination of detailing dreams. The pearl in the crown and the cherry on the cake of K2 Pro Detailing. A product we dreamed of creating when the first black K2 Pro bottle came off the production line. Created with passion and heart, to chase away all the dark clouds from the headliner of your automotive world.

K2 VELOR PRO car headliner cleaner is a unique, convenient, ready-to-use product that does not require prior preparation. You don't have to waste energy on diluting it, you just take action straight away. K2 Velor Pro effectively removes stains and dirt. Moreover, it does not require rinsing, which minimizes the risk of the headliner getting wet. It has no negative impact on the color and structure of the cleaned material.

# K2 SCEPTER<sup>PRO</sup>

K2 Scepter – a convenient and exceptionally effective wheel cleaning brush.

It has flexible bristles with a density selected in such a way as to easily reach hard-to-reach corners of the rims. The soft bristles clean effectively, yet are gentle enough to be used on even the most sensitive surfaces and finishes.

The high durability of the nylon bristles allows the K2 Scepter brush to be used also with strong rim cleaning fluids (including K2 Roton and K2 Roton Pro). High chemical resistance protects the brush hair against degradation and deformation.

A solid handle with a rubber cover ensures a firm grip and high comfort of work, and a safe brush tip prevents scratches on the washed surface. The brush holder is equipped with a hole that allows it to be conveniently hung.

Composition:  
80% Polyester, 20% Polyamide

30 pcs in a package

**D5100**

# K2 KING<sup>PRO</sup>

## Microfiber for car drying

Thick, fluffy and extremely absorbent microfiber towel for drying your car and wiping off excess wax and polishes.

Eliminates the problem of white, unsightly water marks, which are visible especially on dark paints after washing the car without drying it.

The handy size of 40x60 cm and high absorbency allow you to dry the entire car in a few moments with just one towel.

You can successfully use it in a touchless car wash.

A specially selected microfiber weave and a dedicated trim ensure that the K2 King towel does not scratch the paint surface, does not leave streaks and collects water perfectly.

The towel has a grammage of 500g/m<sup>2</sup>.

It is made of synthetic fibers: 80% polyester and 20% polyamide.

The product is proven and recognized by professional car cosmetics salons in Poland and abroad.

It is highly durable, even after repeated washing it looks like new.

500g/m<sup>2</sup>

# K2 FLOSSY<sup>PRO</sup>

## Car drying towel

The K2 Flossy PRO microfiber towel is the most effective and largest car drying towel in the K2 offer. Undoubtedly a giant in the category of car drying towels with a grammage of 800 gsm (grams per square meter).

Extremely high absorbency is combined with the highest quality of workmanship, providing an excellent quality product that will work well in both amateur and professional applications.

D0220

60x90cm

800g/m<sup>2</sup>

# K2 WASHPAD<sup>PRO</sup>

## Car washing pad

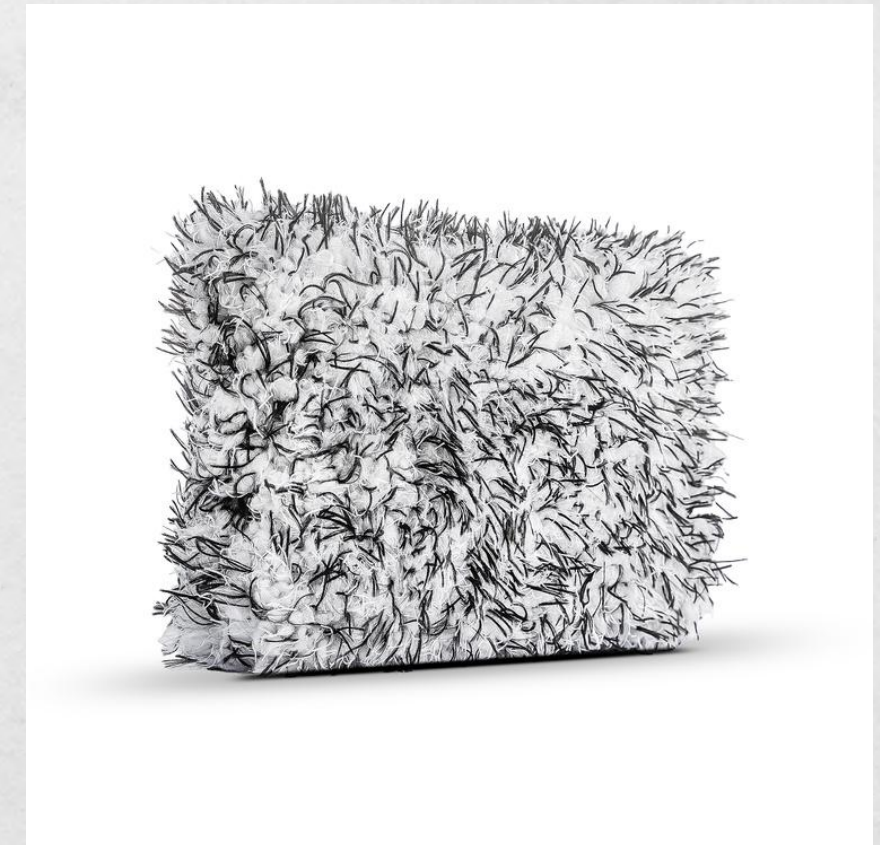

The K2 Wash Pad is your new favorite car care tool. This high-quality washing pad was designed just for you, a car cosmetics enthusiast. We created it with maximum ease of use and safe washing in mind.

K2 Wash Pad successfully replaces a traditional car washing sponge. It has an ergonomic shape that has been developed to adapt to the shape of the user's hand as much as possible. Thanks to this, the risk of accidentally falling out of your hand while washing is minimized. Regardless of the grip angle, the pad remains stable and comfortable to use, which makes the entire body washing process as effective and safe as possible.

M441

12x21cm

600g/m<sup>2</sup>

# K2 Lussy PRO

## Polishing towel

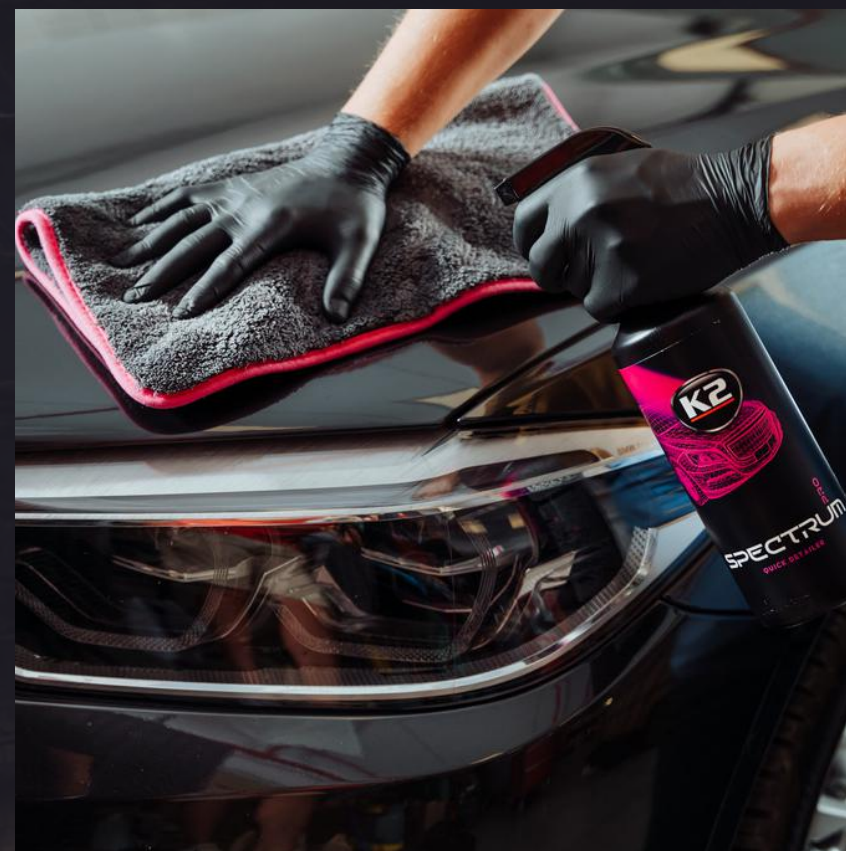

Designed for polishing, the unique K2 Lussy Pro microfiber cares for the varnish with the gentleness of a butterfly touching the surface of a lake at dawn. If your car's paint requires gentleness and absolute perfection of finish - fluffy K2 microfiber will be your dream come true.

Thanks to its high grammage of 1200 gsm and delicate, compact fibers, it is ideal for lapping waxes, ceramic coatings and for applying quick detailers. It lovingly gives shine to every centimeter of the varnish.

The carefully designed fiber structure and the handy size of 40x40 cm make working with K2 Lussy a real pleasure.

As befits a synonym for delicacy, it is completely safe for paint. It has a soft trim that eliminates the risk of scratching the paint. It works gracefully - it does not create dust and does not leave fibers.

Can be used repeatedly. Suitable for machine washing at 40° without the use of bleach or fabric softener.

D0222

# K2 POLY<sup>PRO</sup>

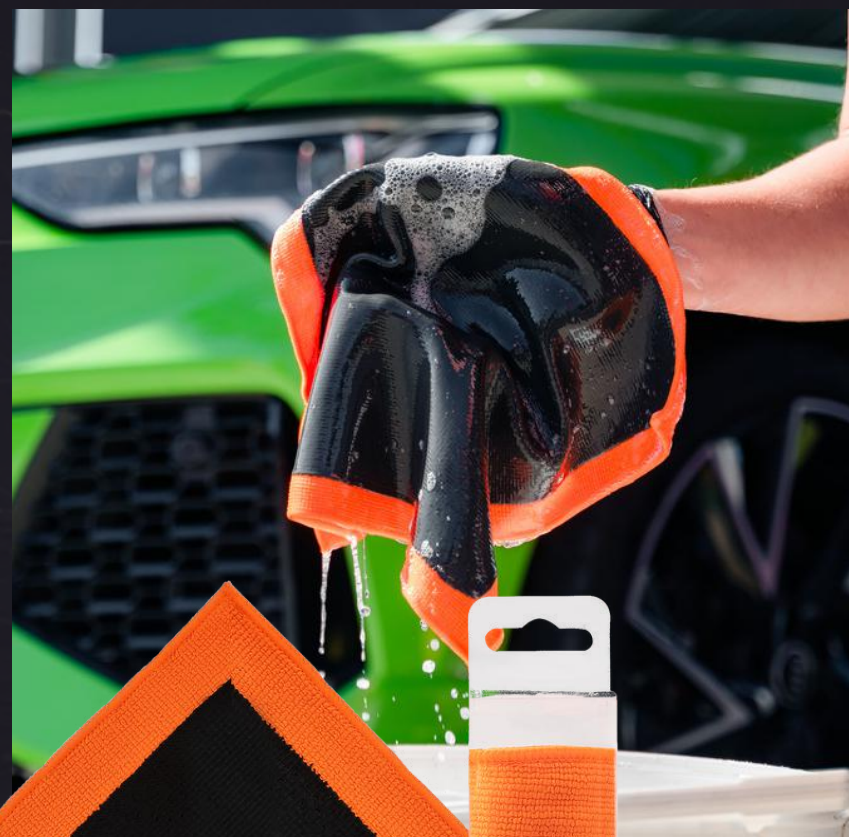

## Microfiber towel with clay

K2 POLY PRO is a professional towel with clay intended for cleaning car paint. The towel is covered with a layer of polymer replacing traditional clay. It quickly and easily effectively removes contaminants in the decontamination process, leaving the paint clean and smooth.

The K2 POLY PRO polymer towel is a completely new quality of paint cleaning. Thanks to the large surface of 30x30 cm, the cleaning process is quick and efficient. Compared to traditional clay, with the K2 clay towel you will finish your work up to 3 times faster.

D3010

30x30cm

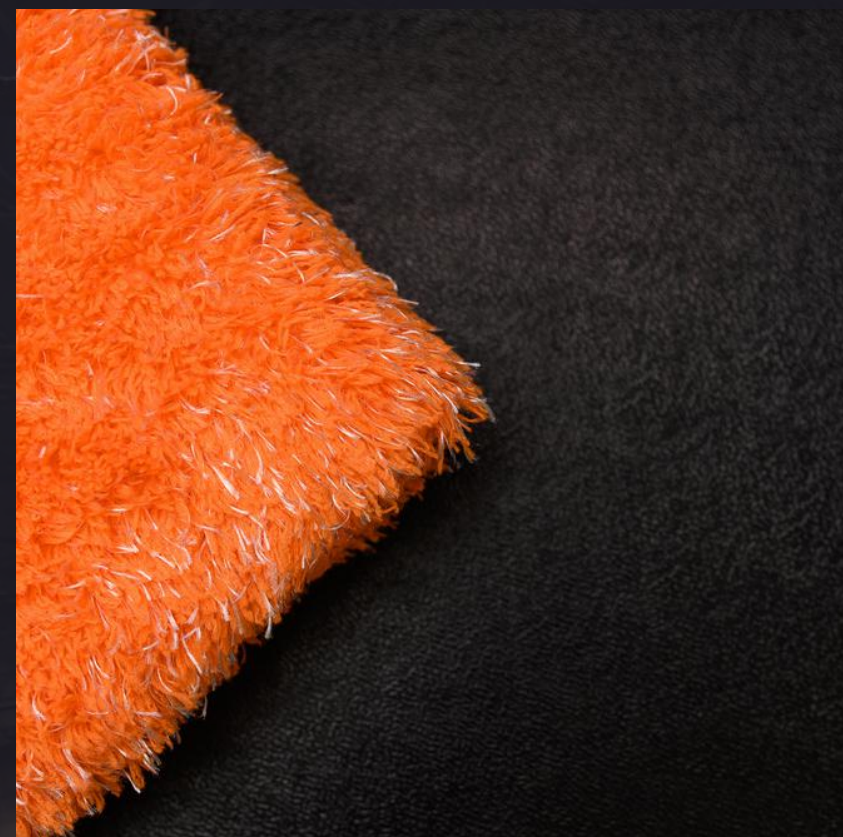

# K2 WASH MITT

## PRO

K2 WASH MITT is a high-quality car cleaning glove. Made of delicate and flexible microfiber, it prevents scratches during washing and easily adapts to the surface being cleaned. Its high absorbency and large surface guarantee high washing comfort and cleaning quality. Additionally, the internal handle and a special drawstring prevent the glove from slipping from your hand.

It is easy to keep clean, can be washed many times, and does not harden after drying.

M440

# K2 PINO PRO

## Ultra soft brush

K2 Pino Pro - ultra soft detailing brush, for removing dirt from the most inaccessible and scratch-prone elements inside and outside the car. Ultra-fine synthetic bristles are perfect for cleaning demanding surfaces and details, e.g. air vents, car LCD screens, as well as buttons on the steering wheel and dashboard. Designed for delicate piano black plastics, which will not cause any harm.

The ergonomic, plastic handle does not tire the hand and ensures comfort of use, and the high-quality bristles guarantee its durability and the safety of the cleaned surfaces. It can be used for dry and wet work.

M317

# K2 DURAFLEX PRO SYSTEM

Professional polishing pads with Velcro fastening, made of high-quality foam, ideal for polishing paint coatings.

Suitable for professional workshops, durable and ergonomic, they ensure precise polishing, safely and effectively.
