DUBHE.

Dubhe is the Italian distributor specialized in spare parts for trucks and commercial vehicles, with a strong focus on engine, gearbox and differential components.

.....

About us.

>> Dubhe takes its name after one of the brightest stars. It's also a symbol of the ambition of becoming a reliable reference partner capable to guide a customer towards aftermarket solutions with the highest quality standards.

The company achieved a leading position on the market made easier by a presence throughout domestic market as well as by a growing foreign distribution network.

This makes Dubhe **a benchmark for spare parts requested** for commercial vehicles repairing, offered with our private labels and our partners' brands.

The new group, as result of the collaboration of Mec-Diesel, C.E.I. Costruzione Emiliana Ingranaggi and Le.ma, represents a benchmark with over 50 years of experience in the Italian aftermarket.

Dubhe offers a wide range of products to national and overseas customers, both under its own brand and premium brands, thanks to **extensive technical, production, and market knowledge**.

Mission

The company aims to expand its product range with new part numbers through **continuous research and development**, implement logistics investments to ensure maximum warehouse availability, and guarantee fast and cost-efficient shipment solutions to the customers.

The goal is to become the **European reference partner** for the repair of trucks and commercial vehicles, ensuring **reliability** and **quality** equal to the original product and providing comprehensive coverage for the fleet of **European commercial vehicles**.

At the service of spare parts dealers

Dedicated customer service and qualified employees to assist you.

Immediate availability

over 60.000 items in stock.

Innovative online shop to improve your work flow.

Customer-care by your side We reach more than 100 countries worldwide.

Solid technical experience

developed throughout 50 years of history.

Research and developement with quality assurance system.

Distributed brands.

Responsiveness, innovation and solidity enable the group to distribute original, aftermarket and private-label branded products.

With the aim of providing a valid alternative to the OE products, our brands **guarantee high-quality standards.**

8.8K Mec-Diesel references

Products dedicated to engine and engine overhauling.

8.6K C.E.I. references Products dedicated to gearbox and differential.

8.2K

Products dedicated to gaskets and metal-rubber components.

100 Heavybelt references Products dedicated to belts,

tensioners and pulleys.

10

We are distributor of our private labels:

The Dubhe shop facilitates easy and fast order placement. It is an online catalog rich in information and product details, allowing customers to place orders and independently manage all related documents.

Personal area

Manage and organize information and documents related to your account.

Warehouse availability

Easily identify the availability of each product in the warehouses.

The business unit that combines the experience of **Mec-Diesel** and **Le.ma**. It encompasses all mechanical components playing a crucial role in the optimal operation of the endothermic engine.

Long-established private labels in the Italian aftermarket.

Years of experience in spare parts manufacturing.

Available items in the business unit.

Powertrain.

engine overhauling cylinder heads and valve train components gaskets assembled engines cooling system oil pumps and lubrication turbochargers clutches and flywheels engine management regular maintenance intake and exhaust rotating machines fuel system

Engine overhauling.

Strong points

- > Kits designed for optimizing engine repair times.
- > Range in continuous development.
- > Technical expertise in support of the customer.

Product groups

Pistons • Cylinder Liners • Bearings • Piston rings • Repair set of piston-liner Thrust washers • Conrod bushes • Cylinder liner shims • Crankshafts Connecting rods • Connecting rod bolts and nuts • Crankcases • Overhaul kits.

Cylinder heads and valve train components.

Strong points

> The extensive range and proven product quality are the result of 40 years of experience.

> Coverage of the fleet of major European commercial vehicles.

Product groups

Camshafts • Engine valves • Rocker arms • Tappets • Cylinder head bolts Head covers • Injector holders • Rocker shafts • Pushrods • Cylinder heads Camshaft bushes.

Product items available in the division.

- > Complete kits for engine overhaul.
- > Careful selection of materials to ensure high performance.
- > Customized production upon request.

Product groups

Overhaul gasket sets • Grinding sets • Complementary sets • Head gaskets Oil sump gaskets • Engine oil seals • Head cover gaskets Intake and exhaust manifold gaskets • Chemical products.

Assembled engines.

Strong points

- > Multiple solutions to meet customer needs.
- > Configurations designed to minimize vehicle downtime.

Product groups

Complete engines • Long blocks • Short blocks.

1.4K+ Product items available in the division.

Cooling system.

Strong points

> Accurate material selection to ensure strength and durability over time.

> Wide range of brands.

Product groups

Water pumps • Thermostats • Hoses • Tanks and plugs • Water hoses (per meter) Radiators and heat exchangers • Hose clamps.

3.8K+ Product items available in the division.

.....

Oil pumps and **lubrification**.

Strong points

- > Ever-evolving product range.
- > Continuous pursuit of quality standards equivalent to OE products.

Product groups

Oil pumps • Oil sumps.

750+ Product items available in the division.

Turbochargers.

Strong points

- > Official distributor of leading brands.
- > Pre and post-sales assistance.

Product groups

Complete turbochargers • Core assembly.

Clutches and flywheels.

Strong points

- > Complete sets for clutch assembly replacement.
- > Use of high wear-resistant lamellar cast iron.
- > Advanced balancing system.

Product groups

Clutches • Flywheels • Ring gears • Clutch components.

1K+ Product items available in the division.

Engine management.

Strong points

- > Improved engine performance, increased durability, and reduced emissions.
- > Responsive and precise sensors for accurate engine management.

Product groups

Sensors • EGR valves and throttle bodies.

1.2K+ Product items available in the division.

- > Careful analysis of materials and technologies.
- > Structural and dimensional testing to ensure strength and long-term durability.

Product groups

Filters • Timing • Belts and tensioners • Other components.

4.5K+ Product items available in the division.

> For efficient exhaust gas treatment in compliance with emission standards.> High quality standards.

Product groups

Denox • Intake • Exhaust • Intercooler.

.....

Rotating machines.

Strong points

- > Pursuit of elevated quality standards.
- > Range development for comprehensive fleet coverage.

Product groups

Alternators • Starters.

550+ Product items available in the division.

- > For an always efficient injection system.
- > High performance with precise fuel injection and reduced consumption.

Product groups

Injectors • Injection pumps • Injection management and other components Fuel pipes • Fuel system.

1.2K+ Product items available in the division.

The business unit that focuses on the experience of **C.E.I. Costruzione Emiliana Ingranaggi**. It refers to the set of components whose purpose is to transfer the power generated by the engine to the axle.

Long-established private labels in the Italian aftermarket.

Years of experience in spare parts manufacturing.

Available items in the business unit.

Driveline.

transmission shaft gearbox complete gearbox differential

Transmission shaft.

Strong points

- > Rigorous tests on the finish quality of rolling surfaces.
- > Accurate material selection to reduce levels of noise and vibrations.

Product groups

Universal joints • Flanges • Transmission shaft supports.

370+ Product items available in the division.

- > Interchangeability with OE components.
- > Preassembled kits for optimizing transmission repair times.
- > Use of high-strength alloy steels.

Product groups

Gearbox components • Synchronization • Gearbox seals and bearings • Gaskets Retarder.

7K+ Product items available in the division.

Gearbox.

Strong points

- > Range of new and regenerated manual transmissions.
- > Testing conducted through advanced test benches.

Product groups

Complete gearbox.

Product items available in the division.

.....

- > Wide range of items for the complete overhaul of differential assemblies.
- > Complete assemblies tested on a test bench.
- > Use of high-strength alloy steels.

Product groups

Complete differential • Bevel gears • Differential bridge components Seals and bearing for differential.

2.5K+ Product items available in the division.

The business unit that combines the experience of three historic Italian brands. It includes product lines related to suspension, steering, braking system, and body components.

Long-established private labels in the Italian aftermarket.

Years of experience in spare parts manufacturing.

Available items in the business unit.

Chassis.

equipment bodywork wheel hubs and bearings brake system suspension steering

Applications Car·Light commercial vehicle Heavy duty vehicle•Bus

Equipment.

Strong points

> Products approved in accordance with national and international regulations for the safety of the transport operator.

Product groups

Workshop equipment • Personal and vehicle equipment.

available in the division.

 > Products designed with cutting-edge technologies to provide the best possible product to our partners.
> Reliability comparable to the original equipment.

Product groups

Cabin suspension • Cabin lifting device • Safety signs • Fuel caps Electrical plugs and spiral cables • Lighting • Body parts • Electrical system.

Product items available in the division.

Wheel hubs and bearings.

Strong points

> Premium brand bearings for achieving the best performance. > Assembled wheel hubs ready for installation and for an efficient vehicle repair.

Product groups

Wheel hubs • Wheel bearings • Nuts, bolts and studs • Sealing rings.

870+ Product items available in the division.

Strong points

- > ECE R 90 approval for brake discs and pads.
- > Wear resistance guaranteed through rigorous laboratory checks on materials.

Product groups

Brake discs • Drums and shoes • Pads and indicators • Brake calipers Hydraulic braking • Compressed air.

2.7K+ Product items available in the division.

Suspensions.

Strong points

- > Dynamic tests for monitoring operational strength.
- > Shock absorbers and air springs with quality equal to OE products.

Product groups

Shock absorbers • Air springs • Leaf spring suspension Silentblocks and stabilizer bar supports • Reaction bars.

2.8K+ Product items available in the division.

Strong points

- > Complete sets for steering system overhaul.
- > Accurate selection of high-strength materials.

Product groups

Tie rods and heads • King pin kits • Steering cylinders.

Contacts.

In order to offer a service increasingly **efficient and oriented to reducing delivery times**, Dubhe sees the distribution capacity of its logistics centers as one of its main strengths.
