

ALUMINUM, STEEL AND GLUE DENT REPAIR STATION

MWS-GTK-AL-ST-110V-A

THE PROFESSIONAL DENT REPAIR SOLUTION

Get the best of all worlds with the MWS-GTK-AL-ST station, the professional solution for your dent repair needs. With the PR-3, DA-3 the PRO-GTK Glue tab kit and a variety of pulling tools on one mobile station, you can repair any dent anywhere in the shop.

The MWS-GTK-AL-ST station also offers a wide range of dent pulling accessories and tools. These added tools gives technicians the ability to pull any dent on any material.

The station provides plenty of storage space to ensure that steel and aluminum tools are stored separately and safely.

ALUMINUM, STEEL AND GLUE DENT REPAIR STATION

MWS-GTK-AL-ST-110V-A

PR-3 AUTO STEEL DENT PULLING

The PR-3 Auto generates precise current and time to prevent damage and corrosion to the backside of the workpiece.

The PR-3 Auto senses when the pull key has made contact with the material and automatically welds the key to the piece being repaired. The Auto feature is very quick and user friendly.

DA-3 DENT PULLING SYSTEM

The Pro Spot DA-3 Synergic Drawn Arc welder easily applies pulling keys and threaded studs so that various tools can be used to pull dents from steel and aluminum panels.

The DA-3 serves different functions for a variety of repair procedures, it has a color graphics screen for easy and intuitive setup, customizable and storable weld programs, SD card memory to update and add programs, and is *extremely lightweight*.

PRO-GTK GLUE TAB DENT REPAIR KIT

the Pro Spot Glue Tab Dent Repair Kit will help with your dent repair process by cutting repair time by avoiding welding or arc procedures.

This kit works on Aluminum and Steel, directly on painted materials. No need to grind. It has multiple style pull accessories for any dent and Reusable Pull Tabs. No Panel Removal is required and it eliminates any backside corrosion, burn through and welding.
